INDEPENDENT AUDITORS' REPORT

To the Board of Directors St. Charles Council on Aging Hahnville, Louisiana

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Charles Council on Aging, Hahnville, Louisiana, (the Council) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are

appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Council as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis (pages 4 through 19) and budgetary comparison information (pages 65 through 71) be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Council's basic financial statements. The accompanying Combining Schedule of Revenues, Expenditures, and Changes in Fund Balance - Nonmajor Governmental Funds and the Comparative Schedule of Capital Assets and Changes in Capital Assets are presented for purposes of additional analysis by the Governor's Office of Elderly Affairs (GOEA). In addition, Louisiana Revised Statute 24:513 (A)(3), as amended, requires the Council to present a supplementary schedule of Compensation, Benefits, and Other Payments Made to the Council's Executive Director for the fiscal year. These schedules are not a required part of the basic financial statements.

The information in these three schedules is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Report on Other Legal and Regulatory Requirements

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2018 on our consideration of the Council's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Council's internal control over financial reporting and compliance.

Thibodaux, Louisiana

December 14, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

St. Charles Council on Aging, Inc. June 30, 2018

The following discussion and analysis of the St. Charles Council on Aging, Inc.'s financial performance provides an overview and analysis of the Council's financial performance and activities for the year ended June 30, 2018. This document focuses on the current year's activities, resulting changes, and currently known facts. Please read this document in conjunction with basic financial statements, which follow.

Financial Highlights

- The Council showed an increase in overall net position of \$196,617, or about 13.4%.
- Net capital assets of the Council decreased by \$20,238, or about 4.9%.
- The Council's fund revenues increased by \$170,628, or about 10.6%.
- Fund expenditures decreased by \$348,595, or about 18%.
- The unassigned fund balance for the Council's General Fund was \$1,199,768, at year-end, whereas last year's unassigned fund balance was \$1,022,856.
- No deficit fund balances existed at year-end.
- The Council has no long-term debt.
- Administrative expenses decreased by \$122,011 or about 30% this year. In addition, administrative expenses were about 16% of the Council's gross operating revenue for this year versus 26% last year.

How to Use This Annual Report

The Council's annual financial report consists of six parts:

- (1) Management's discussion and analysis (this section)
- (2) The basic financial statements (government-wide, fund, and footnotes)
- (3) Supplementary financial information required by GASB 34
- (4) Supplementary financial information required by GOEA,
- (5) Supplementary financial information required by Louisiana law, and
- (6) Auditor reports.

Government-wide financial statements are comprised of the Statement of Net Position (Exhibit A) and the Statement of Activities (Exhibit B). These financial statements provide information about the activities of the Council as a whole and present a long-term view of the Council's finances. In contrast, the fund financial statements, which consist of the Fund Balance Sheet (Exhibit C) and the Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit D), tell how services were financed in the short-term, as well as what remains for future spending for governmental funds. Fund financial statements also report the Council's operations in more detail

than the government-wide financial statements by providing information about the Council's most significant funds.

The Council's auditor has provided assurance in his independent auditor's report, located immediately before this Management's Discussion and Analysis (MD & A), that the Basic Financial Statements are fairly stated. The auditor also mentions in his report that he has performed limited procedures about Management's Discussion and Analysis and certain budgetary comparison schedules required by accounting principles generally accepted in the United States of America (specifically, Governmental Accounting Standards Board (GASB) Statement 34) in this reporting package but did not audit them and therefore expresses no opinion on them. Finally, the auditor states in his report that he has applied certain audit procedures to the supplementary financial information presented for purposes of additional analysis by the Governor's Office of Elderly Affairs (GOEA) and a supplementary schedule of compensation, benefits, and other payments made to the Council's executive director as required by Louisiana law, and that this information is fairly stated in all material respects in relation to the financial statements as a whole.

On page 77 of this reporting package is a second report by the independent auditor. This report is on the Council's compliance and internal control over financial reporting based on an audit of financial statements performed in accordance with *Government Auditing Standards*. In that report the auditor did not identify any deficiencies in internal control over financial reporting that he considered to be material weaknesses. In addition, the auditor stated that his tests did not disclose any instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

BASIC FINANCIAL STATEMENTS

The basic financial statements consist of the government-wide financial statements and fund financial statements, which present different views about the Council, along with notes to the financial statements.

Government-Wide Financial Statements

The government-wide financial statements are prepared using the accrual basis of accounting and are designed to provide readers with a broad overview of the Council's finances in a manner similar to a private sector business. When using these financial statements, the user should consider whether the Council's finances, as a whole, have improved or deteriorated since last year. The government-wide financial statements (Exhibits A and B) report the Council's net position and changes in them. However, to assess the overall financial position of the Council, the user

must also consider non-financial factors, such as the condition of the Council's capital assets and facilities, the addition or termination of grants and other revenue sources, and the expansion or contraction of programs and services.

The Statement of Net Position (Exhibit A) presents all assets and liabilities and the Council's financial position at year-end, whereas the Statement of Activities (Exhibit B) presents information showing how the Council's net position changed during this fiscal year as a result of the Council's activities. In this statement all changes in net position are reported as soon as the underlying event giving rise to the change occurs regardless of when cash is received or paid. Thus, revenues and expenses are reported in this statement for some items that will affect cash flows in future fiscal periods.

The governmental activities of the Council include Health, Welfare, and Social Services, which are comprised of six primary programs that include supportive social services, nutritional services, disease prevention and health promotion, family caregiver support, senior citizen center operations, and nonelderly public transportation. Subprogram activities are also presented to facilitate additional analysis. All activities of the Council are considered to be governmental activities. A governmental activity is usually one where the Council uses money it receives from governmental grants and contracts along with donations from the general public, to provide services at no charge to the general public, or a segment of the general public, such as the elderly. If the Council charged fees with the intention of making a profit or recovering the full cost of providing the service, that activity would be classified as a business-type activity. However, there is one program (home-delivered meals) where the Council charges a fee for its service, but management does not view this program as a business-type activity because the Council's intent is not to make a profit when providing the service. The Statement of Activities for this program clearly shows the deficit at which it operates despite the fees charged.

Fund Financial Statements

The Fund Financial Statements provide detailed information about the Council's most significant funds, not the Council as a whole entity. In the Fund Financial Statements, there are column presentations for a General Fund, three Special Revenue Funds that have been determined to be *Major Funds*, and a column for the total of all remaining Special Revenue Funds, which are deemed to be *Nonmajor Funds*. Major funds are those funds whose revenues, expenditures, assets, or liabilities are at least 10% of corresponding totals for all governmental funds. In addition, a major fund could be a fund that does not meet the quantitative criteria but which is believed to be important to present to the Council's financial statement users. The General Fund is used to account for all financial resources except those that are required to be accounted for in another

fund. The Special Revenue Funds account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. By using separate funds to track revenues and expenditures, management can control funds for particular purposes or show that the fund is meeting legal responsibilities for using certain grants and other revenues.

The General Fund and Special Revenue Funds are considered governmental funds. Governmental funds focus on how money flows in and out of funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the Council's general government operations and the basic services it provides. Governmental fund information helps the reader to determine whether there are more or less financial resources that can be spent in the near future for programs. The difference between net position of governmental activities and fund balances of the governmental funds has been reconciled at the bottom of the Balance Sheet (Exhibit C) for governmental funds. In addition, the difference between the change in fund balance for the governmental funds and the change in net position for the governmental activities has been reconciled on a separate page (Exhibit E) that follows the Statement of Revenues, Expenditures, and Changes in Fund Balances for the governmental funds. These two reconciliations will facilitate the comparison between governmental activities and funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements follow the Fund Financial Statements and should be read before making assumptions or drawing conclusions about the Council's financial condition.

SUPPLEMENTARY INFORMATION REQUIRED BY GASB STATEMENT 34

The Governmental Accounting Standards Board (GASB) Statement 34 requires budgetary comparison schedules for the General Fund and each <u>major</u> Special Revenue Fund that has an adopted annual budget. The schedules compare the original and final budgets to actual budget results for the Council's fiscal year. Positive and negative variances between the final budget and actual amounts are also presented. The Council's management amended its General Fund budget as well as the major Special Revenue Fund budgets once this year.

Management's Discussion and Analysis (MD&A) is also required supplementary information (RSI) by GASB Statement 34. However, GASB Statement 34 requires the MD&A be presented as

the first item in this reporting package and not with GASB's other RSI, which is included later in this reporting package.

SUPPLEMENTARY INFORMATION PRESENTED FOR GOEA ANALYSIS

The Governor's Office of Elderly Affairs (GOEA) has required the Council to present a combining schedule that provides details about non-major governmental funds and a schedule containing details about capital assets and the changes in capital assets. This information will be used by GOEA to verify the accuracy of information submitted by the Council during the year to help GOEA monitor certain compliance requirements set forth in the grants that it has with the Council.

SUPPLEMENTARY INFORMATION REQUIRED BY STATE LAW

Act 706 of the 2014 Louisiana Legislative session amended Louisiana Revised Statue 24:513 A (3) to require a supplementary Schedule of Compensation, Reimbursements, Benefits and Other Payments to the Council's Executive Director. This information is designed to permit the public to see what the agency's head has been paid or reimbursed during the year. The objective is to make the Council's expenditures more transparent.

AN ANALYSIS OF THE COUNCIL AS A WHOLE USING GOVERNMENT-WIDE FINANCIAL STATEMENTS

The following amounts reflect condensed information on the Council's assets, liabilities, and net position for the fiscal years 2018 and 2017:

				I	ncrease	
		2018	2017	(Decrease)		
Current and Other Assets:						
Current Assets	\$	1,019,863	\$ 1,062,493	\$	(42,630)	
Long-term Investments		240,701	-		240,701	
Capital Assets, net of depreciation		437,242	417,004		20,238	
Total Assets		1,697,806	1,479,497		218,309	
Current Liabilities		35,525	13,833		21,692	
Total Liabilities		35,525	13,833		21,692	
Net Position						
Net Investment in Capital Assets		437,242	417,004		20,238	
Restricted		-	-		-	
Unrestricted		1,225,039	1,048,660		176,379	
Total Net Position	\$ 1,662,281		\$ 1,465,664	\$	196,617	

As of June 30, 2018, and 2017, the Council *as a whole* had assets greater than its liabilities of \$1,662,281 and \$1,465,664, respectively. About 73.7% of the Council's total net position is *unrestricted* at year-end whereas it was about 71.5% last year-end. Unrestricted net position is important because it provides management the resources to adapt to changes in the economy, emergencies, unanticipated service needs and a reduction in or termination of grant revenues by government agencies.

