

EL MIRAGE DRY LAKE

Land Speed Racing Procedures

Revised: April 2018

Changes Include:

Section VIII. Item 3
Section II. Item F. Entrant
Section IX. AWARDS Item 3
Appendix A - Club Duty Assignments
Appendix C - 2018 Course Preparation Dates
Appendix D - 2018 El Mirage Motorcycle Minimums
Appendix E - 2018 El Mirage Car Minimums
Text with strike-through is considered removed.
All changes are in bold and underlined.

As voted by The S.C.T.A. Board of Directors & Club Representatives on March 2, 2018.

I. INTRODUCTION

The S.C.T.A. generally conducts six land speed events annually at El Mirage Dry Lake. The area is public land. The SCTA operates under permit from the jurisdictional Barstow office of the Bureau of Land Management (B.L.M.).

Both participants and spectators of the event are required to abide by the following rules while on the lakebed:

1. There are speed limits:
5 MPH in the pit area, 25 MPH on the access roads and no more than 15 MPH on the return road or within 50 ft. of any camp.
2. It is illegal to bring in, dispose of, or possess any firewood containing nails, screws, or other metal hardware in the area.
3. It is illegal to bring in, dispose of, or possess any glass container within the area.
4. All campfires must be secured in a container or burn barrel anywhere in the area. No campfires are allowed on the ground.
5. No dumping of campfire or B.B.Q. ash on the lakebed.
6. Open alcoholic beverage containers are not allowed while driving a motor vehicle.
7. All campsites must be left clean and trash must be packed out.
8. NO FIREWORKS!

These rules will be enforced by both the B.L.M. and S.C.T.A.
All association members are asked to assist in assuring compliance.

A. General Requirements

The current S.C.T.A. Rules/Records Book is in effect for all events conducted at El Mirage Dry Lake with the exception of the following items:

1. In any case where these El Mirage procedures differ from the current S.C.T.A. Rules/Records Book, the El Mirage procedures shall prevail.
2. Technical regulations contingent upon the speed of 175 MPH at Bonneville (roll cages, fire systems, parachutes, etc.) are to be observed at 160 MPH at El Mirage Dry Lake Bed.
3. Vehicles that exceed 250 MPH shall be equipped with two independent parachute systems.
4. Weather – The Contest Board assumes no responsibility whatsoever for delays, postponements and cancellations of all or any part of the event because of inclement weather, course conditions and/or any other reason. The decision to close the course resides with the Race Director.

B. El Mirage Procedures Changes & Revision Process/Schedule

At the January S.C.T.A. Board/Club Reps meeting, the Board will notify Clubs that proposed changes to the El Mirage Procedures (E.M.P.) are invited. Any changes desired by the Clubs should be presented in writing at the February S.C.T.A. Board/Club Presidents meeting. Clubs are asked to notify the S.C.T.A. Secretary of proposed changes and provide enough copies of their proposals to give to all other Club Reps and the S.C.T.A.-B.N.I. Board.

At the February S.C.T.A. Board/Club Reps/Club Presidents meeting, the board will pass out the proposed changes followed by a brief discussion on the proposed changes with justification for those changes. The Club Reps / Presidents will take those collective proposals to their Clubs for deliberation and inform the Clubs that the issues will be voted on at the March S.C.T.A. Board/Club Reps meeting.

At the March meeting, the Club Reps will vote on the proposed changes. Approved will require revisions to the E.M.P. master copy. Between the March and April meetings the S.C.T.A. Board will complete the revisions to the E.M.P. and distribute it to the members.

At the April S.C.T.A. Board/Club Reps meeting, the newly updated E.M.P. will be passed out to all of the Clubs. The board will also print extra copies for the registration trailer. The new E.M.P. will be implemented at the May El Mirage Meet.

C. El Mirage Procedures Distribution Procedure

The S.C.T.A. Board shall produce an initial quantity of 500 copies of the E.M.P., distribute 10 to 20 to each member Club, post the E.M.P. in the S.C.T.A. website and place at least 200 copies in the registration trailer for distribution to all Drivers / Entrants in May and all rookies throughout the full year.

II. DEFINITIONS & PRELIMINARY MATTERS

A. Race Director

The President of S.C.T.A. shall be the Race Director at all El Mirage meets and shall have the authority to deviate from these procedures, as he deems appropriate. When the S.C.T.A. President is not in attendance at an El Mirage meet, the S.C.T.A. vice-president shall be the Race Director.

B. Official Meet

A meet shall be considered an Official Meet upon completion of the first vehicle's timed run.

