

QUARTERLY NEWS & NOTES

ENGINEERING

The school year is now in full swing! An increasing number of schools are looking to commercial geothermal HVAC to deliver efficiency, while reducing ongoing costs and improving occupant comfort. Learn more about geothermal benefits in this *HPAC Engineering* article written by Al Youker, Daikin's water source heat pump and unit ventilators product manager.

D&B ON THE JOB

D&B Engineering supplied Daikin VRV systems to 10 Provost: ultra-luxury condos in Jersey City, NJ. Located in the heart of the Powerhouse Arts District, 10 Provost is an impressive 28 stories high, containing 242 refined units. D&B provided 1,200

tons of cooling to this newly constructed condominium, which just opened its doors to tenants in recent months.

D&B PARTS

D&B Parts is pleased to announce the addition of Pete Zafonte to its sales team. Pete has over 20 years of experience in the HVAC business; his previous positions include six years at Daikin as the Regional Director of Solutions Sales, and Regional Manger for ABCO HVACR Supply + Solutions. Pete will focus on selling replacement terminal products, as well as the entire D&B Parts product line, to end users and service contractors.

MANUFACTURER NEWS

NEW product alert! Daikin's latest addition to their fan coil lineup is *OptiLine* Vertical Stack Fan Coil. With the smallest footprint in the industry, *OptiLine* is the ideal retrofit or new construction solution when space is at a premium in applications such as hotels, apartment complexes and condos. It's slender construction offers economical and powerful, yet quiet, heating & cooling.
