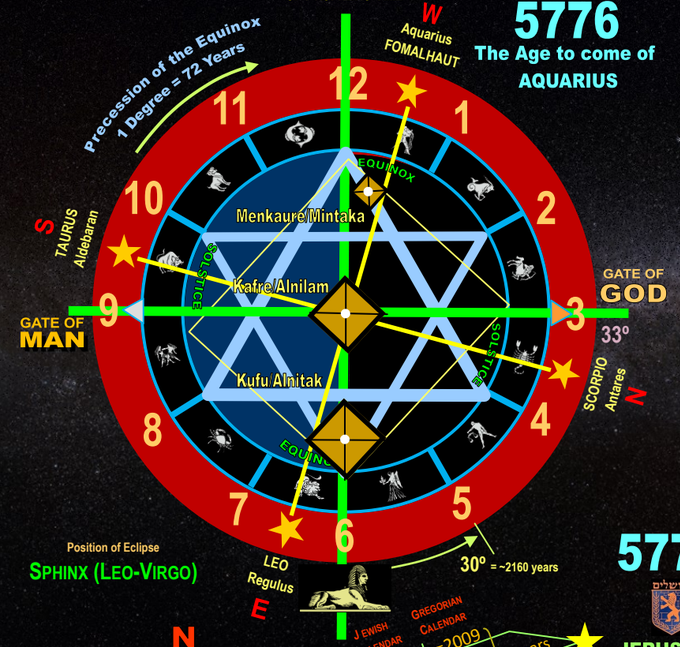
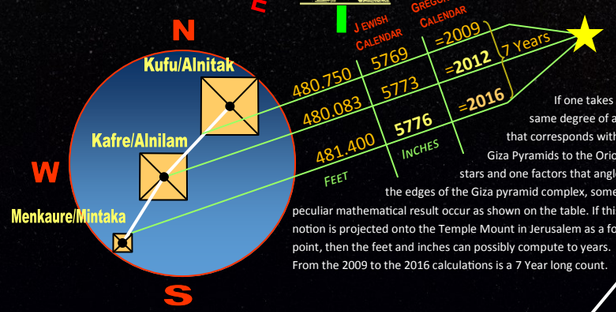
THE END OF TIME BEGINNING