C. Vehicle Log Book (V.L.B.)

A booklet issued by S.C.T.A. to the owner(s) of every vehicle intended to be operated in any S.C.T.A.-sanctioned event. It MUST contain all required information about each such vehicle, including but not limited to the vehicle's chassis identification number (C.I.N.), which must correspond to the vehicle's log number. If for any reason the C.I.N. tag is lost or destroyed, a duplicate tag may be applied for. The C.I.N. tag MUST be attached to the chassis/frame of the race vehicle PRIOR to Inspection.

1. Presentation of V.L.B.

The Vehicle Log Book shall be presented at every S.C.T.A.-sanctioned event. It is the responsibility of each entrant to insure that all information in the front of the V.L.B., as well the Race Day Information, is complete PRIOR to vehicle inspection, e.g., photos, ownership history, modification, etc. (See current S.C.T.A. Rules/Records Book.)

2. V.L.B.: Change of Vehicle Ownership

If ownership of a vehicle changes, the vehicle's V.L.B. must remain with the race vehicle and be made available during all subsequent inspections of the vehicle.

3. Release/Waiver & wristbands

All participants are required to sign an insurance waiver and wear identifying wristbands. Drivers will be issued special "Drivers" wristbands. Only participants with wristbands are allowed within coned restricted areas and starting line fences. Waivers and armbands are obtained at registration.

D. Race Vehicle

Every vehicle, which has been registered for and passed inspection, shall be considered a "Race Vehicle" for the duration of the meet. A vehicle which does not meet all of the Class Requirements but does meet the safety requirements shall be placed in a Time Only Class in accordance with Rule 1.B in the S.C.T.A. Rules/Records Book.

Guest Entries: Guest entries (Non-Club members) are restricted to two meets per year. Guest entries are not eligible to set records or earn points.

E. Registered Race Vehicle

Every vehicle that has passed inspection and paid fees may participate in a meet.

F. Entrant

An entrant is defined as the person entering a race vehicle into competition at an S.C.T.A. Event. Every entrant, driver, or rider listed on the entry form MUST be a member in good standing of S.C.T.A. Violation of this requirement shall be a forfeiture of accrued points for the season and/or records set. The only exceptions shall be guest entrants. **Any SCTA Club member that has been listed in bad standing May not run as a guest entry.**

G. Numbers

Numbers 1-25 are assigned by the S.C.T.A. on the basis of the entry's standing at the end of the previous racing season. All other numbers are assigned and must be used throughout the season with the same entry number in order to earn points for association recognition. For number assignments contact JoAnn Carlson at 559-528-6279 or email office@scta-bni.org.

H. Rookie Driver

Regardless of other driving/riding experience, a Rookie is defined as a person that has never driven/ridden at El Mirage as a participant at an S.C.T.A. event.

As a Rookie driver/rider there are both requirements and privileges.

Requirements: Rookies will keep rookie status for the duration of the meet. They must attend a two-part Rookie orientation before driving/riding along with crew member/s that will retrieve the driver/rider. This will take place the day before and the morning of that racing event. Failure to attend either part of the rookie orientation for that event disqualifies driver/rider from racing at that event. All Rookies must comply with all instructions by, and show competence to, the Rookie Director and/or the appropriate Tech Chair or Chief Inspector. They will run from the Rookie Line for the duration of the meet. Any exceptions will be at the discretion of the Race Director, Rookie Director and/or the appropriate Tech Chair or Chief Inspector and will be considered on a case-by-case basis. Regardless of S.C.T.A. license held, all Rookie drivers/riders must make a first run under 150 MPH from the Rookie line and comply with all requirements set forth in the procedures, e.g., shut off in the lights.

Privileges: Rookies may run from the Rookie line for the duration of their first meet in order to upgrade their license category above 150 MPH. (However, a record may not be set from the Rookie Line.)

NOTE: There are only Rookie drivers/riders; there are no "Rookie Vehicles" nor do new cars have Rookie privileges. Only Rookie Drivers/Riders have Rookie Line privileges. New cars or motorcycles must comply with Section 1. E of the S.C.T.A. Rules/Records Book for initial run limitations, but they must run from regular lanes unless piloted by Rookie Drivers/Riders.

Rookie Orientation Staff and Starters shall be notified of any variance to the procedures by the Race Director prior to the Rookie Driver/Rider running. Failure to comply with the requirements of the Rookie Orientation process shall cause the Rookie to be banned from making further runs at that event and require repeating the Rookie Orientation and successful completion of the rookie requirements before being allowed to continue to compete.

