About Mom Prom

Mom Prom is a highly anticipated ladies' night out and a celebration of all women. Mothers, daughters, sisters and friends will gather to laugh and be silly while generously supporting pediatric brain cancer research.

Pediatric Low-Grade Astrocytomas (PLGAs) are the most common pediatric brain tumor. There is no cure for PLGAs and most are inoperable. First line chemotherapy for PLGAs is archaic, toxic, and ineffective, causing significant and permanent collateral damage to growing children. With scientific advances, accelerating research to find more effective targeted therapies is quite realistic.

Chickaroo is the nickname of Caroline Hamilton. This affectionate moniker was elevated to team status when Caroline was diagnosed with a PLGA in 2007. Discouraged with treatment options, her family and friends were compelled to make a difference. Since then -- Team Chickaroo has raised over \$1M for the Jimmy Fund to support PLGA research at the Dana Farber Cancer Institute.

The Event

FRIDAY, MAY 6, 2022 | 7:00 PM
MERRIMACK VALLEY GOLF COURSE | METHUEN

Nearly 200 exceptionally stylish women will travel by party buses and limos from throughout the Merrimack Valley and Boston's North Shore and Metro-West suburbs. They'll dance, take selfies, and pose in the photo booth. They'll vie to be crowned Mom Prom Queen, win drawing prizes, and to be the high bidder of coveted silent auction prizes. All funds raised will support pediatric brain cancer research at Dana-Farber Cancer Institute.