The Council's has no *restricted* net positions at the end of this year and last year. Net position is reported as restricted when the constraints placed upon the assets' use are either (a) externally imposed by a grantor, contributor, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

The net position that has been invested in capital assets is presented net of any related outstanding debt to acquire them. For the years presented, there is not any debt to be subtracted from the capital asset amount. The Council's policy is to acquire capital assets by paying cash and avoiding debt. This policy helps assure management will stay within its financial means so that future revenues will be spent for client services instead of debt service.

Current assets include \$912,615 (\$481,463 for 2017) of funds that have been invested in the Louisiana Asset Management Pool (LAMP). LAMP is a pool of local government funds that invests in short-term, high-quality investments for the purpose of providing a means to obtain interest income on idle funds and maintain liquidity. All investment income is available for management's discretionary use. The LAMP account is used as a means to finance the Council's operations during the fiscal year. Property tax collections are deposited into the LAMP account and held there until they are needed to pay the Council's bills.

Long-term investments include investments that have maturity dates in excess of one year from the end of the current fiscal year. The Council had one long-term investment at year-end in the form of a certificate of deposit (\$240,701) which matures in February 2020. Longer maturity dates are a way to maximize interest income on a portion of the excess operating funds. When the certificate of deposit matures in 2020, management will examine the Council's cash flow needs at that time and decide if reinvesting the proceeds into a new certificate of deposit is prudent.

Current liabilities consist primarily of accounts payable to vendors of \$28,235 (\$5,514 for 2017), credit card debt of \$548 (\$1,183 for 2017) and payroll related liabilities of \$ 1,204 (\$2,269 for 2017) that are due in the normal course of operations. Also included is \$5,538 (\$4,867 for 2017) for compensated absences that represents the Council's aggregate liability for unpaid vacation leave that its employees had earned but not taken as of year-end.

The following table illustrates the revenues and expenses that produced the changes in net position for FY 2018 and FY 2017, respectively.

Revenues	2018	% of Total	2017	% of Total
Program Revenues:				
Operating Grants and Contributions	\$ 366,939	21.15%	\$ 346,842	22.22%

Net Position end of the year	\$ 1,662,281	- -	\$ 1,465,664	

AN ANALYSIS OF GOVERNMENTAL ACTIVITIES

The table above presents in a more summarized version the revenues and expenses of the Council's governmental activities for FY 2018 and FY 2017 than does the Statement of Activities. As you can see from the table, approximately 67.3% and 73.6% of the Council's revenues came from a local property tax in FY 2018 and FY 2017, respectively. Without this source of revenue, the Council's operations would be impacted significantly.

Another significant source of revenues is operating grants and contributions. These revenues must be used for the purposes for which they were given or granted to the Council. This source of revenues accounted for about 21% of the Council's total revenues which is slightly less than last year.

The Council also received unrestricted public support and grants, which are available for management to use at its discretion. This type of revenue comprised about 2.9% of the Council's revenues in FY 2018 whereas it was about 3.6% in FY 2017.

The expenses in the table have been presented by primary programs, with some additional details about the subprograms. In presenting this information, only direct program expenses are shown. The administrative expenses include all administrative expenses of the Council before any allocation was made to the various programs. Percentages have been presented for the expenses associated with each program for ease of analysis and to illustrate where the Council has spent its money this year. The expense allocations are a good indication of the demand for each type of service.

When reviewing the government-wide Statement of Activities, there are relationships that are important to the understanding of the Council's operations. As you can see, the Council's largest activities in both years are transportation and nutrition services. The Council's main focus is to meet the needs of the elderly citizens of St. Charles Parish and right now these two services are in the greatest demand. There is also a high demand for in-home type services and services geared to help individuals stay in their homes and remain in the community. These in-home services include homemaker and personal care type services. As these demands increase, management may need to adjust its annual budget to reallocate available resources to meet the demands.

Also note that when comparing FY 2018 to FY 2017 that some direct service expenses are much lower this year versus last year. In particular, these services include personal care, homemaker, recreation, and home-delivered meals. The Council had to *cut back* costs in these areas for FY 2018 in order to offset the large decrease in net position that it incurred last year. The Council tries to maintain a sufficient cash balance to ensure operating cash flow is not put at jeopardy.

Accordingly, the cut backs for FY 2018 were necessary in management's opinion.

Another area of interest on the Statement of Activities (Exhibit B) relates to the *Total Governmental Activities* column wherein the Council illustrates that all of the primary programs have more expenses than revenues. In other words, the Council's programs are generally not self-supporting. However, on occasion, a program or subprogram might *break even* or even make a slight *profit*. The Council's ability to support all programs relies heavily on general revenues, particularly the local property tax. This financial relationship is expected and budgets are prepared accordingly. Historically, general revenues are used to cover the excess of expenses over revenues in these activities. Without the property tax revenue and the unrestricted grants and contributions, the Council would be unable to provide program services at current levels. Further, the general nature of these revenues allows management discretion as to how to apply them in paying for the Council's current services as well as reallocating them to meet future demands.

Another indication of how money is used efficiently can be analyzed by comparing the amount of administration expenses from year-to-year as well as calculating the percentage administration expenses bear in relation to total expenses. For FY 2018, total administration expenses were \$282,998 whereas for FY 2017 total administration expenses were \$405,009. Administrative expenses comprised about 18% of the total expenses for this year compared to 21% last year. The significant decrease in administrative expenses was a result of the Council's management paying closer attention to the allocation of routine operating expenses, which allowed more costs to be linked directly to service programs rather than general operations. Administration expenses include indirect type costs, which are costs that benefit all programs instead of specific programs.

AN ANALYSIS OF THE COUNCIL'S FUNDS USING GOVERNMENTAL FUND FINANCIAL STATEMENTS

Fund Balances

The focus of the Council's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Council's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. As of the end of the current fiscal year, the Council's governmental funds reported combined ending fund balances for all fund types of \$1,230,577 (as shown on Exhibits C and D), an increase of \$177,050 when compared to last year. The unassigned fund balance component of the General Fund was \$1,199,768 and is available for spending at management's discretion. The remainder of the General Fund balance consists of \$30,809 of nonspendable resources. None of the special revenue funds had a fund balance at year-end.

Revenues and Other Financing Sources

The combined fund revenues and other financing sources increased \$170,628 this year versus last year, as shown in the table below.

		% of 2018	% of 2017 Increase,		(Decrease)	
	2018	Total	2017	Total	Amount	Percent
Property Taxes	\$ 1,215,163	68.17%	\$ 1,192,531	73.98%	\$ 22,632	1.90%
Intergovernmental	453,106	25.42%	340,776	21.14%	112,330	32.96%
Program Service Fees	3,224	0.18%	7,292	0.45%	(4,068)	100.00%
Public Support	67,732	3.80%	54,981	3.41%	12,751	23.19%
Interest Income	14,460	0.81%	9,348	0.58%	5,112	54.69%
Miscellaneous	7,899	0.44%	7,048	0.44%	851	12.07%
Sale of Vehicles	21,020	1.18%	0	0.00%	21,020	100.00%
Total	\$ 1,782,604	100.00%	\$ 1,611,976	100.00%	\$ 170,628	10.59%

Property tax revenue increased this year because of an increase in the property tax base in St. Charles Parish.

Intergovernmental revenue increased this year primarily due to the Council receiving \$103,326 more FTA funds this year versus last year. FTA grants vary from year to year because the Council does not acquire vans each year using FTA capital acquisition grant funds. Additionally, the Council received \$11,038 more NSIP funds from GOEA in FY18 than in FY17.

Program service fees were generated from the Council providing home-delivered meals to clients of the Lafourche Council on Aging (LCOA). Accordingly, the Council charged the LCOA a fee to provide this service. The decrease in this revenue source this year is because the Council stopped providing this service to the LCOA in February of 2018.

Public support revenue increased by \$12,751 over last year. The overall increase was mainly due to the Council receiving serval grants during FY18 that were not received in prior years. The grants the Council received were from (1) Entergy (\$2,500) to help fund recreation activities and purchase fans for the elderly, (2) Walmart (\$2,500) to help pay for the Christmas party and Older American's Celebration, and (3) United Way (\$7,987) to help fund a new program to provide meals to those under age 60 who reside with an elderly citizen already receiving home-delivered meals from the Council. These types of grant funds are not typically guaranteed from one year to another. However, United Way has agreed to continue providing a grant to the Council to help support

the Home Delivered Meals - non-elderly program.

Interest income increased this year mainly because the Council earned \$5,853 more in interest from LAMP. The interest rate for LAMP increased from 1.03% at June 30, 2017 to 2.01% at June 30, 2018.

Miscellaneous income is comprised of a variety of revenue items but the most noteworthy one represents a dividend of \$6,867 from the Council's workman's compensation insurer.

Sales of vehicles will vary year to year. This year the Council sold three fully depreciated transportation vehicles for a total of \$21,020.

Expenditures

Total expenditures decreased by \$348,595 this year, as shown in the table below.

		0/ -62010			0/ - C 2017		ncrease	Increase
		% of 2018			% of 2017	(L	Pecrease)	(Decrease)

Intergovernmental	47,392	2.95%		43,148	2.21%		4,244	9.84%
	\$ 1,605,554	100.00%	\$	1,954,149	100.00%	\$	(348,595)	-17.84%

Personnel expenditures decreased this year primarily because the Council served a significantly smaller number of home-delivered meals this year, accordingly personnel expenditures related to the home-delivered meals program were \$65,121 less than last year. In addition, the Council merged several positions in an effort to decrease costs across programs by decreasing the number of part-time employees and giving additional hours to other employees. **Fringe** expenditures decreased overall primarily because (1) payroll taxes decreased (\$6,558) as a result of wage decreases and (2) the Council decreased the amount it pays for employee health insurance

premiums (\$53,216). Travel expenditures decreased because the employees were able to use a company provided vehicle rather than their personal vehicles. **Operating service** expenditures decreased this year primarily due to a decrease in advertising costs (\$14,573), computer services (\$6,088), and worker's compensation insurance (\$5,129). Operating supplies expenditures decreased this year because of a decrease in small dollar equipment costs (\$4,038), facility supplies (\$2,827) and office supplies (\$10,338). Other costs decreased this year primarily because of decreases in (1) senior center activities (\$4,306) and training costs (\$2,626). Full service contract expenditures significantly decreased this year mainly due to decreases in (1) personal care services (\$58,103), (2) homemaker services (\$88,769) and (3) wellness services (\$11,001). All three of these services benefit the senior citizens directly and are projected to increase in future years. Meals expenditures decreased by \$32,191 because the Council served 12,294 less meals this year (83,934 versus 96,228). Capital outlay expenditures increased this year by \$40,708. Typically, capital outlay expenditures vary from year-to-year based on the needs of the Council. Last year the Council finished the renovations to the Luling senior center, bought two new meal delivery vehicles, purchased Senior Stat Solutions (a program used to track service units provided) and had to replace the AC units in the administrative building whereas this year the Council purchased two new transportation vehicles (\$59,901 each) and replaced the AC unit (\$8,479) at the Luling center. The increase in **intergovernmental** expenditures of \$4,244 was primarily related to an increase in insurance expense of \$2,994 charged by the Parish on buildings used by the Council. In addition, the intergovernmental pension charges to the Council increased by \$1,250. The Council has no control over the pension charges, which are shared pro-rata along with other governmental agencies around the state and are based on the annual property tax assessments.