I. Driver Licensing

All drivers/riders shall comply with Rule 1. M Driver Licensing of the S.C.T.A. Rules/Records Book with exception to reference to short course. Note: Every 3 years that a driver or rider has not operated a race vehicle at El Mirage, the driver's license will be downgraded one step and re-qualification will be required.

III. PRE-RACE ACTIVITIES

A. Course, Preparation, Facilities, & Areas Set-up

The course areas are maintained over the year on non-meet weekends through a Course Preparation process which requires the supporting clubs to accomplish various tasks.

The penalty for S.C.T.A. member clubs non-fulfillment of their assigned duty is as follows: Forfeiture of Club Points for meet in which the infraction occurred and loss of first round run privileges for the following meet.

The racecourse is laid out as a club duty and is generally completed by 10 to 11 a.m. The course set-up and equipment installations are the responsibilities and duties of the S.C.T.A. club members. (Appendix to these procedures) The penalty for S.C.T.A. member clubs non-fulfillment of their assigned set-up and tear-down duties (Patrol duties excluded in this section) will be a fine of \$100 (one hundred dollars) levied against the club responsible.

Course length at El Mirage shall be 1.3 miles with a 1-mile + 600-ft. shut-down area.

Various facilities, such as the announcer's stand, sales trailer, etc., are usually set up after the starting line and course are established, and the various clubs' duties are completed.

Owners, drivers and crews will set up the pit, inspection and impound areas.

B. Rookie Orientation

Orientation will take place at the following times:

- May – 4 p.m. Friday and 4 p.m. Saturday.
- June – Oct – 4 p.m. Saturday.
- Nov – 3 p.m. Friday and 3 p.m. Saturday.

Rookie Orientation WILL NOT be conducted for individuals at any other time.

This orientation will familiarize you with proper racecourse procedures, including emergency measures.

C. Course Walk

Course Walk occurs at 5 p.m. on pre-race day (November is 4 pm). Unless otherwise specified, coordinating the Course Walk will be the responsibility of an S.C.T.A. Board Member. Club participation is MANDATORY and will be monitored. Course Walk assignments will require designated clubs starting at each end of the course and finishing at the midpoint for a sign-in/participation tally. Each club shall provide members equal to their number of Club Reps. Assignments are contained in the Club Duty Assignment Appendix (A). Failure to provide the required number of people will result in a fine of \$100 (one hundred dollars) levied against the responsible Club payable to the S.C.T.A.-B.N.I. Mike Waters Memorial Scholarship Fund.

IV. VEHICLE INSPECTION

A. *Inspection Station and Impound Area*

The inspection and impound area will be set up in the pit area and defined by signs and balloons.

B. *Inspection Days/Hours & Procedures & Forms*

Inspection Forms

The Chief Inspector for Cars and the Chief Inspector for Motorcycles are individually responsible for reviewing the Board-approved rule changes, and proposing appropriate modifications to the respective inspection forms. The S.C.T.A. Rules/Records Book will then notify the S.C.T.A./B.N.I. office early enough to make the necessary changes and have sufficient forms printed before the May meet. Chief Inspectors should propose the quantities to print. In the past the norm has been 1000 Car inspection forms and 500 Motorcycle inspection forms, all with the current revision date on the form. When form revisions are contemplated by the Chief Inspectors, they are advised to consider the whole inspection process/system. The form not only serves the inspection process, but also is used by registration staff, announcing staff, data entry personnel, etc. Before changing the form the reviewer should consult with the senior board to understand why any particular feature of the form was placed there in the original instance.

New Vehicles/Drivers

A special line will be set up by the inspection team for the inspection of new race vehicles and new drivers of existing vehicles in order to expedite inspection processes.

Drivers/Riders

Drivers and riders of competition vehicles must be present when their respective vehicles are submitted for inspection in accordance with S.C.T.A. Rules/Records Book Section 1. A.

Saturday

Inspection hours will be 12 noon to 5 p.m. - if there are cars in line to be inspected. Then inspection will close for rookie orientation/course walk, and will not re-open.

Sunday

Inspection hours will be 7 a.m. to 10 a.m. Inspection will not re-open. All vehicles in line by 7:15 a.m. – on Sunday shall be inspected.

No new vehicles of any kind will be inspected on Sunday. No vehicles that run in the first twenty-five (25) will be inspected on Sunday.

In the event a vehicle fails to pass initial inspection, all corrections must be made, approved, the vehicle re-inspected, and the corrections logged in the V.L.B. prior to registration.

