

## Sweetness/Chickie

Sweetness came to Crossing Paths from a backyard puppy mill in 2015. Frightened at first, she soon learned to trust us despite her puppy mill horror. And she chose to look ahead instead of letting those horrors mold her future. At 4 years old, she couldn't think of anything better than sitting in your lap. This pretty, white, 8 lb. poodle was adopted by Molly and Jim who adored her and showed her how wonderful life could be. But that life with them was shortened by Lymphoma on July 17th, only 3 years after adopting her. They say, "We renamed her Chickie, and she became the center of our lives. We were blessed to have her these past 3 years. It's extremely difficult losing our Chickie." The center of their lives? They were the center of hers, too.