THE ASTRONOMICAL CLOCK OF PROPHETIC TIME





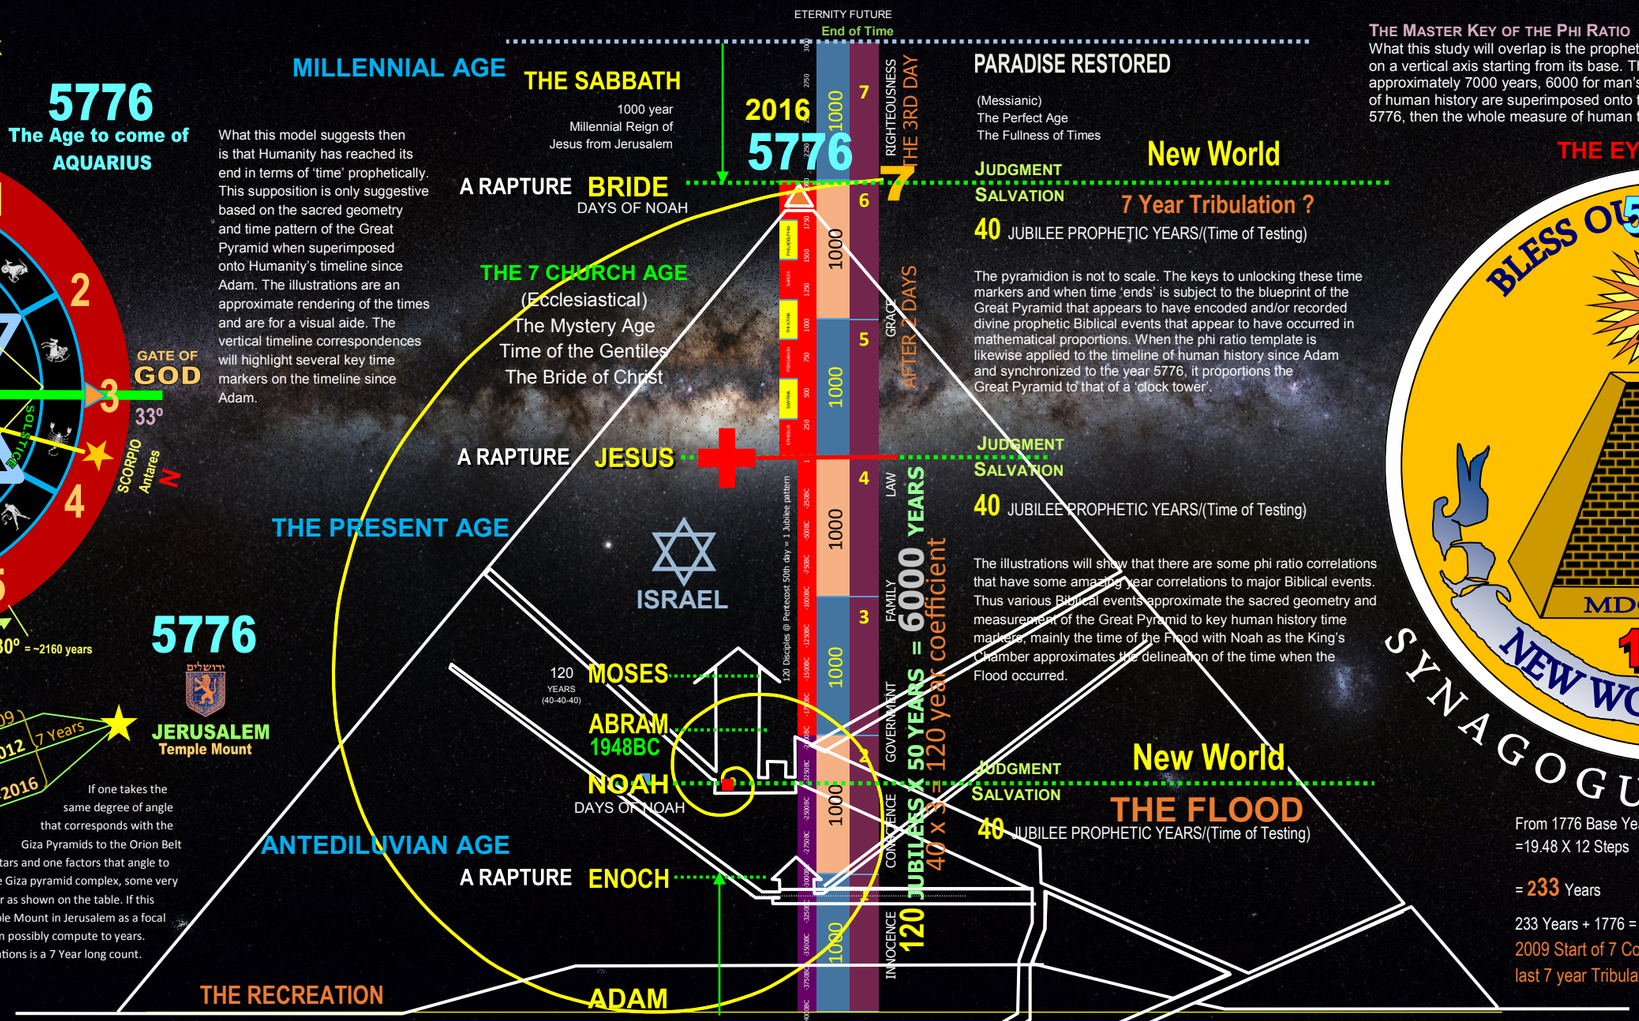
JEWISH CALENDAR		GREGORIAN CALENDAR	
480.750	5769	=2009	7 Years
480.083	5773	=2012	
481.400	5776	=2016	
FEET	INCHES		

If one takes the same degree of angle that corresponds with the Giza Pyramids to the Orion Belt stars and one factors that angle to the edges of the Giza pyramid complex, some very peculiar mathematical result occur as shown on the table. If this notion is projected onto the Temple Mount in Jerusalem as a focal point, then the feet and inches can possibly compute to years. From the 2009 to the 2016 calculations is a 7 Year long count.

5776

JERUSALEM
Temple Mount

What this model suggests then is that Humanity has reached its end in terms of 'time' prophetically. This supposition is only suggestive based on the sacred geometry and time pattern of the Great Pyramid when superimposed onto Humanity's timeline since Adam. The illustrations are an approximate rendering of the times and are for a visual aide. The vertical timeline correspondences will highlight several key time markers on the timeline since Adam.



The pyramidion is not to scale. The keys to unlocking these time markers and when time 'ends' is subject to the blueprint of the Great Pyramid that appears to have encoded and/or recorded divine prophetic Biblical events that appear to have occurred in mathematical proportions. When the phi ratio template is likewise applied to the timeline of human history since Adam and synchronized to the year 5776, it proportions the Great Pyramid to that of a 'clock tower'.

The illustrations will show that there are some phi ratio correlations that have some amazing year correlations to major Biblical events. Thus various Biblical events approximate the sacred geometry and measurement of the Great Pyramid to key human history time markers, mainly the time of the Flood with Noah as the King's Chamber approximates the delineation of the time when the Flood occurred.