C. *Sealing Your Vehicle*

It is strongly recommended that the interior of vehicles, e.g., firewalls, floor tunnels, etc., be sealed against dust. NOTE: this is a very real concern and the inspectors will assist you in any way they can.

D. *Wheels:*

The use of non-pneumatic wheels/tire combinations (e.g., aluminum, composite, etc.) requires a variance and review by the Technical Committee and Board approval before use. These wheels must demonstrate through a review process that they do not adversely affect the race surface. Vehicle structure must be inspected after three runs. Future use of these wheels may be disallowed at any time if they are deemed detrimental to the racing surface.

V. VEHICLE REGISTRATION

A. *Post-Inspection*

Once a race vehicle has completed inspection, with Inspection Form & Vehicle Log Book properly signed off, the vehicle may then be registered at the Registration Trailer located in the inspection area. Line-up/starting position cards, showing race vehicle number, and line-up/start position will be issued at the Registration Trailer. The competitor is required to tape the line-up card in the front window, passenger side of the push vehicle.

B. *Post-Race Inspection*

Refer to S.C.T.A. Rules/Records Book & Section VII: K for post-record-run impound and inspection procedures.

C. *Registered Vehicles - Number of Classes per Meet*

No vehicle(s) shall be allowed to compete in more than one class at any one meet and no engine or chassis will be allowed to run under more than one entry or more than one class at any one meet. there is one exception: In the case that a vehicle that has completed a seeming record run, and has unintentionally failed record certification due to being entered in the wrong class, that same vehicle may be un-entered and re-entered to run again at the same meet.

The process is accomplished by

- Re-registering using another number
- Paying another entry fee
- Using exactly the same physical vehicle and engine
- Complete standard class change re-inspection
- Notifying and obtaining approval from the Race Director

All data for the previous run will be voided, e.g., no points, records, etc.

This situation will result in the vehicle's performance in that event not being eligible for the points championship (different entry number).

D. *Warm Up Area / Engine Warm Up*

Due to insurance considerations, a warm-up area will no longer be available. For the purpose of engine warm-up ONLY, a vehicle may be push/bump started – But cannot be driven under its own power.. A driver shall be in the vehicle any time the engine is running, and a rider shall be in control of their vehicle anytime the engine is running. Violation of any of the procedures in this section (Section D) will result in the individual loss of points for the meet in which the infraction occurred.

VI. RACE DAY ACTIVITIES

A. *Drivers Meeting*

The Drivers Meeting is to be held at the starting line prior to the commencement of race activities. Driver attendance is MANDATORY.

B. *Meet Starting Time*

Generally the Drivers Meeting will be held no earlier than 7:15 a.m. (conditions permitting) at the Starting Line/Announcers Stand. A separate Patrol personnel meeting will be held prior to the Drivers Meeting at 7 a.m. at the starting line. Time trials are scheduled to begin no earlier than 7:30 a.m. (conditions permitting) provided club duties are completed and patrols are in position. Club duties and patrol rosters are included in these procedures as Appendix A.

C. Race-Day Patrol Duties

All club patrols (including persons scheduled for afternoon duty) must meet prior to the Drivers Meeting at 7 a.m. at the Starting Line. Failure to sign in by 7 a.m. and be at your assigned patrol location at least 15 minutes prior to the running of the first vehicle or when the Chief Timer takes roll call will result in the following procedure:

- 1st Offense: Forfeiture of Club Points for the meet in which the infraction occurred.
- 2nd Offense: Forfeiture of Club Points for the meet in which the infraction occurred and loss of first round privileges for the following meet.
- 3rd Offense: Refer to Contest Board for action.

All patrols are required to have the following equipment:

- Working CB Radio (No Handheld Models are allowed)
- Gloves
- Fire Extinguisher- Dry Chemical or Co2
- Dzus Tool or Screwdriver
- Patrol Signs

VII. RACE PROCEDURES

A. Line-Up/Starting Position Procedure

1. Starting Position and Number Assignment – First Meet of the Season

Starting positions at the first El Mirage meet will be the same as competitor's previous year El Mirage points standings. A list will be posted at registration.

All competitors without previous year points standing will be assigned starting position numbers in the order of their registration, but behind all the previous year's entrants.

2. Starting Positions and Number Assignment – After First Meet

The points accrued at the first meet of the season determine starting positions for the next meet. Accumulated points will determine subsequent starting positions. If any entrants are tied in the points standing, the fastest entrant from the previous meet will run first.

