

Windfern Forest Utility District Meeting “WFUD” – Section 4 Residents

The Woodwind Lakes Board would like to request your presence at the next WFUD monthly board meeting, as the large sink hole by the lake will be discussed. The board has been trying to work with the WFUD Board to get a quick resolution on fixing the sinkhole but the WFUD has put off discussions with the Woodwind Lakes Board to date. **WFUD owns the property** and not only is the sinkhole an eyesore but a safety issue. We would appreciate your support if you could attend and be vocal about the situation with WFUD and their lack of cooperation in repairing this safety hazard.

Windfern Forest Utility District Meeting
14410 Mauna Loa Lane, 4:00 pm, Houston, TX 77040
Tuesday, January 16th

Sink-holes beginning to develop

Sink-holes have started to develop in this area

Sink-holes have started to develop in this area.

Silt has traveled from the sink-hole above under-ground to the lake visible in the photograph. The area below the sink-hole also is also in danger of collapsing.

Sink-holes have started to develop in this area as well.

The concrete bank-head has broken and is starting to erode. It has gradually become as larger as no work has been done to fix the problem.