THE MASTER KEY OF THE PHI RATIO

What this study will overlap is the prophetic Creation Week of years onto the Great Pyramid design on a vertical axis starting from its base. This study is assuming a 7 day dispensation of time to years of approximately 7000 years, 6000 for man's own rule and 1000 of King Jesus' rule. When the 7000 years of human history are superimposed onto the Great Pyramid and the apex is synchronized to the year 5776, then the whole measure of human time is thus calculated or calculable.

The King's Chamber and the Sarcophagus base correspond to the calling of Noah. The elevated roof sections above the Chamber around the midsection correspond to the calling of Abraham and the roof of the Chamber correspond to the calling of Moses. The illustration will show that the phi ratio spiral used for a more dramatic effect has its fulcrum on the Sarcophagus and loops toward the base of the pyramid to terminate at the apex of the Great Pyramid, which is the year 5776. Conversely the opposite rendering of the phi ratio spiral from the apex point of the year 5776 to the Pyramid Pit has the spiral focal point corresponding to the timeframe of the LORD's crucifixion. This study thus suggests that the Great Pyramid of Giza is in fact at 'time machine', a 'clock tower' that has it 'termination' of prophetic time clocked at 5776. What this model is suggesting is the amazing assumption that perhaps 5776 is the 'end of time'. Of course this does not mean the end of Mankind's existence but that the subsequent time from 5776 is a culmination, an apex in human time allotted by the LORD Jesus. What this study then leads to conclude is that the remainder of the time left for Mankind's rulership is the mirrored pyramidion of 7 years of Daniel's last prophetic week. Thus the model suggests that the long awaited AntiChrist will usher in the last segment of human time thereafter that will culminate in Daniel's last prophetic week of years. This could coincide with the 7 year Tribulation period known as Jacob's Trouble wherein at the end is where and when Jesus is to return with the Saints in Glory and thereafter establish His Millennial reign and Kingdom on Earth as it is in Heaven.

