**Seeing the Ability in Every Child**

**Please Join Us**  
**March 13, 2017 at 7:00 PM**

Meeting to be held at NYA Administration building at:  
26 New York Ave  
Smithtown, NY 11787  
Room 222A

## **What You Need to Know to Help Children with ADHD**

Speaker: Lisa LoPinto, Ph.D.

Dr. LoPinto is a NYS Licensed Psychologist who specializes in the assessment and treatment of children and adolescents (ages 2-18) with Attention Deficit/Hyperactivity Disorder (ADHD), Oppositional Defiant Disorder (ODD), or behavior/impulse control difficulties.

Dr. LoPinto will draw upon her 22 years of experience working with ADHD children in schools and in her clinical practice and provide parents, educators, and professionals with a comprehensive overview of ADHD. Come learn about the causes of this neurobiological disorder, the distinct presentations and associated features, the impairments that are due to executive function deficits, how it is diagnosed and treated, strategies that can help at home and at school, and how to access educational and community support.
