NRA Armed Citizen from Febraury 2024 Magazine

The owner of a store named Cash4Gold in Mesquite, Texas, was in the back of his shop on Nov. 2, 2023, when two men entered, both with their hoods up and one wearing a mask. The store owner saw one of the men draw a gun and point it at him, but he quickly drew his own gun and fired at the assailants while moving to concealment. Security video shows them exchanging shots until the two would-be robbers flee the store. The armed citizen told reporters he had faced several attempted robberies before and has always managed to deter the aggressors: "Part luck, part awareness, part prep. It all adds up." (fox4news.com, Dallas, Texas, 11/7/23)

Freedom is non-negotiable, specifically when it comes to our right to practice our religion, own guns, educate our children, and work and live without government control or interference. There is a powerful social narrative that is trying to chip away at these rights, and many politicians have fallen for it. Caroline will never waver on our inalienable freedoms which she believes are God-given.

[Americans Bought at Least 15.8 Million Guns in 2023](#)

GUNS.COM 01/04/2024 12:32 AM | CHRIS EGER

(Click the above link to read the full article)

The year-end data published by the FBI's National Instant Criminal Background Check System show 29,854,186 checks were logged between Jan. 1 and Dec. 31, 2023, with the busiest single day being Black Friday, which saw 214,913 checks. Compare that to the total number of checks performed in 2022 at 28,904,713.

The National Shooting Sports Foundation pored over the figures for last year and, after removing checks and rechecks for firearms permits, found that no less than 15,848,055 checks were for likely retail gun sales. Further, 2023 continued a 53-month-long running trend of consumers purchasing over a million firearms per month.