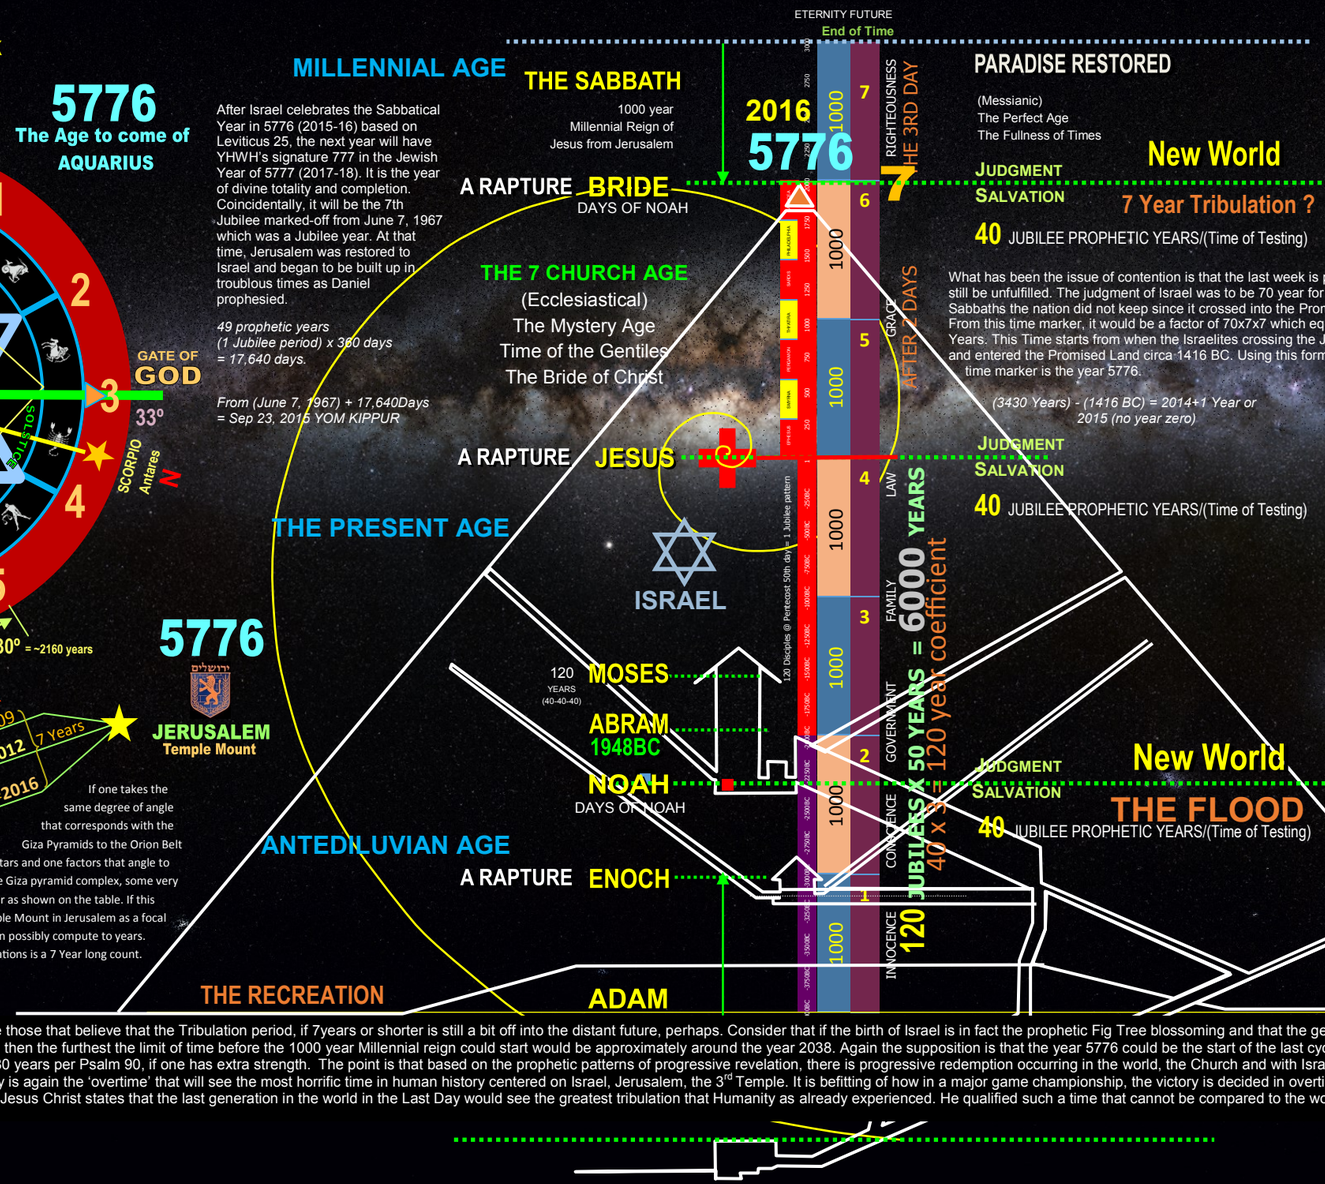
MILLENNIAL AGE

After Israel celebrates the Sabbatical Year in 5776 (2015-16) based on Leviticus 25, the next year will have YHWH's signature 777 in the Jewish Year of 5777 (2017-18). It is the year of divine totality and completion. Coincidentally, it will be the 7th Jubilee marked-off from June 7, 1967 which was a Jubilee year. At that time, Jerusalem was restored to Israel and began to be built up in troublous times as Daniel prophesied.

49 prophetic years (1 Jubilee period) x 360 days = 17,640 days.

From (June 7, 1967) + 17,640Days = Sep 23, 2015 YOM KIPPUR



DANIEL'S 70 SEVEN'S - CHAPTER 9:25

What is Daniel's prophecy of the 70 years? Basically it is a prophecy given to Daniel of the prophetic blueprint of 'time' and when it would 'end'. Moreover the LORD gave Daniel the exact time of when the Messiah was to come for His 1st visitation to Israel and present Himself as King. This timespan involves 70 years x 7 weeks of prophetic years that equals 490 years. This corresponds to the Pentecostal pattern of 7 Churches x 7 day/1week = 49 prophetic years that in turn correspond to the Year of Jubilee.

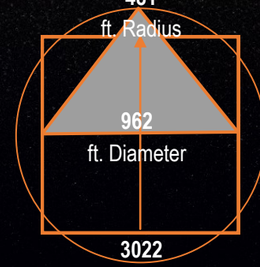
2009 Start of 7 Countdown to the last 7 year Tribulation?



There are those that believe that the Tribulation period, if 7years or shorter is still a bit off into the distant future, perhaps. Consider that if the birth of Israel is in fact the prophetic Fig Tree blossoming and that the generation that would be alive would be the 'Terminal Generation' per Psalm 103, then the furthest the limit of time before the 1000 year Millennial reign could start would be approximately around the year 2038. Again the supposition is that the year 5776 could be the start of the last cycle of 7 years. If one imposes the lifespan of the limit of one's years, it would be 80 years per Psalm 90, if one has extra strength. The point is that based on the prophetic patterns of progressive revelation, there is progressive redemption occurring in the world, the Church and with Israel. It is believed by many that the last 7th week of years from Daniel's prophecy is again the 'overtime' that will see the most horrific time in human history centered on Israel, Jerusalem, the 3rd Temple. It is befitting of how in a major game championship, the victory is decided in overtime as it can be the most intense time of the game and exhausting. Jesus Christ states that the last generation in the world in the Last Day would see the greatest tribulation that Humanity as already experienced. He qualified such a time that cannot be compared to the worst atrocities that have occurred nor will ever in the future.
