

NASW-Florida Supports Social Work Education During COVID-19 – REVISED SCHEDULE AND ZOOM LINKS

Due to the high number of student participants, NASW-FL has expanded these sessions to a larger platform to accommodate all students and social work education programs that need this resource. All of the Zoom meeting links are revised.

NASW-FL is providing a series of online training, case study analysis experiences, and practice conversations to support social work students and educators in Florida who are responding to the transition to online courses and remote or limited field placement opportunities. The following series is available to all students and may be used to supplement field and coursework at no cost. Pre-registration is not required. Please check with your school to determine how many hours they will accept and gain their approval. To access information on the sessions, included resource materials, presenter bios, and the full schedule of sessions, **visit the NASW-FL website: www.naswfl.org**. Once in the Zoom session, all participant will enter their contact information in the chat. Following completion of a session, NASW-FL will provide an electronic certificate to all participants within 3-5 days. Hopefully this will ease some of the burden of recent changes while maintaining the professional integrity of our social work programs and the CSWE standards. Students are expected to review posted materials prior to the session if materials are available. Presenters are members of the NASW-FL Board of Directors, previous board members, social work leaders, or previous NASW-FL presenters. Please direct all questions or suggestions to Carol Campbell Edwards at president.naswfl@socialworkers.org

Date	Time	Type	Title/Topic	Presenter	Zoom Meeting Login
