Venessa Van Zeeberg – **VP, Operations**  
Location – **Johannesburg, South Africa**  
Ownership: **70% ICG – 30% Whitfield**

With over 45 years of experience in the diamond industry, the integration of the Whitfield Diamond Group into ICG brings a fully equipped cutting plant at the heart of ICG's diamond cutting and polishing activities in Africa utilizing the latest technologies to maximize total productivity and profits. Whitfield will have the capacity to produce finished stones from .5 to 50 carats to be sold locally and exported to ICG – USA. ICG will also activate its jewelry setting and manufacturing business model via Whitfield. **The goals for 2017** will be to process up to 5,000+ carats per month in Johannesburg and start initial production of rings, bracelets, necklaces, earrings and pendants.
