

THE CASCADES CONSERVATION PARTNERSHIP

PROTECTING OLD-GROWTH FORESTS | LINKING WILDLIFE HABITATS | SAVING OUR TRAILS

An Atlas of Targeted and Acquired Properties along Washington State's Cascade Crest - 2001

The Cascades Conservation Partnership is an unprecedented three-year campaign to purchase and protect over 75,000 acres of privately owned forests that link the Alpine Lakes to Mount Rainier.

This effort will protect most of the remaining old-growth forests left on private land in this region. Much of this old-growth is threatened with logging within the next one to three years. These forests and corridor lands are critical habitat for gray wolf, grizzly bear, pine marten, fisher, northern goshawk, great gray owl, northern spotted owl, and many other species.
