Crayola Markers Feedback

Listen, I feel that Crayola® is doing a very awesome job with the markers. Whenever I draw something and color it with Crayola, it feels real to me. But the thing is, Crayola should have more stationary like-pencils, crayons, pens, notebooks etc, just like Classmate.

To Whom it Concerns,

I am writing this reference at the request of Mr. and Mrs. Pisupati. I have known their daughter Santoshi Pisupati for two years in my capacity as an art instructor at Drawn2Art in Redmond, Washington. Santoshi has done a superior job during her enrolled time. Her sweet disposition, eagerness to learn, and positive attitude make her an outstanding student. She has excelled in many media, including drawing, watercolor painting, chalk pastel, and oil pastel. She is currently learning acrylic painting and understands the finer points of color theory, mixing her own pigment and layering color in a more sophisticated manner.

Santoshi is an independent and confident artist. Because we stress responsibility at our art studio, Santoshi has an accelerated knowledge of materials, procedures, organization, as well as a developed vocabulary of art terms. She is neat with her materials and knowledgeable of when and how to use each medium.

In conclusion, I would highly recommend Santoshi Pisupati. If you should need any additional information, please feel free to contact me at southwellnicole@gmail.com or 615-347-1261.

Sincerely,

Nicole Southwell