3. Line Stewards

To assist the line steward and orderly line-up by participants, all race vehicles shall indicate their start position number either on the race vehicle or push vehicle windshield. Entrants are required to tape their line-up/starting position card in the front window, passenger side, of their push vehicle.

4. Position and Placement Disputes

All such disputes will be resolved as they occur by the Starting Line Stewards.

B. Starting Lanes Description and Assignment

Four lanes will be used for race vehicle starting line-up, with the lanes numbered from left to right, looking down the course.

1. Lane One (from Left)

For entrants that have previously run over 200 MPH. in the class at El Mirage for which they are currently competing and the record in that class, or established minimum, is over 200 MPH. Also, each driver must possess at least a current class 'A' license.

- All new 200+ MPH vehicles must qualify for the 200 MPH Lane, as defined in this section.

- Prior to the first run of the day from Lane One, starting positions in Lane One are based on points standings. After the first vehicle has run from any lane, 200 MPH vehicles not already staged in Lane One will be entitled to use Lane One only on a first-come basis. The same procedure will apply to all subsequent rounds.
- Entrant qualified to use the 200 MPH Lane shall restage for any additional run(s) only after ALL race vehicles have made one run.
- If a previously qualified 200 MPH Lane vehicle subsequently changes class, entrant must re-qualify race vehicle in Lane 2 or Lane 3 at over 200 MPH.
- Changing starting lanes is NOT allowed. A 200 MPH Lane qualified vehicle may run in any starting lane the entrant chooses, BUT must run in the same lane the entire meet. Jumping between the Lanes 1, 2, and 3 lanes to gain advantage will not be permitted.
- Entrants running from the 200 MPH Lane when not qualified are not eligible for records or points.

2. Lane Two

Odd-numbered entrants with starting position (e.g., 1,3,5,7, etc.)

3. Lane Three

Even-numbered entrants with starting position (e.g., 2,4,6,8, etc.)

Note – Line Stewards may vary odd-even sequence to keep lines even.

4. Lane Four

Initial run(s) of Rookie Drivers/Riders obtaining the S.C.T.A. competition licenses ONLY. No records may be set from the rookie lane. Only DRIVERS/RIDERS are Rookies. There are no “Rookie Vehicles”.

C. Staging – First Group

Entrants numbered 1 through 25 will line up in their designated lanes (see above).

NOTE – No vehicle may be pushed/bump-started in the staging or pre-staging areas.

1. Pre-Staging Next Starting Group

When of approximately 15 total vehicles, entrants 26 through 50 will be called from pre-stage into the starting lanes. The same procedure will be followed for all other entry groups, i.e., 51-75, 76-100, etc.

2. Pre-Staging Operations and Assignments

If your entry isn't pre-staged in the correct number order in your group, you may run at the back of your number group. If a later sequence group has finished pre-staging and is starting to move ahead into the staging lanes, you will stage at the end of that group. You may trade your starting positions in your number group.

3. Running Order after a Halted Meet is Re-Started

When a meet is halted for any period of time, for any reason, whether to move the course, or to deal with an incident, or for weather reasons, the following shall apply: Upon resumption of racing, the meet will restart in the exact running order where it was left off. All lanes will be open and running in their regular manner. Furthermore, during a multi-day race meet, when racing is concluded at the end of the first day, it shall be resumed the following day according to the above rule.

D. Ready Requirements in Line

Be suited up, in your race vehicle and ready to run when you are three vehicles back from the Starting Line. If you are not ready to run when your vehicle is AT the Starting Line, please allow those behind you to run until you are ready to run. **DO NOT hold up the line.**

E. Warm-Up Loop Requirements

If you want to make a warm-up loop, the starter must authorize you to do so. When you return to the starting line and have come to a complete stop, heading down course, and are prepared to make your official run wait for starter authorization. Note – This procedure is discouraged due to its excessive time consumption.

F. Operation of Push Vehicles

As soon as a race vehicle starts, the push vehicle should **IMMEDIATELY** move to the **LEFT OF THE RACE COURSE**, and proceed toward the finish area in front of the patrol cones, maintaining the required 15 MPH speed limit. **PLEASE COOPERATE – FOR SAFETY AND DUST CONTROL.**

1. Use of Designated Return Road

ANY vehicle registered in competition is considered a Race Vehicle for the duration of the meet; ALL Race Vehicles **MUST** be towed, pushed, or trailered back to the pit area using the designated return road in front of the patrol cones. The speed limit on the return road is 15 MPH and will be strictly enforced.

