"I have worked with Nancy over the last eight years as we developed our knowledge management approach for human exploration and operations at NASA. She has been both a friend and colleague who we could go to for advice in order to develop and maintain a set of practices and products that aid in capturing and transferring knowledge."

David Lengyel, NASA Risk and Knowledge Manager

We tap into the human side of knowledge management to help solve the toughest challenges that organizations like yours face every day.

Knowledge Management Approaches

- Collective Sensemaking
- Future Search
- Appreciative Inquiry
- Open Space Technology
- After Action Reviews
- Knowledge Café
- Peer Assist
- Liberating Structures
- Story Telling Circles¹
