

UPDATE: I recently found out that the college-bound child of a friend of mine was found shot dead under extremely mysterious circumstances, on 8.9.20. He was a good and loving child, with loving parents - NOT suicidal by any of the markers. WARNING - KNOW who your child is communicating with via phone, in-person, etc. ...There are evil people - as I describe herein - who have no moral compass, and feel they are above the law...

I recently added my book, "Humanity's Abyss...", to my site ourconstitution.info. I highlight the hubris of monolithic religion in that, as well as the danger of the education-medical-military industrial. One of my prior books, "Absent Due Process..." highlights my concerns for incursion of the "medical-military industrial" into higher education, and notes that it is students who can help make a difference: SAEK – Students Against Extrajudicial Killings – For the Sake of Humanity - . #protectpatientsstudentsall

Trump has referenced "a lot of killers" in our Country (a 2.5.17 interview with Bill O'Reilly, link at my Home page). At a speech on 12.7.19 at IAC's annual meeting in South Florida, he stated, "...A lot of you are in the real estate business because I know you very well. You're brutal killers. Not nice people at all..." This second reference was made at a Jewish summit. Also, at the 9.11 2020 commemorative ceremony, Trump did not say "under G_d" during the pledge... Perhaps he was aware of this further likely killing I have reported to local law enforcement (although the death was in another state)?

My concerns are, in part, deeply tied to religion – Jewish specifically (although others are involved)... but no G_d would sanction this horrid Shonda. Furthermore, Our Founders believed that the government should have no power to influence its citizens toward or away from a religion. The principle of separating church from state was integral to the framers' understanding of religious freedom, https://www.law.cornell.edu/wex/religion_and_the_constitution. Hence, the First Amendment - *Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof*. References to religion should also be out of our common practices, such as The Pledge of Allegiance, "under G_d"; money; and government offices as well.

I have no doubt Trump is aware of my overall concerns, as they have also been reported to multitudes of oversight entities, local, State, and Federal, including the Intelligence and Judiciary Committees, and all representatives, both sides. Unfortunately, as one example of the degeneracy of our political system, Rubio receives a lot of money from Norman Braman, a wealthy University of Miami (UM) benefactor, so I never heard from Rubio directly, or anyone else.

The University of Miami has a lot of wealthy Jews (and non-Jews) on their Boards, as funders, etc. One well-known builder, Lennar, has been quite generous. I am not sure who the other builders, professions, etc. are. However, UM has a role in the horror I document here. As a Jew, this is disgraceful, and unfortunately, they remind one of a time we were supposed to "Never Forget", and horrid elements including the "Jewish Gestapo", or Group 13. <https://listverse.com/2017/01/03/top-10-nazi-collaborators-who-were-jews/>

These people are unfettered in their killings, blackmail, extortion, and other threats and harms. I do not know if Mossad or the ADL is involved, but those concerns are further discussed in my "Letter to FIU" at my site. They are protected – including by Trump. My message to Trump: most Jews would be appalled that you are covering for these barbarians, perhaps for their votes and financial power? If you are being blackmailed or feel threatened – go public. The people will support you and appreciate this honesty regarding such absolute terror on our soil. You have the Constitution and military behind you as well in such times, and it is your duty to uphold our laws, and secure our welfare.