AN ANALYSIS OF THE GENERAL FUND BUDGET

During the fiscal year management amended its General Fund budget once. The main reason for amending the original General Fund budget was to account for any significant changes in revenues, expenditures and transfer accounts.

There were several changes made to the budgeted revenues. First, the Council increased its FTA capital grant revenue by \$4,983 to account for an increase in the federal match made to acquire one of its vehicles. Second, during the year the Council applied for several grants that were not anticipated when the initial budget was prepared. Some of the grants were awarded and caused the Council to increase its forecast for public support by \$16,147. Finally, the Council increased its budgeted revenue from interest earnings by \$7,908 because the interest rate it was earning on excess cash in the LAMP account had doubled during the year.

There were several changes made to the expenditure categories. Many of the changes were a

byproduct of a change to the indirect cost allocation caused by changes to the budgets of the various special revenue funds. One of the most significant changes was to include a line item for nonelderly home-delivered meals of \$7,775. This change came about because the Council was awarded a grant by United Way to pay for this service. Another change was that the Council increased its budget for full service costs. In particular, it forecasted spending \$4,124 for senior activities and \$1,500 for material aid. The increase in the senior activities budget was made possible by another grant the Council was awarded after preparing its initial budget.

A schedule of the original and amended budgets with comparative results to the actual revenues and expenditures for the General Fund can be found in the *Supplementary Financial Information Required by GASB Statement 34* section of this report.

When comparing the General Fund's amended budget to actual results, the Council had an overall net favorable variance of \$9,237. The more noteworthy reasons behind this net favorable variance can be summed up as follows:

- Total revenues were \$2,131 more than expected primarily because miscellaneous income (\$7,058) and vehicle acquisition grants (\$4,982) were more than budgeted. However, these favorable variances were offset by actual property tax revenues falling short of the budgeted amount by \$9,181.
- Total expenditures were \$14,196 more than budgeted mainly because there were \$13,462 more capital outlay expenditures than anticipated this year.
- Transfers to other programs were budgeted in the aggregate to be \$976,653 whereas actual needs only required \$964,611 of transfers from the General Fund, resulting in a favorable variance of \$12,042.
- The proceeds from the sale of vehicles were \$9,260 more than the amount budgeted.

Also, note that because almost all of the revenues received into the Council's General Fund are unrestricted in nature, management has a lot of flexibility and discretion in being able to expend or transfer out money from its General Fund.

AN ANALYSIS OF CAPITAL ASSET AND DEBT ADMINISTRATION

At the end of the year, the Council had \$437,242 in capital assets net of accumulated depreciation, which is a net increase from last year of \$20,238. The net increase is comprised of the cost (\$128,281) of assets that were acquired, less current year depreciation of \$108,042. The capital assets acquired this year consisted of two new transportation vehicles (\$119,802) and a new AC unit at the Luling senior center (\$8,479). There were three transportation vehicles disposed of this year. Nine of the Council's fifteen vehicles were fully depreciated at year-end and all vehicles were operational. The Council has plans to acquire two more vehicles next year using FTA matching funds.

Capital Assets, Net of Depreciation

			Ι	ncrease
	 2018	 2017	_([Decrease)
Vehicles	\$ 145,946	\$ 113,576	\$	32,370
Equipment	12,216	16,255		(4,039)
Leasehold Improvements	279,080	 287,173		(8,093)
	\$ 437,242	\$ 417,004	\$	20,238

The Council has no long-term debt related to its capital assets and does not like to incur any as a matter of financial stewardship.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS

The Council receives the large majority of its annual funding from federal and state agencies and from a local property tax. This source of income for the Council has been rather steady over the years for the Council. However, some of the Council's grants and contracts are contingent upon the level of service provided by the Council and appropriations made by the state and federal governments, therefore, revenues could vary from year to year. Presently, there have been no significant adverse changes to the funding levels or terms of the Council's primary grants and contracts for next year.

Management has initially budgeted \$1,812,248 in revenues and \$1,863,105 in expenditures for the Council's programs in FY 2019 producing an excess of expenditures over revenues of \$50,857. The main reason for the budgeted deficit next year is the Council expects to acquire two new FTA vehicles that will cost the Council \$16,475 for its matching share of the total price and renovate the bathroom at the New Sarpy senior center which will cost an estimated \$20,000. The Council has a sufficient unassigned fund balance to absorb the budgeted deficit.

The GOEA has approved the Council's original budget for fiscal year 2019. There are no plans to add or terminate any programs in FY 2019. There are plans to amend the original FY 2019 budget based on current events and known future events.

CONTACTING THE COUNCIL'S MANAGEMENT

Our financial report is designed to provide government agencies and the general public an overview of the Council's finances and to demonstrate accountability for the money that it receives. If you have any questions about this report or wish to ask for more information, you should contact April Keller, Executive Director, at 626 Pine Street, Suite A, Hahnville, Louisiana, 70057 or by phone at (985) 783-6683.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities

St. Charles Council on Aging, Inc. Hahnville, Louisiana For the year ended June 30, 2018

Net Increase (Decrease) in Fund Balances - Total Governmental Funds	\$ 1	177,050
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities the cost of these assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which Capital Outlay (\$128,281) exceeded Depreciation (\$108,042) this year.		20,239
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Increase in compensated absences payable		(672)
Increase (Decrease) of Net Position of Governmental Activities	\$ 1	196,617

NOTES TO FINANCIAL STATEMENTS

St. Charles Council on Aging, Inc. Hahnville, Louisiana June 30, 2018

Note 1 - Purpose of the Council on Aging and Summary of Significant Accounting Policies

The accounting and reporting policies of the St. Charles Council on Aging, Inc. (the Council) conform to the accounting principles generally accepted in the United States of America (GAAP) as applicable to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental and financial reporting principles. Governments are also required to follow the pronouncements of the Financial Accounting Standards Board (FASB) issued through November 30, 1989, (when applicable) that do not conflict with or contradict GASB pronouncements. The following is a summary of certain significant accounting policies used by the Council:

a. Purpose of the Council on Aging:

The purpose of the Council is to collect facts and statistics and make special studies of conditions pertaining to the employment, financial status, recreation, social adjustment, mental and physical health or other conditions affecting the welfare of the aging people in St. Charles Parish; to keep abreast of the latest developments in these fields of activity throughout Louisiana and the United States; to interpret its findings to the citizens of the parish; to provide for a mutual exchange of ideas and information on the parish and state level; to conduct public meetings to make recommendations for needed improvements and additional resources; to promote the welfare of aging people when requested to do so; to coordinate and monitor services of other local agencies serving the aging people of the parish; and to assist and cooperate with the Governor's Office of Elderly Affairs (GOEA), and other departments of state and local government serving the elderly; and to make recommendations relevant to the planning and delivery of services to the elderly of the parish.

The primary services provided by the Council to the elderly residents of St. Charles Parish include transportation, homemakers, information & assistance, legal assistance, medical alert devices, personal care, outreach, recreation, congregate and home-delivered meals, disease prevention and health promotion, family caregiver support, and operating senior citizen centers. The Council also provides limited transportation services to dialysis patients regardless of age.

b. Reporting Entity:

In 1964, the State of Louisiana passed Act 456 authorizing the charter of a voluntary council on aging for the welfare of the aging people in each parish of Louisiana. In 1979, the Louisiana Legislature created the Governor's Office of Elderly Affairs (GOEA) (La. R.S. 46:931) with the specific intention to administer and coordinate social services and programs for the elderly population of Louisiana through sixty-four parish voluntary councils on aging.

Before the council on aging can begin operations in a specific parish, its application for a charter must receive approval from the Governor's Office of Elderly Affairs pursuant to Louisiana Revised Statute (La. R.S.) 46:1602. Each council on aging in Louisiana must comply with the state laws that apply to quasi-public agencies as well as the policies and regulations established by GOEA.

St. Charles Council on Aging, Inc. (the Council) is a legally separate, non-profit, quasi-public corporation. The Council received its charter from the Governor of the State of Louisiana on January 31, 1974 and subsequently incorporated on January 12, 1976, under the provisions of Title 12, Chapter 2 of the Louisiana Revised Statutes.

A board of directors, consisting of 13 voluntary members, who serve three-year terms, governs the Council. Each board member can serve no more than two consecutive terms. The board of directors is comprised of, but not limited to, representatives of the Parish's elderly population, general public, private businesses, and elected public officials. The Council makes efforts to maintain a board of directors whose composition will be representative of the population of

St. Charles Parish. Board members are elected by the general membership of the Council. Membership in the Council is open at all times, without restriction, to all residents of St. Charles Parish who have reached the age of majority and who express an interest in the Council and wish to contribute to or share in its programs. Membership fees are not charged.

Although the St. Charles Council on Aging, Inc. (the Council) works with the St. Charles Parish Council (the Parish) in carrying out some social programs throughout St. Charles Parish, the Parish does not appoint a voting majority of the Council's board and the Parish does not intend to impose its will to affect the operations of the Council. The Parish does not provide <u>directly</u> any of the Council's total revenues; only various in-kind contributions. In addition, the Parish does not assume any specific financial burdens of the Council. As a result, the St. Charles Council on Aging, Inc. is not a component unit of the St. Charles Parish Council.

