

Thank you for your fall 2017 registration. One of the requirements for NCHSAA eligibility is completion of the NFHS Concussion in Sports course. If you were an official last year and took the Concussion course for certification, it is good for the 2017-18 year and you do not have to take it again. If you are a new official or did not take the NFHS Concussion in Sport course last year, you will need to complete this by July 15, 2017 for eligibility. The course is free and takes approximately 25 minutes to complete.
