

Accomplished
Speech Language
Pathologist

Dr. Amber Rutt-Shepard
CCC-SLP, OTD, OTR/L

Dr. Rutt-Shepard is a licensed Speech Language Pathologist and Occupational Therapist. She is the developer of the LLEA/AP program and the co-developer of SNAAP® (Systematic Neuro-Speech Apraxia/Articulation Program). These are intensive speech language programs designed and proven to produce remarkable progress in children with a diagnosis of Apraxia and/or Articulation issues. Dr. Rutt-Shepard has mastered the strategies in providing treatment methods used to improve speech language disorders in and outside of the academic environment.

Please contact the office at (480)442-8059 for more information or to schedule an Evaluation or Pre-assessment.

We are located at:
125 S. Avondale Blvd, Ste 105
Avondale, AZ 85323

THE PROGRAM: Literacy- Language Enrichment Apraxia/Articulation Program (LLEA/AP)©

The LLEA/AP© summer program is designed to provide **intensive** intervention for preschoolers with a diagnosis of Childhood Apraxia of Speech (CAS), Phonological Disorders, or Severe to Moderate Articulation Disorders. At present, there are no definitive diagnostic features that separate CAS from other speech sound disorders including phonological delays (ASHA 2016).

REGISTER YOUR CHILD
contact us at (480)442-8059

Participants will engage in researched based interventions that facilitate motor planning to improve sequencing sounds from simple forms to more complex words and phrases.

The LLEA/AP© program will provide remediation of preschoolers with mild to moderate language delays, fine motor delays and difficulties with sensory processing while addressing the fundamental underlying weakness in the pre-reading readiness to prepare the child to meet the academic demands of kindergarten.

Participants

Children between the ages of 4-5 years are ideal candidates for our program. They will participate in the **Literacy-Language Enrichment Apraxia /Articulation Program (LLEA/AP)©** four days a week for 1.5 hours/day for 4 weeks.

Limited number of spaces are available and will be filled based on a selection process geared to determine the child's eligibility to participate. The following information will be needed to determine eligibility:

- **A speech-language evaluation** that has been completed within the last 12-18 months and a current progress report (We can assist in the completion of an evaluation if needed).
- **A five-minute video** of the child's speech.
- **Ability to participate in a short pre-assessment** (10-15 minutes) scheduled during May 30, 2017 to June 9, 2017.

Cost of Program: \$240 per week

Day & Time: Monday – Thursday
@ 1:30pm – 3:00pm

To Register: Call (480) 442-8059