Based on the criteria set forth in section 2100, *The Financial Reporting Entity*, of GASB's *Codification of Governmental Accounting and Financial Reporting Standards*, the Council is not a component unit of another primary government, nor does it have any component units that are related to it. Accordingly, the Council has presented its financial statements as a special-purpose, stand-alone government by applying the provisions of section 2100 as if it were a primary government.

c. Basis of Presentation of the Basic Financial Statements:

The Council's basic financial statements consist of *government-wide* financial statements on all activities of the Council, which are designed to report the Council as a whole entity, and *fund* financial statements, which report individual major governmental funds and combined non-major governmental funds.

Both the government-wide and fund financial statements categorize primary activities as either *governmental* or *business* type. The Council's functions and programs have all been categorized as *governmental* activities. The Council does not have any business-type activities, fiduciary funds, or any component units that are fiduciary in nature. Accordingly, the government-wide financial statements do not include any of these activities or funds.

Government-Wide Statements

The government-wide financial statements include the Statement of Net Position (Exhibit A) and the Statement of Activities (Exhibit B) for all activities of the Council. As a general rule, the effect of interfund activity has been eliminated from these statements. The government-wide presentation focuses primarily on the sustainability of the Council as an entity and the change in its net position (financial position) resulting from the activities of the current fiscal year. Governmental activities are primarily supported by a property tax and intergovernmental revenues.

In the government-wide Statement of Net Position only one column of numbers has been presented for total governmental activities. The amounts are presented on a consolidated basis and represent only governmental type activities.

The Statement of Net Position has been prepared on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The Council's net position is reported in three parts - invested in capital assets, net of related debt; restricted net position; and unrestricted net position.

The government-wide Statement of Activities reports both the gross and net cost of each of the Council's functions and significant programs. The Statement of Activities begins by presenting gross direct and indirect expenses that include depreciation, and then reduces the expenses by related program revenues, such as charges for services, operating and capital grants and restricted contributions, to derive the net cost of each function or program. Program revenues must be directly associated with the function or program to be used to directly offset its cost. Operating grants include operating-specific and discretionary (either operating or capital) grants, while the capital grants column reflects capital-specific grants. Direct expenses reported in the Statement of Activities are those that are clearly identifiable with a specific function or program, whereas, the Council allocates its indirect costs among various functions and programs in accordance with 2 CFR Part 200 – *Uniform Administrative Requirements, Cost Principles, and Audit*

Requirements for Federal Awards (aka the "Supercircular"). The Statement of Activities shows this allocation in a separate column labeled *indirect expenses*. GOEA provides administrative grant funds to help the Council pay for a portion of its indirect costs. As a result, only the indirect costs in excess of the administrative grant funds are allocated to the Council's other functions and programs.

In the Statement of Activities, charges for services represent program revenues obtained by the Council when it renders services that are provided by a specific function or program to people or other entities. Property taxes, contributions, grants, interest income, and miscellaneous revenues that are not included among program revenues are reported instead as general revenues in this statement. If a function or program has a net cost, then it was supported in some manner by the Council's general revenues. Special items, if any, are significant transactions within the control of management that are either unusual in nature or infrequent in occurrence and are separately reported below general revenues.

Fund Financial Statements

The fund financial statements (Exhibits C and D) present financial information that is very similar to that which was included in the general-purpose financial statements issued by governmental entities before Governmental Accounting Standards Board (GASB) Statement No. 34 required the format change.

The daily accounts of the Council continue to be organized using funds and account groups. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions relating to certain governmental functions or activities. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, equity, revenues, and expenditures. Government resources are allocated to and accounted for in individual funds based upon the purpose for which they are to be spent and the means by which spending activities are controlled.

The Council uses governmental fund types. The focus of the governmental funds' measurement (in the fund statements) is on determination of financial position and changes in financial position (sources, uses, and balances of financial resources)

rather than on net income. An additional emphasis is placed on major funds within the governmental fund types. A fund is considered major if it is the primary operating fund of the Council or if its total assets, liabilities, revenues, or expenditures are at least 10% of the corresponding total for all funds of that category or type. In addition, management may also choose to report any other governmental fund as a major fund if it believes the fund is particularly important to financial statement users. For this year, management elected not to include any nonmajor funds as a major fund. The other nonmajor funds are summarized (aggregated) by category or fund type into a single column in the fund financial statements.

Governmental fund equity is called the fund balance. Fund balance is further classified on a hierarchy that shows, from the highest to the lowest, the level or form of constraints on fund balance and accordingly, the extent to which the Council is bound to honor them: nonspendable, restricted, committed, assigned and unassigned.

The following is a description of the governmental funds of the Council:

General Fund

The General Fund is the general operating fund of the Council and is used to account for all financial resources except those required to be accounted for in another fund. The following is a brief description of the programs or funding sources that comprise the Council's General Fund:

Local Programs and Funding

The Council receives revenues that are not required to be accounted for in a specific program or fund. Accordingly, these revenues have been recorded in the *local program* of the General Fund. These funds are mostly unrestricted, which means they may be used at management's discretion. Property tax revenues represent the largest component of the Council's local funding. Expenditures that are not chargeable to specific programs because of budget limitations, or because of their

nature, are recorded as local program expenditures. Because of their unrestricted nature, local funds are often used as transfers to other programs to eliminate deficits in cases where expenditures exceed revenues. In addition, capital outlay expenditures are usually made with local funds to minimize restrictions on the use and disposition of fixed assets.

<u>Local Transportation Program Services - Non-elderly</u>

The Council provides transportation services to persons, primarily dialysis patients, who are not 60 years old. United Way funds and unrestricted public support are used to pay for these services. During the year 1,448 units of service were provided under this program. The transportation services provided in this program differ from those provided in the Title III B program in that recipients of these services do not have to be at least 60 years old, which is required of Title III B participants.

Local Home Delivered Meals Program - Non-elderly Meals

The Council provides meal delivery services to persons who are not 60 years old, but reside with someone who is at least 60 years old and who is receiving home-delivered meals under the Title III C-2 program. United Way funds and unrestricted public support are used to pay for these services. During the year 1,101 units of service were provided under this program.

PCOA Funding

Parish Council on Aging (PCOA) funds are appropriated for the Council by the Louisiana Legislature and remitted to the Council via the Governor's Office of Elderly Affairs (GOEA). The Council may use these funds at its discretion in any program provided the program is benefitting people who are at least 60 years old. In FY 2018, the Council received this grant money into its General Fund and management transferred \$37,500 to the Title III B Fund to subsidize that fund's operating expenditures.

Area Agency Administration (AAA) Funding

Each fiscal year GOEA provides the Council with funds to subsidize the costs of administering the Council's special programs for the aging. This year GOEA granted the Council \$16,709 of AAA funding, which has been received and accounted for in the Council's General Fund along with an equal amount of administrative expenditures. The amount of funding is not enough to pay for all the indirect administrative (indirect) type costs. As a result, the Council will consume the GOEA grant funds first when paying for administrative costs and then allocate the excess administrative costs to other programs using a formula based on the percentage each program's direct costs bears to direct costs for all programs. In addition, due to program restrictions, administrative costs are not allocated to certain funds and programs.

Supplemental Senior Center Funding

The Louisiana Legislature appropriated additional money for various councils on aging throughout the state to be used to supplement the primary state grant for senior centers. This year the Council received \$10,912 of supplemental senior center funding from GOEA. Management can use its discretion as to how to spend this money, as long as the program benefits anyone at least 60 years old. This year management received this money into the Council's General Fund and then transferred it out to the Title III C1 Fund to subsidize the operating costs of that fund's program services.

FTA Funding for Vehicle Acquisition

The Council acquires vehicles purchased in part with federal funds under the Federal Transit Administration's (FTA) elderly and disabled persons transportation capital assistance program. The Louisiana Department of Transportation and Development (DOTD) coordinates the receipt and disbursement of the FTA funds and the required matching funds from the Council. This year the Council acquired two vans using FTA grant funds.

Medicare Improvement for Patients and Providers Act (MIPPA) Program

The Council has a MIPPA program that provides educational and enrollment assistance to Medicare eligible people in the community. During the year, the Council hosted 8 outreach/public education & enrollment assistance events. Information about the disease prevention and wellness components of Medicare, LIS and MSP programs was provided to the public by the Council at these events to earn the revenue from this GOEA grant. In addition, the Council provided 18 units of LIS or MSP enrollment assistance, including follow-up, but the Council only received reimbursement for 13 of these units because the contract maximum had been reached.

Recreation

Recreation is a program whereby the Council provides services to individuals through group activities with the purpose of promoting social interaction and wellbeing. Activities include arts and crafts, bingo and other games, and physical activities. This program activity is funded using only General Fund revenues.

Special Revenue Funds

Special Revenue Funds are used to account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects. The term *proceeds of specific revenue sources* establish that one or more specific restricted or committed revenues should be the foundation for a special revenue fund. The Council has established several special revenue funds. The following are brief descriptions of the purpose of each special revenue fund and their classification as either a major or a nonmajor governmental fund.

Major Special Revenue Funds:

Title III-B Fund

The Title III B Fund is used to account for funds, which are used to provide various types of supportive social services to the elderly. The main source of the revenue forming the basis for this fund is a grant (\$55,886) the Council received from GOEA for Special Programs for the Aging _ Title III, Part B _ Grants for Supportive Services and Senior Centers.

GOEA has established the criteria for defining a qualifying unit of service for each Title III program. Specific supportive social services, along with the number of units the Council reported to GOEA that it provided during the fiscal year, are as follows:

Type of Service Provided	Units
Information and Assistance	1,192
Outreach	26
Transportation for people	
age 60 or older	18,032
Material Aid	1,692
Medical Alert	39
Personal Care	5,843
Homemaker	2,088
Legal Assistance	52.84
Assisted Transportation	159

Title III C-1 Fund

The Title III C-1 Fund is used to account for funds that are used to provide nutritional, congregate meals to people age 60 or older in strategically located centers throughout St. Charles Parish. The Council maintains meal sites in Luling, New Sarpy, and Norco. During the year, the Council reported to GOEA

that it provided 15,699 meals and 8 units of nutrition education to eligible participants.

There were two main sources of revenues received this year that form the basis of this fund: *Special Programs for the Aging _ Title III, Part C-1 _ Nutrition Services* grant funds (\$38,587) and contributions from those persons who received congregate meals (\$6,392).

Title III C-2 Fund

The Title III C-2 Fund is used to account for funds that are used to provide nutritional meals and nutrition education to homebound people who are age 60 or older. There were three main sources of revenues received this year that form the basis of this fund: *Special Programs for the Aging _ Title III, Part C-2 _ Nutrition Services* grant funds (\$53,180); Nutrition Services Incentive Program (NSIP) grant funds (\$64,819); and contributions from those persons who received the homedelivered meals (\$24,090). The Council reported to GOEA that it provided 68,235 home-delivered meals and 55 units of nutrition education during the year to eligible participants.

