

# Key Information

## **Behaviour in School**

We expect the highest standards of behaviour from all children. Good behaviour is acknowledged and celebrated in many ways e.g. tokens, assemblies and whole class rewards. Unacceptable behaviour is always challenged and serious incidents are logged. For further details and our behaviour policy please see our school website. Your support in this process is vital and welcomed by the teaching staff.

## **Car Parking and Road Safety**

Road Safety is a major concern in the area around our school. If you have to drive to school, please make sure that you park legally and with consideration for our neighbours.

## **Pupil Medication**

Children should not bring any medication into school, unless by prior arrangement. All medicines must be clearly named and the dose stated. This support is provided through staff good will, it is not a statutory requirement. Parents are ultimately responsible for overseeing medication.

## **Parent Volunteers**

The school always warmly welcomes volunteers to help in classes. Vetting and Barring checks can be organised for those interested.

## **Swimming Guidelines for Parents**

- Government guidelines state that by the time children complete primary school, they should be able to swim 25 metres.
- All relevant medical information must be transmitted to school and must be updated throughout the year if required (especially regarding asthma).
- Swimming costumes must be ASA regulation type. Trunks or One-piece swimsuits should be worn, not shorts or bikinis.
- Hair must be secured off the face at all times by a clip or band, if not a bathing cap should be worn.
