

Take the Political Challenge! What do you think?

Mark the box on the left or right which most nearly reflects your view; each is worth 10%

I THINK THAT:

OR

I THINK THAT:

<input type="checkbox"/> Congress was right to push through Obamacare (The Affordable Care Act), unread.	<input type="checkbox"/> Everyone must have access to healthcare, but it should not be government run.
<input type="checkbox"/> The U.S. Constitution is a living document, and the Supreme Court should modify it to fit modern needs and societal beliefs.	<input type="checkbox"/> The U.S. Constitution can only be modified by 2/3rds vote of Congress or 3/4ths vote of State legislatures. Its change by court decree is unconstitutional.
<input type="checkbox"/> The “rich” should be taxed to distribute their excess wealth to the less fortunate. “Rich” involves income over \$250K per year.	<input type="checkbox"/> Forced redistribution of wealth is socialism and confiscation of the fruits of one's own labor. Personal charitable giving is a U.S. Tradition.
<input type="checkbox"/> The 2 nd Amendment is obsolete, so private gun ownership should be illegal and guns confiscated as they have been in Britain and Australia.	<input type="checkbox"/> Our Founders wrote the 2 nd Amendment to assure citizens can remain free from government tyranny and for personal protection. It will be essential as long as our government exists.
<input type="checkbox"/> It is OK for government to regulate how property owners manage their lands and limit its use without owner compensation.	<input type="checkbox"/> Government should not make unfounded mandates on landowners; it must respect our property rights as guaranteed by the 5 th Amendment.
<input type="checkbox"/> Government should oversee how our children are educated, fund pre-school through 12 th grade, set the key curriculum, and assure our nation remains competitive globally in educational achievement.	<input type="checkbox"/> The Federal Government should be limited to assuring a uniform level of state funding for education. School personnel policies and curricula should be formulated by individual school districts in coordination with individual states.
<input type="checkbox"/> Illegal aliens are entitled to the same benefits and protections as U.S. citizens. After all, they are human beings too. Nation borders and therefore sovereignty are becoming obsolete in today's world economy.	<input type="checkbox"/> Rights and benefits are earned by being a citizen. One of the U.S. Government's most important duties is to protect its citizens and borders. It should have a manageable guest worker program and maintain its strong legal immigration program. No blanket amnesty should be granted.
<input type="checkbox"/> The federal government has a constitutional authority to rule on abortions and to redefine marriage.	<input type="checkbox"/> Government has no authority to intrude on our religious beliefs and moral responsibilities.
<input type="checkbox"/> Why teach the U.S. Constitution, the Bill of Rights, or the Declaration of Independence in School? They are old history and irrelevant now.	<input type="checkbox"/> If our children do not know how and why our Representative Republic was born (with great labor pains), how will they keep it a Republic?
<input type="checkbox"/> Government officials know better than poorly informed or uninformed citizens on how best to run our nation.	<input type="checkbox"/> A representative republic like ours is a messy government, but it is “Of the People, By the People, and For the People” not of, by and for some elite “ruling class”.