Any food that is purchased for use in this nutrition program using NSIP funds must be of United States origin or be commodities from the United States Department of Agriculture.

Non-Major Special Revenue Funds:

Senior Center Fund

The Senior Center Fund is used to account for the administration of Senior Center program funds appropriated by the Louisiana Legislature to GOEA, which in turn passes through the funds to the Council. The purpose of this program is to provide community service centers at which elderly people can receive congregate social services and participate in activities which foster their independence, enhance their

dignity, and encourage their involvement in and with the community. The senior centers for St. Charles Parish are located in Luling, New Sarpy, and Norco. Any grant funds not used to pay for the operating costs of the senior centers are transferred to the Title III C-1 Fund to help pay for the cost of providing congregate meals at the senior centers. This year \$13,144 were not used and transferred to the Title III C-1 Fund.

Title III D Fund

The Title III D Fund is used to account for wellness services, which include disease prevention and health promotion activities that are paid for using GOEA funds. During the year, 615 units of wellness services. The main source of the revenue forming the basis for this fund is a grant (\$3,319) the Council received from GOEA for Title III, Part D_ Disease Prevention and Health Promotion Services.

Title III E Fund

The Title III E Fund is used to account for funds that are used to provide support services for family caregivers and for grandparents or older individuals who are relative caregivers. During the year, the Council reported to GOEA it had provided 3,003 units of in-home respite and 64 units of information and assistance to eligible participants. The main source of the revenue forming the basis for this fund is a grant (\$16,405) the Council received from GOEA for the *Title III, Part E _ National Family Caregivers Support Program*.

d. Measurement Focus and Basis of Accounting:

Measurement focus is a term used to describe *which* transactions are recorded within the various financial statements. Basis of accounting refers to *when* transactions are recorded regardless of the measurement focus applied.

• Government-Wide Financial Statements - Accrual Basis:

The Statement of Net Position and the Statement of Activities display information about the Council as a whole. Both of these statements have been

prepared using the economic measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

• Fund Financial Statements - Modified Accrual Basis:

Governmental fund financial statements are reported using a current financial resources measurement focus and the modified accrual basis of accounting. A current financial resources measurement focus means that only current assets and current liabilities are generally included on the fund balance sheet. The operating statements of the funds present increases (revenues and other financing sources) and decreases (expenditures and other uses) in net current assets. Under the modified accrual basis of accounting, revenues are recorded when susceptible to accrual; i.e., when they are both measurable and available. Measurable means the amount of the transaction can be determined and available means collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Council considers revenues to be available if they are collected within sixty days of the current fiscal year-end. Expenditures are generally recorded under the modified accrual basis of accounting when the related liability is incurred, if measurable, except for the following: (1) unmatured principal and interest on long-term debt, if any, are recorded when due and (2) claims and judgments and compensated absences are recorded as expenditures when paid with expendable available financial resources. Depreciation and changes in accrued compensated absences are costs that are not recognized in the governmental funds.

e. Interfund Activity:

In the fund financial statements, interfund activity is reported as either loans or transfers. Loans between funds are reported as interfund receivables (due from) and payables (due to) as appropriate. Transfers represent a permanent reallocation of resources between funds. In other words, they are not expected to be repaid.

In the government-wide financial statements, all types of interfund transactions are eliminated when presenting the governmental activity information.

Cash includes not only currency on hand, but demand deposits with banks or other financial institutions. Cash is reported at its carrying value, which approximates its fair value.

For the purposes of the Statement of Net Position, restricted cash are amounts received or earned by the Council with an explicit understanding between the Council and the resource provider that the resource would be used for a specific purpose. The Council presents restricted cash as a component of current assets in the Statement of Net Position because it is available for use in current operations. At year-end the Council did not have any restricted cash amounts.

f. Investments:

Investments in certificates of deposit are reported at cost because they are nonparticipating interest-earning investment contracts as discussed in GASB 31. The term nonparticipating means that the investment value does not vary with market interest rate changes. Investments which include securities traded on a national or international exchange are valued based on their last reported sales price (fair value). Investments that do not have an established market are reported at estimated fair value.

The Council also invests funds in the Louisiana Asset Management Pool (LAMP). LAMP is a local government 2a7-like investment pool established as a cooperative endeavor to enable public entities of the State of Louisiana to aggregate funds for investment. A 2a7-like pool is an external investment pool that is not registered with the Securities and Exchange Commission (SEC) as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's rule 2a7 of the Investment Company Act of 1940. However, LAMP, Inc. is subject to regulatory oversight by the state treasurer and its board of directors. For financial statement purposes, LAMP investments are valued and reported at fair value based on quoted market rates.

The fair market value of investments is determined on a weekly basis to monitor any variances between amortized cost and market value. For purposes of determining participants' shares sold and redeemed, investments are valued at

amortized cost. LAMP seeks to maintain a stable net asset value of \$1.00 per unit, but there are no assurances that LAMP will be able to always achieve this objective. Because of its liquidity, the balance in the LAMP account is classified as a current asset on the Statement of Net Position.

g. Receivables:

The financial statements will contain an allowance for uncollectible property (ad valorem) tax if management estimates that some of the tax owed the Council will not be collected. When an allowance is considered appropriate by management, the amount will be applied to reduce the property tax receivable amount presented on the Statement of Net Position (Exhibit A) and the Balance Sheet (Exhibit C). Management has estimated all the property tax will be collected, so no amount was provided for as an allowance.

Management estimates that other receivables presented will be collected in full. However, if management becomes aware of information that would change its assessment about the collectability of these other receivables, management would write off the receivables as bad debts at that time.

h. Prepaid Expenses/Expenditures:

In the government-wide financial statements prepaid expenses include amounts paid in advance for goods and services. These are shown as either current or other assets on the government-wide Statement of Net Position, depending on when management expects to realize their benefits.

In the fund financial statements, management has elected not to include amounts paid for future services as expenditures until those services are consumed. This method of accounting for prepaid expenditures helps assure management that costs incurred will be reported in accordance with the Council's cost reimbursement grants. These types of grants do not permit the Council to obtain reimbursement for qualified expenditures until the goods and services relating to them are consumed. As a result, the prepaid expenditures are shown as assets on

the Balance Sheet of the fund financial statements until they are consumed. In addition, a corresponding amount of the fund balance of the General Fund has been classified as nonspendable to reflect the amount not currently available for expenditure.

i. Capital Assets:

The accounting and reporting treatment used for property, vehicles, and equipment (capital assets) depends on whether the capital assets are reported in the government-wide financial statements or the fund financial statements.

Government-Wide Financial Statements

Capital assets are long-lived assets purchased or acquired with an original cost of at least \$1,000 and have an estimated useful life of greater than one year. When purchased or acquired, these assets are recorded as capital assets in the government-wide statement of Net Position. If the asset was purchased, it is recorded in the books at its cost. If the asset was donated, then it is recorded at its estimated fair market value at the date of donation. Capital assets will also include major repairs to equipment and vehicles that significantly extend the asset's useful life. Routine repairs and maintenance are expensed as incurred.

For capital assets recorded in the government-wide financial statements, depreciation is computed and recorded using the straight-line method for the asset's estimated useful life. The Council follows a guideline issued by the State of Louisiana's Office of Statewide Reporting and Accounting to establish the useful lives of the various types of capital assets that are depreciated and the method used to calculate annual depreciation.

Using this guideline, the estimated useful lives of the various classes of depreciable capital assets are as follows:

Computer Equipment	5 years
Leasehold Improvements	20 years
Nutrition Equipment	10 years
Vehicles	5 years

When calculating depreciation, the State's guideline assumes that capital assets will not have any salvage value and that a full year's worth of depreciation will be taken in the year the capital assets are placed in service or disposed.

Fund Financial Statements

In the fund financial statements, capital assets used in the Council's operations are accounted for as capital outlay expenditures of the governmental fund that provided the resources to acquire the assets. Depreciation is not computed or recorded on capital assets for purposes of the fund financial statements.

j. Unpaid Compensated Absences:

The Council's policies for vacation time permit employees to accumulate earned but unused vacation leave. Accordingly, a liability for the unpaid vacation leave has been recorded in the government-wide statements. Management has estimated the current and long-term portions of this liability based on the Council's policy as it relates to accruing (earning) and using vacation leave. Accordingly, all amounts earned and unused as of year-end are considered a current liability for purposes of the Statement of Net Position.

The amount accrued as the compensated absence liability was determined using the number of vested vacation hours for each employee multiplied by the employee's wage rate in effect at the end of the year. An amount is added to this total for social security and Medicare taxes.

In contrast, the governmental funds in the fund financial statements report only compensated absence liabilities that are payable from expendable available financial resources to the extent that the liabilities mature (or come due for

payment). Vacation leave does not come due for payment until an employee makes a request to use it or terminates employment with the Council. Accordingly, payments for vacation leave will be recorded as fund expenditures in the various governmental funds in the year in which they are paid or become due on demand to terminated employees. As a result, no amounts have been accrued as fund liabilities as of year-end in the fund financial statements. The differences in the methods of accruing compensated absences create a reconciling item between the fund and government-wide financial statement presentations.

The Council's sick leave policy does not provide for the vesting of sick leave thereby requiring the employee to be paid for any unused leave upon termination of employment. Accordingly, no amounts have been accrued as unpaid compensated absences in the government-wide financial statements relative to sick leave.

k. Advances from Funding Agency:

Advances from funding agency represent unexpended balances of grants awarded to the Council that are required to be returned to the funding agency at the end of the grant period. Grant funds due back to the funding agency are recorded as a liability when the amount due becomes known, normally when a final accounting is submitted to the funding agency. At year-end, the Council had no advances from GOEA or any other funding agency.

1. Deferred Revenue:

The Council reports deferred revenues on both the Statement of Net Position (government-wide) and the Balance Sheet (fund financial statements). Deferred revenues arise when the Council receives resources before it has a legal claim to them, as when grant monies are received before the occurrence of qualifying expenditures. In subsequent periods, when the Council has a legal claim to the resources, the liability for deferred revenue is removed from the Statement of Net Position and the Fund Balance Sheet, whichever the case might be, and the revenue is recognized. The Council had no deferred revenue at year end.

