

PRODUCT DATA SHEET

The D7-DPS is a single skin reveal panel system with variable depths. The system can be made in depths from 1" up to 3" deep. We have incorporated male and female joinery into each panel making for a trouble-free installation. The DPS system is available in any color you can imagine. For custom colors, we can post paint panels to match your specific requirements.

D7-DPS Features and Information:	
System:	Progressive Installation
Joint Type	½" reveal standard – Custom sizes available
Underlayment	Waterproofing Weather Barrier Required
