Hello

I hope this newsletter finds everyone well. Everyone is doing well down at the farm. The month of May is hands down the busiest month of the year. Last fall and over the winter I have been working on a new watering system and fencing on a separate property that I have been grazing with sheep. As the cow herd has gotten bigger they have outgrown the original 85 acres of pasture. The new cow farm will be grazed with the yearlings as well as a few two year olds. The new farm is a mile or so down the road I had to catch and the cows in the new corral and load them on a trailer to get hauled over.

They were a bit bewildered at first but after a few days they settled right in to their new home.

Most of the ewes and their lambs are out enjoying fresh pasture as well.

Thanks for reading.