Deferred property tax revenues arise when property taxes are expected to be received but not within 60 days after the end of the Council's fiscal year in which the taxes are levied. Deferred property tax revenues are reported on the Balance Sheet of the fund financial statements, but not on the Statement of Net Position, because the related revenues are recognized in the Statement of Activities using the full accrual basis of accounting. In subsequent periods when the deferred property tax revenues are collected, the deferral is removed from the Balance Sheet of the fund financial statements and revenues are recognized. The Council did not present any amount this year as deferred property tax revenue because management believes the portion of the property tax receivable that is collected by the sheriff's office after August 31, 2018 (approximately \$1,200) would be immaterial to these financial statements.

m. Deferred Outflows and Inflows of Resources

Deferred outflows represent the consumption of the Council's net position that is applicable to a future reporting period. Deferred inflows represent the acquisition of net position that is applicable to a future reporting period. The Council did not have any deferred outflows or inflows of resources to report in any of its financial statements this year.

n. Net Position in the Government-wide Financial Statements:

Net position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources.

The Council reports three categories of net position, as follows:

Net investment in capital assets – This component of net position consists of
capital assets, net of accumulated depreciation and reduced by the
outstanding debt attributable to the acquisition, construction, or
improvement of those assets. If there are significant unspent related debt
proceeds at year end, the portion of the debt attributable to the unspent
proceeds is not included in this component of net position. Rather, that
portion of the debt is included in the same component of net position as

the unspent proceeds. At year-end, the Council did not have any borrowings that were related to capital assets.

- Restricted net position This component reports the amount of net position with externally imposed constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or (2) law through constitutional provisions or enabling legislation.
- *Unrestricted net position* This component is the balance (deficit) of all other elements in the statement of net position remaining after net investment in capital assets and restricted net position.

o. Fund Equity - Fund Financial Statements:

Governmental fund equity is classified as *fund balance*, which is classified based on the relative strength of the spending constraints placed on how the fund balance resources can be used, as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Management has classified prepaid expenditures as being nonspendable because these items are not expected to be converted to cash.
- *Restricted*: This classification includes amounts for which constraints have been placed on the use of resources and are either:
 - Externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments; or
 - Imposed by law through constitutional provisions or enabling legislation.
- *Committed*: This classification includes amounts that can only be used for

specific purposes pursuant to constraints imposed by formal action (resolution) of the Council's board of directors, which is the Council's highest level of decision-making authority. These amounts cannot be used for any other purpose unless the board of directors removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements. The Council did not have any committed resources as of year-end.

- Assigned: This classification includes spendable amounts that are reported in governmental funds other than the General Fund, that are neither restricted nor committed, and amounts in the General Fund that are intended to be used for a specific purpose in accordance with the provisions of GASB Statement 54. The intent of an assigned fund balance should be expressed by the Council's (1) board of directors, (2) its finance committee, or (3) an official, such as the executive director, to which the board of directors has delegated the authority to assign amounts to be used for a specific purpose. The Council did not have any assigned fund balance as of year-end.
- *Unassigned*: This classification is the residual fund balance for the General Fund. It also represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund.

When fund balance resources are available for a specific purpose in more than one classification, the Council will use the most restrictive funds first in the following order: restricted, committed, assigned, and unassigned as they are needed. The Council's management reserves the right to selectively spend unassigned resources first and to defer the use of the other classified funds.

p. Management's Use of Estimates:

The preparation of financial statements in conformity with United States generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

q. Allocation of Indirect Expenses:

The Council reports all direct expenses by function and programs of functions in the Statement of Activities. Direct expenses are those that are clearly identifiable with a function or program. Indirect expenses are recorded as direct expenses of the Administration function. GOEA provides funds to partially subsidize the Council's Administration function. The unsubsidized net cost of the Administration function is allocated using a formula that is based primarily on the relationship the direct cost a program bears to the direct cost of all programs. There are some programs that cannot absorb any indirect cost allocation according to their grant or contract limitations.

r. Elimination and Reclassifications:

In the process of aggregating data for the Statement of Net Position and the Statement of Activities, some amounts reported as interfund activity and balances in the funds were eliminated or reclassified. Interfund receivables and payables were eliminated to minimize the *grossing up* effect on assets and liabilities within the governmental activities column.

s. Special Items:

Special items are significant transactions or events that are either unusual in nature or infrequent in occurrence and that are within the control of the Council's management. Within in the control of management does not necessarily mean that management did control the transaction. It simply means that management could control it. Special items

are reported separately in both the government-wide statement of activities and the governmental fund statements of revenues, expenditures, and changes in fund balances. The Council had no special items to report for FY18.

Note 2 - Revenue Recognition

Revenues are recorded in the government-wide statements when they are earned under the accrual basis of accounting.

Revenues are recorded in the fund financial statements using the modified accrual basis of accounting. In applying the susceptible to accrual concept using this basis of accounting, intergovernmental grant revenues, program service fees (charges for services), and interest income must be both measurable and available. However, the timing and amounts of the receipts of public support and miscellaneous revenues are often difficult to measure; therefore, they are recorded as revenue in the period received.

Note 3 - Revenue Recognition - Property Tax

The Council receives funds from a property tax that was renewed by the voters of St. Charles Parish on February 9, 2008 for the purpose of operating and maintaining programs for the elderly citizens in the Parish. The St. Charles Parish Assessor began assessing the property tax in 2008 and will continue to do so through 2017 (ten years). The property tax renewed in February 2008 was renewed again by the voters of St. Charles Parish on December 10, 2016 for another ten years (through 2027).

The tax is based upon the assessed (appraised) value, less homestead exemptions, on all real and business personal property located within the Parish. The 1st day of January is used as the date to value the property subject to tax and make the annual assessment. The gross assessed value as of January 1, 2017, of the certified property tax roll was \$1,367,081,786 After applying homestead exemptions of \$99,055,668, the net assessed value upon which the Council's property tax was computed was \$1,268,026,118. The maximum amount the Council may legally elect to assess property owners each year is .98 mills, however, for this fiscal year .96 mills was assessed. Accordingly, management

Exhibit F Continued

initially estimated the gross amount of property tax payable to the Council for this fiscal year to be \$1,217,305. After the estimate was made, the Council was notified by the Sheriff's office of adjustments for supplements, reductions, and additional adjudicated/exempt taxes. As a result of the adjustments, the Council's gross property tax revenue relating to the current year's property tax was changed to \$1,214,886. In addition, the Council collected \$277 of prior year property taxes previously written off. As a result, the adjusted property tax revenue presented in this year's financial statements is \$1,215,163.

Property taxes are levied on November 15 and are considered delinquent if not paid by December 31 (the lien date). Most of the property taxes are collected during the months of December, January, and February. The St. Charles Parish Sheriff acts as the collection agent for the Parish's property taxes. The tax sale date for St. Charles Parish for the 2017 tax assessment was June 6, 2018 and the tax liens were recorded on June 28, 2018.

For the fund financial statements, property taxes are recorded as receivables and deferred revenues at the time the tax levy is billed (November each year). As the taxes are collected and remitted to the Council, they are recorded as revenues in accordance with the modified accrual basis of accounting. The Council also accrues as current year revenues any property taxes it receives within 60 days of year-end because it considers those amounts to be measurable and available. The Council did not present any amounts this year as deferred property tax revenue because management estimates this amount only to be about \$1,200, which is immaterial to these financial statements.

For purposes of accruing property tax revenues in the government-wide financial statements, the Council follows the full accrual basis of accounting. This requires the Council to recognize property tax revenue based on the net assessed value provided by the Parish's assessor less any allowance for uncollectible amounts. Deferred property tax revenue is not recognized in the government-wide statements in contrast to the fund financial statements. If the fund financial statements do not present any amounts for deferred property tax revenues, then the amount of property tax revenues presented in the government-wide statements and the fund financial statements will be the same, which is the case this year.

Property tax revenues on the fund financial Statement of Revenues, Expenditures, and Changes in Fund Balances (Exhibit D) have been presented at their gross amount less any allowance for uncollectible amounts. In contrast, on the government-wide Statement of Activities (Exhibit B), property tax revenues of have been presented net of any

uncollectible amounts and intergovernmental expenses withheld by the Sheriff or the Parish before remitting the tax revenue to the Council. For FY 2018 the intergovernmental expenses totaled \$47,392 and consisted of (1) *on-behalf payments for fringe benefits* (\$40,363 – also see Note 12), and (2) insurance premiums (\$7,029) on buildings used by the Council but owned by the Parish. In contrast, for purposes of Exhibit D, intergovernmental expenditures of \$47,392 have been presented as a separate line item within the expenditures section of that statement rather than being netted against the gross property tax revenue.

Note 4 - Cash and Investments

The Council's operating account is a consolidated bank account, which is available for use by all funds. The purpose of the consolidated account is to reduce administration costs and facilitate cash management by allowing those funds with available cash resources to temporarily cover any negative cash balances in other funds.

At year-end, all of the Council's bank balances (checking account plus certificates of deposits) were secured 100% by FDIC insurance. Currently, only the first \$250,000 of deposits at each bank are covered by FDIC insurance. The Council follows state law wherein all of its bank deposits are required to be covered with FDIC insurance or properly collateralized.

The Council also maintains a petty cash account of \$200 to pay for small, unexpected expenses that might arise during daily operations.

During the year, the Council might accumulate cash in excess of its immediate needs. To maximize its interest income, the Council's management will invest the excess cash. The Council's management has adopted an investment policy that is intended to follow Louisiana Revised Statute 33:2955, which sets forth a list of the types of investments in which a political subdivision may invest its temporarily idle funds. Accordingly, at yearend, the Council's management has invested \$240,701 in certificates of deposit and \$912,615 in the Louisiana Asset Management Pool (LAMP). Both types of investments comply with state law and the Council's investment policy.

LAMP is an external investment pool established as a cooperative endeavor to enable public entities in the State of Louisiana an opportunity to combine their funds for investment. LAMP is administered by LAMP, Inc., a non-profit corporation organized under Louisiana law. Only local government entities having contracted to participate in LAMP have an investment interest in its pool of assets. The primary objective of LAMP

Exhibit F Continued

is to provide a safe environment for the placement of public funds in short-term, high-quality investments. The LAMP portfolio includes only securities and other obligations in which local governments in Louisiana are authorized to invest in accordance with LA-R.S. 33:2955.

GASB Statement No. 40 *Deposit and Investment Risk Disclosure*, requires disclosure of credit risk, custodial credit risk, concentration of credit risk, interest rate risk, and foreign currency risk for all public entity investments.

