

# Stainless Steel Kitchens, Inc.

## Specifications *Stainless Steel Countertops*

<b>Material</b>	Heavy 16 ga., 304 #4 (brushed) finish stainless steel (with protective PVC plastic that will be removed) backed with 3/4" marine plywood.
<b>Thickness</b>	Standard thickness is 1-1/2" thick. Other thicknesses are available upon request.
<b>Backsplashes</b>	Optional; Integrated backsplashes can be made from 4"H to 16"H. Backsplashes are 3/4" thick.
<b>Edges</b>	Radius (maximum 1-1/2") and 90 degree corners available. Marine edges are available to provide a non-drip edge.
<b>Sinks</b>	Integrated and drop-in sinks are available in single and double bowl.
<b>Cutouts</b>	Cutouts are available for cooktops and drop-in sinks.
<b>Configurations</b>	Available straight, L-shape, U-shape, and 45 degree corners.
<b>Finishing</b>	Welding is ground and blended to a satin finish.
<b>Customization</b>	All countertops are made custom to client's specifications.

*\*We continue to refine the specifications and construction. Improvements to above specifications may occur, but will not affect quality of construction.*
