

Green Loan

Developed by

Green is the new Gold

Go green and see your business from a fresh perspective. Our Green Loan provides you with the opportunity to infuse new energy into your operations, generate substantial savings and enhance efficiency while you help save the planet for future generations.

8% cashback and 100% financing

Developed by the Agence Française de Développement (AFD) and cofinanced by the European Union, our Green Loan can finance up to 100% of the value of your project. In return for your efforts to protect the environment, you will also receive a cashback amounting to 8% of the loan amount.

Green evolution

To benefit from the Green Loan, your business needs to implement a project that is related to at least one the following:

- **Renewable energy:** Technologies using solar, wind, hydro, biomass, wave, geothermal sources
- **Energy efficiency:** Reduction of 20% or more in energy consumption + Payback of project of 2 to 8 years inclusive
- **Environmental performance:** Pollution abatement and protection of natural resources
- Best available technologies for new installations

Leading the way

Leverage on MCB's expertise in Green Loans to ensure your business scales new heights. Between 2009 and 2015, MCB financed 104 projects with AFD's first and second lines of credit.

CO₂ emission reductions

See your business from a new perspective

In March 2014, MCB became the first bank in the region to sign an agreement with AFD for the line of credit powering the second edition of the Green Loan. An envelope of 60 million euros is now available through this scheme so make the most of it to see your business from a fresh perspective - a greener one.

Talk to your Account Executive today or email us on corporate@mcbseychelles.com, and together let's help make the world a better, greener place.
