

# BIG FUN—INDOORS OR OUT

Big trains, big coaches, big-load wagons—tippers and eight wheel gondolas—big gauge track! Everything about the Big Big Trains is big—especially the fun. And it's outdoors fun as well as indoors. The track is flexible, weatherproof and very tough. Even small children find it easy to clip together. There are hand-operated points to switch the train to another track for even more excitement. And you get 15 to 21 feet (4.57 to 6.30 metres) of track in every set. What's more there are no buffers at the end of a line—just trackside 'boomerang' switches.

# AND THEY BOOMERANG B

Big Big Trains never run out of track! special 'boomerang' switch. Clip this little s side of the track and set it so the train just back to where it started from. No need fo need to make tracks join up in loops. Or yo let trains pass one way but not the other. ( even set it to stop the train automatic 'boomerang' switch that puts the big big Big Big Trains!
