PORTUGUESE PODENGO PEQUENOS
of AMERICA
NATIONAL SPECIALTY * 2018

President's Letter

Happy Holidays!

As I write this letter our 2017 National Specialty has passed, and I would like to thank each one of you who participated and who made this Specialty a HUGE success. Congratulations to all the winners! We are looking forward to our 2018 National to be held at Purina Farms on September 14th. with supported entries on the 15th. and 16th. Please watch for updates on our website as well as our FB pages. I know that the Show Committee has a lot planned so don't forget to mark your calendars and plan for this annual event.

The Board has worked diligently on revising our Bylaws. I hope everyone has had a chance to review them. After AKC has looked at the revisions and given us their comments, we will then be sending the revised Bylaws to the membership for a vote.

Since I last wrote to you, the Board has approved our Versatility Program. Look on our website to find out how to qualify and apply for your Versatility certificate. It's great that we have people doing performance with their dogs. Our first recipients for the Versatility certificates are Charlene Wiglesworth with Tank and Linda Raphael with Jett. Congratulation to both of you and your dogs, what an amazing accomplishment you all have achieved!

The Board has approved and sent a check to the Sonoma County Animal Shelter for help with medical cost for dogs affected by the fires in that area. The Board felt that by helping the animals directly through the people with boots on the ground we would be able to help a wider range of animals whose medical expenses might be ongoing due to the severity of their injuries.

We are still looking for volunteers to help with the Meet the Breed booth at Westminster this coming year. If you plan on attending and can give an hour or two of your time to help the club introduce our wonderful breed to the general public, I know Margaret Boisture would really appreciate your help. Please contact Margaret at: Margaretboisture@gmail.com.

I want to take this time to wish all our Members a Happy and Merry Christmas and a prosperous New Year! Looking forward to seeing you all in Orlando for the AKC National Championships.

PPPA National Specialty Critique

Thank you for the honor of judging your National Specialty, it was very exciting to have such a lovely entry to select from and I was very pleased with my final selections.

Breeders have done a good job of keeping the body length as described in your standard, and maintaining moderate proportions. Smooth coats were dense and wire coats harsh – all without sculpting or trimming leaving the breed rustic. Much attention in the standard is dedicated to the wedged shaped, four sided pyramid head, heads were overall pleasing, ears were uniformly erect and well placed, one area I would encourage watching is your eye shape and size. I noted some larger, rounder eyes, instead of the smaller, almond shaped eye, it affects the character and expression.

Toplines were level and held on the move, tail carriages appropriate and hindquarters moderately angulated and strong. Although the standard calls for elbows to be tucked in, it should not result in the forelegs toeing out, and I did see more of that than I would have liked. Chests reached to the elbows, but the standard calls for a slight spring of rib, and found some that were more than 'slightly sprung' through the rib cage, which would be counterproductive when going into small spaces for game.

Your exhibits moved in an efficient, balanced manner at the light agile trot called for without effort. As expected, those heavier in chest and body, moved wider with more rolling/flipping motion on the down and back. Please don't fall prey to the 'racing' around the ring, with this breed. I loved your happy, outgoing temperaments, the fit condition of your dogs, and the breeders respect and compliance to the size dictated in your standard.

We want to breed the 'perfect' dog; with your breed being relatively new in the US and having two prescribed coats, your breeders are establishing consistency and maintaining type.

Thank you so much for this opportunity, it was a pleasure.

Susan Coomer-Souza has done a wonderful job with the PPPA Awards Program. This year all the awards, retroactive to 2013, were handed out as well. Congrats to all the individuals who received this wonderful form of appreciation from the club. Thank you for all you do with your dogs.

Introducing...

PPPA Health and Research Committee Report to the Club

November 23, 2017

Important Date

We have just passed an important date in the DNA testing of Portuguese Podengo Pequenos. November 16th was the first anniversary of finding the prcd/PRA mutation in two already diagnosed dogs. Eija Sandholm, President of the [Finland Podengo Club](#), had several dogs who were diagnosed with PRA but had not shown positive on any other DNA test. This was truly a break through and has led to finding the most prevalent form of PRA in the breed.

Henriette Folke, Official recorder of Podengos and member of the Breeding Committee of the [Swedish Podengo Club](#), has been championing the cause of testing in Sweden, Norway, Germany, and the Netherlands.

Because of the efforts of these two ladies and others we now have three voluntary lists of tested dogs. All three lists are accessible from the [PPPA Website Health Page](#). There are now over 150 dogs published on these lists.

Please, if you have DNA tested your dogs, consider listing these on our free list. The PPPA Health Committee recommends that BOTH partners should be [DNA tested](#) for the three known mutations prior to breeding. If they are not listed on the free listing page, request documentation from the breeder. When testing at Paw Print Genetics, make sure to take advantage of the 50% savings on the package by using **Code PPPA17**. If you have any questions, please let us know.

Eye Testing

Yearly eye tests are a requirement to keep your CHIC status active. You must remember that the DNA testing above is no substitute for the yearly eye examination. There are many other eye conditions that can only be found by the examination by an ACVO diplomat.

In 2016, OFA only recorded 12 eye tests after 74 in 2015. This year so far (Sep. 30th) OFA has recorded 29 Eye Tests.

CHIC Status

We currently have 83 dogs who have been given [CHIC numbers](#) indicating that they have completed the three test requirements for HIPS, Patellar, and EYES. Remember that the issuing of a CHIC number **does not** indicate that they have passed the tests or indicate the Grade Level that may have been assigned. Always look at the information on OFA for actual results. Should your CHIC logo go gray it will mean that your eye test is over a year old.

Sincerely,

Robert "Bud" Hidlay, Chairman
PPPA Health and Research Committee
