

When the FCC gives you lemons find a way to make Lemonade

It's Time for Some Lemonade!

The TV Spectrum auction being conducted by the FCC is going to affect many broadcaster stations. Now that isn't really news to you but we think we have an offer that may help you make some lemonade out the lemons that are being dropped on your desk.

We want to give you the buying power of a large corporation. We will give all of our subscribers a bulk buy discount when they order any of the listed products during the repack process. The

bulk discounts are driven by the number of subscribers on record as of 1/31/2017. We guarantee a minimum discount of 10% off of list price no matter how many subscribers we have on that date. It's simple, sign up now and be assured of a discounted price during the repack process. You can start your planning knowing that the price of any equipment on the list will be discounted at least 10% and that discount could grow if participation exceeds the minimum. It's a win/win

proposition.

So, how will you know what level of participation was achieved? All subscribers will be added to our email contact list and we will share those names only with other subscribers on the list. By subscribing you agree not to share any other subscribers names and you indemnify Wireless Acquisition LLC from any claims of misuse by other subscribers.

What do you have to do?

It's easy to become a subscriber:

- 1) Go to our website www.emceecom.com and fill out the online form

It's that simple!

A copy of list prices will be provided to all serious inquiries, we only ask that you consider that information to be proprietary to Wireless Acquisition LLC.

Pass the word, the more subscribers, the better the discounts.

Products

Transmitters