LAMP is a 2a7-like investment pool. The following facts are relevant for 2a7 like investment pools:

- <u>Credit risk:</u> LAMP is rated AAAm by Standard & Poor's.
- <u>Custodial credit risk:</u> LAMP participants' investments in the pool are evidenced by shares of the pool. Investments in pools should be disclosed, but not categorized because they are not evidenced by securities that exist in physical or book-entry form. The public entity's investment is with the pool, not the securities that make up the pool; therefore, no disclosure is required.
- <u>Concentration of credit risk:</u> Pooled investments are excluded from the 5 percent disclosure requirement.
- Interest rate risk: LAMP is designed to be highly liquid to give its participants immediate access to their account balances. LAMP prepares its own interest rate risk disclosure using the weighted average maturity (WAM) method. The WAM of LAMP assets is restricted to not more than 60 days, and consists of no securities with a maturity in excess of 397 days. The WAM (to reset) for LAMP's total investments is 47 days and the WAM (to final) is 85 days as of June 30, 2018.
- Foreign currency risk: Not applicable to 2a7-like pools.

At June 30, 2018, the Council's cash and investments consisted of the following:

Cash & Investments	Cost (*)		Cost (*)		Interest Rate	Maturity	Credit Risk Category
Cash:		,					
Checking account - operating	\$	46,628	None	Demand	Category 1		
Petty Cash & Cash on Hand		4,274	None	N/A	None		
Total Cash		50,902					
Investments:							
Certificates of Deposit:							
First American Bank		240,701	0.75%	2/22/2020	Category 1		
LAMP		912,615	2.01%	Demand	Not Required		
Total Investments	1	1,153,316					
Total Cash & Investments	\$ 1	1,204,218					
Unrestricted Purpose	\$ 1	1,204,218					
Restricted Purpose		_					
Total Cash & Investments	\$ 1	1,204,218					

Cost approximates fair value in the above table.

The certificate of deposit represents a nonparticipating interest-earning contract as described in GASB Statement 31; accordingly, it has been reported at cost in these financial statements. The maturity date of the certificate of deposit is <u>after</u> June 30, 2019 therefore it is presented as a long-term investment on the Statement of Net Position.

Note 5 - Receivable from GOEA

At June 30, 2018, all amounts under government grants and contracts had been remitted to the Council except for \$400 due to the Council from GOEA relating to its MIPPA contract.

Note 6 - <u>Prepaid Expenditures and Expenses</u>

At year-end, prepaid expenditures and prepaid expenses consisted of the following:

Nature of Prepaid	Amounts		
Insurance Premiums	\$	6,102	
Training Classes		6,758	
Deposit on AC Replacement		2,500	
July Rent		1,102	
Payroll Taxes		7,538	
Worker's Comp Premiums		6,809	
Totals	\$	30,809	

Note 7 - Changes in Capital Assets

A summary of changes in capital assets is as follows:

	Jun	ne 30, 2017 Ad		Additions D		Dispositions		ne 30, 2018				
Vehicles	\$	474,141	\$	119,802	\$	(138,498)	\$	455,445				
Equipment		51,543	0		0		0			0		51,543
Leasehold improvements	338,679		8,479			0		347,158				
		864,363	128,281		81 (138,498)			854,146				
Less: Accumulated												
Depreciation		(447,360)	(108,042)		(108,042)			138,498		(416,904)		
Total	\$	417,003	\$	20,239	\$	0	\$	437,242				

All of the Council's fixed assets are subject to depreciation.

The Council's management has reviewed the capital assets and does not believe any of the assets to be impaired as of year-end.

Depreciation was charged to governmental activities as follows:

Supportive Services:	
Transportation for the elderly	\$ 49,694
Nutrition Services:	
Congregate meals	0
Home-delivered meals	30,544
Senior citizen center operations	16,570
Transportation of the nonelderly	3,798
Administration	7,436
Total Depreciation Expense	\$ 108,042

The depreciation expense associated with the administration function relates to capital assets that essentially serve all functions. Accordingly, it is included as a direct expense of the administration function on the Statement of Activities and then allocated to other functions in accordance with the Council's method of allocating indirect expenses. The other depreciation amounts are charged as direct expenses to their related functions on the Statement of Activities.

Note 8 - <u>Accrued Compensated Absences</u>

For purposes of the Statement of Net Position, the Council has presented all of its accumulated unpaid vacation leave as a current liability. This is because vested amounts will all be used before the end of the next fiscal year. In contrast, no liability for vacation leave has been presented in the Balance Sheet of the fund financial statements because vacation leave does not become a liability until the employee has made a request to use it or terminates employment with the Council. The following is a schedule of changes that occurred in the Council's vacation leave account during the fiscal year:

	Ва	alance	Net I	ncrease	Balance		
	6/3	6/30/2017		crease)	6/30/2018		
Accumulated Unpaid Leave	\$	4,866	\$	672	\$	5,538	

Note 9 - <u>In-Kind Contributions</u>

The Council received various in-kind contributions during the year. The senior center meal site locations in Luling and New Sarpy were provided without rental charge.

Exhibit F Continued

However, the Council is responsible for paying the utility bill at these locations. If the Council had to pay rent for these locations, management estimates that each location would have cost about \$6,000 annually.

During the year the St. Charles Parish Sheriff and TRIAD distributed 1,143 informational flyers to the elderly as a crime prevention service provided by the Council. Management has estimated the value of this service to be \$1,669.

The Council is a distribution site for *Food for Seniors* where commodities (food boxes) are passed out to the elderly. The commodities are not actually donated to the Council as an in-kind contribution. The Council coordinates the distribution and provides the manpower to help another local non-profit entity distribute the food boxes. During the year the Council distributed 1,692 food boxes. Each food box contained \$75.64 of food (\$127,983).

Occasionally, the Council transports people that require assistance to make the trip. In such cases, the Council provides the transportation but cannot provide a person to assist the client being transported. The person who assists the client being transported is counted as in-kind support. Management estimates that if it had to pay these helpers, the cost would have been \$5,398 (159 units at \$33.95/unit).

No amounts have been recorded in these financial statements because accounting principles for governmental entities do not require the valuation and recording of inkind contributions.

Note 10 - Fund Balances - Fund Financial Statements

At year-end the Council had no balances remaining in special revenue funds. Usually, the fund balances of the special revenue funds are cleared out at year-end to comply with the administration and accounting policies of the grantor agencies that have awarded the Council certain grants. The composition of the fund balance components of the General Fund are presented separately on Exhibit C.

Note 11 - Restricted Net Position - Government-wide Statements

At year-end, the Council did not have any restricted net position amounts on the Statement of Net Position (Exhibit A).

Note 12 - On-Behalf Payments for Fringe Benefits (public retirement systems)

Because the Council is one of several governmental agencies receiving proceeds from a property tax assessment, state law (RS 11:82) requires the Council to bear a pro-rata share of the pension expense relating to state and statewide public retirement systems. The Council's pro-rata share of the required contribution was \$40,363 that was withheld by the St. Charles Parish Sheriff from property tax collections to satisfy the Council's obligation. The Sheriff withholds the entire amount of this obligation in December each year even though some of the property taxes may never be collected. None of the Council's employees participate in or benefit from any pension plan relating to this expenditure.

The following list presents the retirement systems that were funded by \$40,363 of the Council's property tax revenues this year:

Assessor's retirement fund	\$ 3,923
Clerks' of Court Retirement & Relief Fund	3,640
District Attorney's Retirement System	2,780
Municipal Employee's Retirement System	3,638
Parochial Employees' Retirement System	3,638
Registrar of Voters Employees' Retirement	910
Sheriff's Pension & Relief Fund	7,278
Teachers' Retirement System	 14,556
	\$ 40,363

Note 13 - Board of Directors' Compensation

The Board of Directors is a voluntary board; therefore, no compensation has been paid to any member. However, board members are reimbursed for any out-of-pocket costs they might incur on behalf of the Council in accordance with the Council's applicable reimbursement policy.

Note 14 - <u>Income Tax Status</u>

The Council, a non-profit corporation, is exempt from federal income taxes under Section

501(c)(3) of the Internal Revenue Code of 1986, and as an organization that is not a private foundation as defined in Section 509(a) of the Code. The Council is also exempt from Louisiana income tax.

The Council does not file a Form 990 because the Internal Revenue Service has determined the Council to be an *affiliate of a governmental unit* within the meaning of Section 4 of Revenue Procedure 95-48, 1995-2 C.B. 418.

Note 15 - Lease and Rental Commitments

Lease #1

The Council leases two facilities from the St. Charles Parish School Board (the Lessor) that consist of administrative offices and a staging area for home-delivered meals located at 626 Pine Street, Hahnville, Louisiana and a congregate meal site in Norco, Louisiana. The terms of this lease require monthly payments of \$1,102 per month until the lease is amended or terminated. The Council is responsible for cleaning the facilities and making all repairs to them except for repairs to the roof and building shell. The Lessor is responsible for the utility bills and the insurance covering the facilities. The lease is a continuous lease, which may be terminated upon a sixty-day notice by either party. For the fiscal year, rent expenditures were \$13,224 for this lease.

Lease #2

The Council signed a 60-month lease agreement with Xerox on February 20, 2017 that requires the Council to pay \$348.31 per month plus additional monthly fees for each print starting March 1, 2017. The total amount paid by the Council for the lease this year was \$4,528. In addition, the Council had to pay \$2,097 for usage charges and a property tax relating to this copy machine.

The copy machine lease costs are allocated to the various programs as an indirect expense. The minimum future lease payments under the lease as of June 30, 2018 for each year until the lease expires, and in the aggregate, are as follows:

Fiscal Year	A	mount
2019		4,180
2020		4,180
2021		4,180
2022		2,786
Total future minimum lease payments	\$	15,326

Note 16 - Judgments, Claims, and Similar Contingencies

As of the end of this fiscal year, the Council's management has no knowledge of any pending litigation, lawsuits, or claims against the Council. Furthermore, the Council's management believes that any unexpected lawsuits or claims that might be filed against the Council would be adequately covered by insurance or resolved without any adverse impact upon the Council's financial statements.

Note 17 - Contingencies - Grant Programs

The Council participates in a number of state and federal grant programs, which are governed by various rules and regulations. Costs charged to the respective grant programs are subject to audit and adjustment by the grantor agencies; therefore, to the extent that the Council has not complied with the rules and regulations governing the grants, funds received during the year and the collectability of any related receivable at year-end may be impaired. In management's opinion, there are not any contingent liabilities relating to noncompliance with the rules and regulations governing state and federal grants; therefore, no provision has been recorded in the accompanying financial statements for such contingencies. Audits of prior years have not resulted in any significant disallowed costs or refunds. Any costs that would be disallowed would be recognized in the period agreed upon by the grantor agency and the Council.

