- A. Trainees must be between the ages of 17—60. If an exception is made for anyone over 60, please do not request hospitality for that trainee. ***Young People: Attendance by young people under the age of 17 is discouraged.*** Exceptional cases will be considered; however, a Young People's Registration Form from the elders in the sending locality (including an elder's letter of recommendation), in addition to prior attendance in a minimum of one video training, is required for each applicant under the age of 17. - I. Living Stream Ministry has installed an induction-loop system in the Ministry Conference Center to assist the saints who are hearing impaired. An induction-loop system eliminates reverberation and background noise, due to the distance it takes for the sound to travel, by delivering sound directly from the source to a listener's hearing aid.
- In order to take advantage of the induction-loop system, saints must have a hearing aid that is equipped with a telecoil. A telecoil, or t-coil, is an option available on many hearing aids. It is a small copper coil that is activated by a t-switch on the hearing aid or cochlear implant. Saints can check the owner's manual for their particular model of hearing aid to determine whether it has a telecoil. Any saint who is currently using a hearing aid that is not equipped with a telecoil may take advantage of the induction-loop system in the Ministry Conference Center by either purchasing a hearing aid that has a telecoil or purchasing an external induction-loop receiver with earphones, which operates like an FM radio using the induction-loop technology. If there are any saints from your locality that are hearing impaired and that could benefit from using this induction-loop system during the training messages, please notify the LSM Registration Section at the time of registration so that we can make the necessary arrangements.
