

# Riversedge Green Wall

## GENERAL INFORMATION

**Project Title:** Scioto Trail  
**Project Owner:** City of Columbus  
Department of Parks & Rec  
**Engineer:** DLZ, Inc.  
**Location:** Along The Scioto River  
("Riversedge") Columbus  
in Columbus, OH  
**Product Used:** Geoweb Green  
Wall System  
**Quantity:** 400 linear feet if long  
1840sf exposed wall fac  
**Installed By:** Midwest Landscape, Inc.  
**Install Date:** Spring 2013  
**Contact Info:** Mike Willman

## BACKGROUND

### **Reason for Product Use:**

The city of Columbus Parks & Recs wanted a "green wall" to blend in with the surrounding green space along their Scioto Trail Job parallel to the Scioto River.

### **Problem Being Addressed:**

Slope cut back to allow for the installation of a 10' wide concrete & asphalt walk and bike trail. Sidewalk & railings to be installed on top of the wall.

## **PRODUCT DETAILS**

**Type of Product:** Presto Geoweb  
(GW30V60803G1)

**Design Type:** Reinforced Facia

**Existing Product:** None

**Design:** The design criteria was provided by DLZ, Inc.. Various designs were proposed by Presto Engineers and a reinforced wall was chosen due to site conditions and ease of installation. The front cells of the wall were sprigged with Pachysandra ground cover with sensitive ferns interspersed.

## **RESULTS**

The project was installed fast and the owners expectations were met.