Note 18 - Risk Management

The Council is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; job related illnesses or injuries to employees; and natural disasters. The Council has purchased commercial insurance to cover or reduce the risk of loss that might arise should one of these incidents occur. There have been no significant reductions in coverage from the prior year. No settlements were

made during the current or prior three fiscal years that exceeded the Council's insurance coverage.

The Council's management has not purchased commercial insurance or made provisions to cover or reduce the risk of loss, as a result of business interruption and certain acts of God, like floods or earthquakes. The Council offers health insurance to all employees who work at least thirty (30) hours per week. For the first half of the fiscal year the Council paid 75% of the total amount of the health insurance for each employee who elected to participate in the health insurance benefit. Beginning with the first paycheck in January 2018 the Council reduced the amount of the health insurance it paid to 65%. The Council's portion (cost) for its portion of the health insurance in FY18 was \$24,132, whereas in FY17 it was \$77,348.

Note 19 - Deferred Compensation Plan

The Council and its qualified employees participate in the Louisiana Deferred Compensation Plan (the Plan), which is a nonqualified deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Great West Life and Annuity Insurance Company administers the plan. The Plan is available to all Council employees. Participation is not mandatory. The plan permits participating employees to defer up to the lesser of (1) 100% of their taxable compensation or (2) \$18,000 (\$24,000 if over 50 years of age) per year. In addition, the Council will *match* 25% of the amount the participant defers. All amounts contributed to the plan by the employees and the Council are non-forfeitable thereby making them 100% vested by the employees. During the year, \$18,363 was contributed to the Plan via employee salary deferrals. The Council contributed \$2,755 as its matching share. The Plan does not meet the definition of a fiduciary fund; accordingly, the Council has not reported any amounts in these financial statements. The Council does not guarantee the benefits of any amounts contributed to the Great West Life and Annuity Insurance Company.

Note 20 - Economic Dependency

The Council receives the majority of its revenue from grants administered through the Governor's Office of Elderly Affairs (GOEA) and property taxes from St. Charles Parish. The grant amounts are appropriated each year by the federal and state governments. The St. Charles Parish Assessor assesses the property taxes each year. If significant budget cuts are made at the federal and/or state level, the amount of funds the Council receives could be reduced significantly and have an adverse impact on its operations. Also, if the property in St. Charles Parish were to be assessed at lower values due to natural disaster or another unpredictable event, the amount the Council receives annually from the

Exhibit F Continued

property tax could be affected adversely. Management is not aware of any actions or events that will adversely affect the amount of funds the Council will receive next year relating to amounts it usually receives from GOEA or the property tax.

Note 21 - Interfund Transfers

Interfund transfers to and from are listed by fund for the fiscal year as follows:

	Operating Transfers				
	In From			Out To	
General Fund:					
Title III B Fund	\$	0	\$	496,606	
Title III C-1 Fund		0		60,351	
Title III C-2 Fund		0		371,825	
Nonmajor Funds:					
Title III D Fund		0		1,678	
Title III E Fund		0		34,151	
Total General Fund		0		964,611	
Title III B Fund:					
General Fund - Local funds		459,106		0	
General Fund - PCOA grant		37,500		0	
Total Title III B Fund		496,606		0	
Title III C-1 Fund:					
General Fund - Local funds		49,439		0	
General Fund - Supp. Senior Center grants		10,912		0	
Special Revenue Fund - Senior Center Fund		13,144		0	
Total Title III C-1 Fund		73,495		0	
Title III C-2 Fund:					
General Fund - Local funds		371,825		0	
Total Title III C-2 Fund		371,825		0	
Nonmajor Fund in the Aggregate:					
General Fund - Local funds		35,829		0	
Title III C-1 Fund from Senior Center		0		13,144	
Total Nonmajor Funds in the Aggregate		35,829		13,144	
Total Transfers	\$	977,755	\$	977,755	

Transfers are used to (1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and (2) shift unrestricted revenues collected in the General Fund to finance various programs accounted for by special revenue funds to eliminate program deficits. These transfers were eliminated as a part of the consolidation process in preparing the government-wide financial statements.

Note 22 - <u>Interfund Receivables and Payables</u>

Because the Council operates most of its programs under cost reimbursement type grants, some programs have to pay for costs using its General Fund money and then request reimbursement for the advanced costs under the grant programs. Such advances create short-term interfund loans.

When interfund loans are present, they are eliminated as a part of the consolidation process in preparing the Government-wide Financial Statements.

At year-end, the Council did not have any interfund receivables or payables.

Note 23 - Related Party Transactions

There were no related party transactions during the year.

Note 24 - Purchase Commitments

The Council has no significant purchase commitments at year-end 2018.

Note 25 - Subsequent Events

Management has evaluated subsequent events through December 14, 2018, which is the date the financial statements were available to be issued. There were no events that required disclosure.

The accompanying notes to the basic financial statements are an integral part of this statement.

NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

St. Charles Council on Aging, Inc. Hahnville, Louisiana

For the Year Ended June 30, 2018

Note 1 - Budgetary Reporting

The budget information presented in this section of required supplementary information applies to *major* governmental funds for which annual budgets were adopted. Budgetary information for *nonmajor* funds has not been included anywhere in these financial statements.

The Council follows these procedures in establishing the budgetary data that has been presented as required supplementary information in these financial statements.

- The Governor's Office of Elderly Affairs (GOEA) notifies the Council each year as to the funding levels for each of its programs.
- Management makes revenue projections based on grants from other agencies, program service fees, public support (including client contributions), interest income, and other miscellaneous sources.
- Management makes projections of property tax revenues based on past trends and data available at the Parish Assessor's office to form expectations of future revenues.
- Management develops expenditure projections using historical information and changes to the upcoming year that management is aware of at the time of budget preparation.
- The Council's Executive Director and Finance Administrator prepare a proposed budget based on the revenue and expenditure projections. The proposed budget is submitted to the Board of Directors for final approval.
- The Board of Directors reviews and adopts the budget for the next fiscal year at a regularly scheduled board of directors meeting before May 31 of the current fiscal year. The original FY 2018 budget was approved at a board meeting on May 18, 2017.

- The adopted budget is forwarded to GOEA for final compliance approval.
- Unused budget amounts lapse at the end of each fiscal year (June 30). However, if a grant or contract is not completed by June 30, the Council will automatically budget funds in the next fiscal year to complete the grant or contract. An example where this might occur is when vehicles are acquired under federal matching programs. The *match* might be made in one year and the vehicles delivered in another year.
- The budget is prepared on a modified accrual basis, consistent with the basis
 of accounting, for comparability of budgeted and actual revenues and
 expenditures.
- Budgeted amounts included in the accompanying required supplementary information include the original adopted budget amounts and all subsequent amendments. During the fiscal year, management amended the Council's budget once at a board meeting on May 17, 2018, using a procedure similar to the one used to approve the original budget.
- Actual amounts are compared to budgeted amounts periodically during the fiscal year as a management control device.
- The Council may transfer funds between line items as often as required but must obtain compliance approval from GOEA for changes relating to funds received under grants from this state agency. As part of its grant awards, GOEA requires the Council to amend its budget in cases where actual costs for a particular line item exceed the budgeted amount by more than 10%, unless unrestricted funds are available to *cover* the overrun.
- Budgeted expenditures cannot legally exceed budgeted revenues on an individual fund level, unless a large enough fund balance exists to absorb the budgeted operating deficit.
- The Council is not required by state or local law to prepare a budget for every program or activity it conducts. Accordingly, some General Fund activities may not be budgeted, particularly if they are deemed to be immaterial by management.

Note 2 - General Fund's Budgeted Operating (Deficit) Surplus

Management originally budgeted an operating deficit of \$15,936 in the Council's General Fund because some capital expenditures were needed and management typically uses unassigned fund balance carryovers to pay for capital expenditures in succeeding years. During the year as actual data became available, management amended the budget to forecast an operating surplus of \$167,813.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

To the Board of Directors St. Charles Council on Aging, Inc. Hahnville, Louisiana

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the St. Charles Council on Aging, Hahnville, Louisiana, (the Council) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Council's basic financial statements, and have issued our report thereon dated December 14, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Council's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Council's internal control. Accordingly, we do not express an opinion on the effectiveness of the Council's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be material weaknesses or significant deficiencies. Given these limitations, during our audit, we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Council's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements; noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. Under Louisiana Revised Statute 24:513, this report is distributed by the Louisiana Legislative Auditor as a public document.

Thibodaux, Louisiana

December 14, 2018

SCHEDULE OF FINDINGS AND QUESTIONED COSTS

St. Charles Council on Aging, Inc. Hahnville, Louisiana For the Year Ended June 30, 2018

SUMMARY OF AUDITOR'S REPORTS

- A. Type of auditor's report issued on the financial statements: Unmodified
- B. Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*:

Internal control over financial reporting:

- •Material weaknesses identified? No
- •Significant deficiencies identified? None were reported

Noncompliance <u>material</u> to the financial statements identified? No

C. Federal Awards:

Auditor's reports on compliance for each major federal award program and on internal control over federal awards are not applicable because federal award expenditures were less than \$750,000 and a single audit was not required this year.

D. Was a management letter issued for this year's audit? No

SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS

St. Charles Council on Aging, Inc. Hahnville, Louisiana For the year ended June 30, 2018

Financial Statement Findings

The auditor did not report any financial statement findings in his audit of the Council's FY 2017 financial statements last year. Therefore, management has nothing to report in this section.

Major Federal Award Program Findings and Questioned Costs

No matters were reported last year because last year's audit was not a Single Audit; therefore, there was no requirement for the auditor to report any findings with respect to major federal award programs.

Management Letter

None was issued last year.

MANAGEMENT'S CORRECTIVE ACTION PLAN

St. Charles Council on Aging, Inc. Hahnville, Louisiana For the Year Ended June 30, 2018

To the following oversight agencies for audit:

State: Legislative Auditor of the State of Louisiana; and

Governor's Office of Elderly Affairs.

Name and address of independent public accounting firm: T. S. Kearns & Co., CPA, PC, 164 West Main Street, Thibodaux, LA 70301

Audit period: For the year ended June 30, 2018.

The auditor did not report any findings relating to the financial statements or federal awards. Accordingly, there was not any need for management to have a corrective action plan this year in response to findings or other matters.

If you have any questions regarding this corrective action plan, please call the Council's Executive Director, April Keller, at (985) 783-6683.
