## Program Overview

This course provides participants with an in-depth understanding, knowledge, and skills needed to carry out successful internal and external ISO 9001 audits. The latest methodologies, practices, and techniques are utilized including practical application for the upstream service sector and their global supply chain that supports the industry.

This course utilizes the latest training methodologies and uses a combination of lecture, examination, and group auditing to ensure each participant is able to analyze properly, audit, document, and report findings, concerns, and observations. This is the most advanced auditing course and teaches skilled and qualified auditors how to audit the specification. This includes auditing a full management system with a skilled audit team made up of lead auditors and industry SMEs. Throughout the audit, participants undergo observations and receive competency assessments by Accredited Providers and Subject Matter Experts. Upon successful completion, participant receive their Registered Professional Number (RPN™), leather bound credentials issued by Wollam Groups.

## Summary of Course Curriculum

- How to audit the controls outlined in the ISO 9001 Standard, 2015 Edition
- Audit preparation, performance, reporting, and follow-up
- Auditor competencies, responsibilities, and accountabilities

## Prerequisite

- ISO 9001 Fundamentals or Practitioner
- Audit experience

## Who Should Attend

This program is designed for quality and HSE personnel, auditors, managers responsible to oversee their management systems.
