

Never Fumble with Your Keys Again

The new Keyport Slide 2.0 has reinvented the conventional keychain. The Slide holds up to 6 keys or inserts, yet is roughly the size of a pack of gum. The Keyport blades replace traditional keys, fit securely in the Keyport Slide, are easily inserted and removed, and feature a one-size-fits-all head.

It's compatible with most standard keys, including house keys, high-security keys, transponder-chipped auto and motorcycle keys, small mail and padlock keys, and bike lock keys. You can customize the Slide with useful tools like a flash drive, mini-light and bottle opener. It all provides easy access to keys and tools with the slide of a thumb. Cost: \$29 plus accessories and inserts. Sold at www.mykeyport.com.

Have a Great Cup of Coffee – Your Way

The new TRU Crossover Coffee Brewer (retail price: \$109.99) by Select Brands is versatile and convenient. Coffee lovers will appreciate that they can not only brew single cups of coffee with the oh-so-popular K-cups, but can also brew an entire 10 pot of coffee as well.

Key features: Single Cup or Full Pot Versatility with one machine; Compatible with all K-cup varieties; Saves counter space; Three single-serve selections (6, 8, or 10 oz); Accommodates travel mugs. Sold at retailers including Target and Bed Bath and Beyond. Product info at www.selectbrands.com.

Not Enough Energy and Too Little Sleep

Does that sound like you? Maybe some supplements can help fill the deficit. BioTerra Herbs are non-GMO project verified, all-natural, globally sourced and gluten-free supplements. Their supplements are available online and at Walmart, Walmart.com, Walgreens and Walgreens.com.

They offer four formulas for common problems many women face: lack of energy, lack of sleep, snoring (his or her) and detoxing. You can learn more about BioTerra Herbs on their website www.BioTerraHerbs.com.

Does Your Fridge have Bad Breath?

When it comes to your refrigerator, there's nothing worse than mold, smelly odors, and fresh produce going bad just days after purchase. Now there's a new invention that can solve these problems and more.

BerryBreeze is a compact device that filters and cleans the air in your fridge which can put an end to the premature aging of fruits, veggies, and meats. It naturally kills odors, molds, yeasts and fungi known to spoil foods while it neutralizes bacteria and other harmful microbes. Using it could help to save an estimated \$2,200 per year per household by avoiding spoilage of food in the fridge.

BerryBreeze is a chemical-free, filter-free, and absorption pack-free solution. It has a time release of oxygen that neutralizes bacteria and mold, eliminates pollutants, and keeps foods fresh for up to ten days longer. Set the BerryBreeze on the top shelf of your refrigerator to start enjoying a fresh fridge and longer lasting foods right away. Cost: \$49.95. Available at www.berrybreeze.com.
