

# Indian Heart, Global Reach...

HEALTH SECURE (INDIA) PVT. LTD.

## A Reputation of Manufacturing Excellence

Spanning more than a decade, Health Secure has been reaching out to the world, enabling patient-care through world-class pharmaceutical manufacturing – of its own brands, as well as for other companies. State-of-the-art facilities and highly admired expertise in manufacturing makes Health Secure one of the most sought after contract-manufacturers from India. This expertise in manufacturing provides a sound backing to the strong supply and distribution network, the company has in India for its own brands.

## The Health Secure Team

A cohesive team of first-generation entrepreneurs, the team delivers through collaborative work. Diverse experience, team-work and the spirit of 'leading from the front' has taken the company from strength to strength in the sixteen glorious years of its existence and growth.

The Health Secure management is led by:

Anirudha T. Wankhede, Managing Director

Anirudha has around 20 years of business experience, including export of perishable goods to Europe and Middle-East, and the group's construction business in India. Anirudha has a Bachelor's degree in Engineering, with specialisation in Industrial Electronics

Dr. Abhijit T. Wankhede, Director

Abhijit has around 18 years of business experience, including hospitality, export of perishable goods and the group's construction business in India. Abhijit has a Bachelor's degree in Dental Surgery. He looks after the portfolio's of Marketing, Sales and Regulatory Affairs.

Arvind T. Wankhede, Director

With 16 years of experience in operations, c-GMP manufacturing and the group's construction business. Arvind is instrumental in setting up the present manufacturing facility and implementing SAP Business One ERP for the organisation. He also coordinates production and administration for the company. Arvind has a Bachelor's degree in Engineering, with specialization in Computers.

# Global Recognition for a Social Cause

Significant improvement in nutrition status for Maharashtra's children under-two.

« The preliminary findings of the survey indicate that the prevalence of stunting in children under-two decreased from 39.0% in 2006 to 22.8% in 2012. Importantly, prevalence of severe stunting in children under-two decreased from 14.6% in 2006 to 7.8% in 2012. This positive trend is seen both in rural and urban areas. In-depth analysis by geographic location and wealth quintile are awaited. »

« The survey findings also provide with a good evidence for future action, particularly on the need to address diet diversity in young children to be able to continue on this positive trend. Continued strong and concerted action will be required to ensure optimal feeding of infants, as well as to break the often monotonous diet that lacks the food diversity needed to ensure that children are fed all the nutrients and vitamins they need to grow health, strong and bright. »

Health Secure, best known in the Indian market as the sole supplier of multivitamin supplement in syrup form to the State Government of Maharashtra, for the age group of 6 months to 3 years, 3 years to 6 years, adolescent girls, pregnant women and lactating mothers since the last 4 years. UNICEF\* has researched, documented and applauded State of Maharashtra for significant improvement in nutrition status for children under-two.

## NRHM's De-worming of young children in Maharashtra

Pre-school children aged 1 to 5 years are often infested with intestinal worms. Worms aggravate malnutrition, anemia and stunting levels and retard both physical and cognitive development. Treating children for worms are one of the simplest and cost effective interventions for improving child health. Health Secure is the sole-supplier of Albendazole syrup in Maharashtra for NRHM's De-worming drive.

## The Health Secure Expertise

- Manufacturing of Allopathic, Ayurvedic and Veterinary products
- Liquid orals, Semi-solids and Powders.
- Over 200 products covering a variety of segments
- Various packaging types and sizes
- Strong supply and distribution across India
- Contract manufacturing for several reputed companies across the globe
- WHO-GMP certified manufacturing facilities

## The Four Mantras of Success

Health Secure's success in contract manufacturing and marketing can be attributed to the four sacred 'mantras' the management follows at all times:

### 1 - Best in Class Manufacturing Facilities

Health Secure does not settle for anything lesser – in plant and machinery, processes, packaging, warehousing. There are systems in place, and the management ensures that the systems are followed and monitored. The facilities are regularly inspected by domestic and international audit agencies. The current facilities are WHO-GMP certified.

### 2 - Best in Class Resources

Health Secure employs the best resources – be it trained people, or the best quality raw materials sourced only from the top-three reputed vendors. There is no compromise when it comes to integrity.

---

### ③ - Best in Class Quality Assurance and Regulatory Team

The Health Secure team of experienced quality professionals ensures compliance, while regulatory experts monitor the dynamic regulatory environment. This ensures necessary regulatory documentation for approval of new products and their timely delivery to the market. Health Secure's internal quality systems are very stringent. This reflects in the confidence posed in the company by the regulatory authorities. Health Secure is among the few companies in India authorized to manufacture spirit based and narcotic formulations containing Codeine Phosphate.

---

### ④ - Best in Class Delivery

Health Secure delivers on time. The company has a track record of never violating this sacred mantra – be it government supplies, where the company recently finished a 6.1 million bottle schedule in a very compressed time-frame, or be it the delivery of a specialized formulation to a far-off country!

The 'four mantras model' has inspired so much trust in Health Secure that the relationships built with customers, vendors and employees are now forever...

# Health Secure's Specializations

- Multivitamins, Micronutrients, Multiminerals