NO RACE VEHICLE ENTERED IN COMPETITION MAY RETURN TO THE PIT AREA UNDER ITS OWN POWER!!!

Note: Riding in the back of an open pickup is prohibited except for official S.C.T.A. sanctioned work projects.

2. Stay Off the Course

For each entry, only a single support vehicle/push truck is allowed to go past the patrol cones onto the “course area return lane” after the run for vehicle retrieval. Excessive “support” vehicles driving directly to race vehicles on the course after the run (mostly family and friends) often obstruct the entrant return path and also the visibility and access for on-station patrols. “Greeters” can park at the cone line and walk over to race vehicles.

3. Operating a Push Vehicle

When operating a push vehicle, it is **MANDATORY** to have a working C.B. radio in communication with the tower and a fire extinguisher (either dry chemical or CO2) in the vehicle while proceeding toward the finish area or returning to the pit area. This is considered a safety requirement. A violation of this requirement will result in individual loss of points for the meet in which the infraction occurred.

G. Parachute Requirements

An approved parachute is required on all vehicles that run on a 160 MPH record or minimum. If a vehicle is equipped with a parachute, the Safety Committee requires its use. The pilot parachute shall be deployed as the vehicle enters the timing lights.

H. Shut-Down Requirements After a Run

All drivers **MUST** be off the power immediately after passing through the timing lights. Balloons and multiple cones indicate the end of the powered course. Drivers who stay under power past the timing lights are subject to having their timing slip withheld at the discretion of the Chief Timer.

1. Shut-Down Area

Due to the condition of the dry lakebed and the uncontrolled nature of the area in and around the official race course, it is highly advised to turn off and stop race vehicles as soon as possible.

2. **Out-of-Bounds Penalties**

All disciplinary action will be at the discretion of the full S.C.T.A. Board based on an investigation of the incident as specified on Page 16 of the El Mirage Procedures.

OUT-OF-BOUNDS PENALTIES - Any driver/rider whose race vehicle goes "Out-of-Bounds" either past the cone marked "End" or out of the cone marked "Side" of the course, will be subject to the following penalties:

No points for the pass.

No record for the pass.

As a result of incident investigation the full S.C.T.A. Board may impose any or all of the following penalties:

- Downgrade one level of license or more, example: "A" license to "B" license, etc.
- Repeat Rookie Orientation.
- Suspension of meets per Board direction.

I. Emergency Turn-Out

In the event of motor failure (e.g., parts on the course) or the need for emergency assistance, turn off the course to the *right*. If you have a normal run with no problems, turn off to the left.

J. Abort Run

If, for any reason, your vehicle is NOT performing as anticipated, please abort the run and turn off the course. Do not waste valuable course time.

K. Impound and Certification

Record Qualification

The driver of a properly classified vehicle exceeding the existing record must proceed directly to the impound area (inspection) within 30 minutes and submit the vehicle for certification. Record minimums are set at what should be the performance potential of the class and are subject to annual Contest Board review.

Record Certification

Upon completion of a record-qualifying run, the vehicle will be inspected for engine displacement, body class, and fuel certification (if the vehicle competed in a Gas Class). The test procedure for gasoline is described in the S.C.T.A. Rules/Records Book (Rule 2.B). The gasoline test, if applicable, must be completed when the vehicle is in the impound area for record certification. The vehicle's engine must be measured or sealed by a member of the Contest Board prior to the end of the meet. If sealed, the engine must be disassembled, measured and verified within 30 days. An engine presented for record certification may not be removed from the chassis prior to measurement unless done in the presence of a certifying official. Failure to comply with these procedures will result in forfeiture of the record. Completed certification sheets must be received before the next scheduled Lakes meet, or within 30 days after the last meet of the year.

Mail to: (Mike Kaehny: 22633 Decoro Dr., Saugus, Ca. 91350 (661) 714-3109.

L. Pre-Measured and Sealed Engines

Pre-measured and sealed engines shall be accepted if the seal is intact and the appropriate entries are within the vehicle Log Book. Should the certification officer consider a seal to be altered or damaged, he may request the Race Director authorize a re-measurement of the engine.

M. Speed Limits

Due to safety requirements, all S.C.T.A. participants and their respective crew members are required to abide by the speed limits indicated in the introduction section of these procedures. Violation of any of these speed limits will result in the individual loss of points for the meet in which the infraction occurred.

N. Race-Day Weather and Course Conditions

A Board Member must be present to approve any decisions in regards to the El Mirage lakebed. This would include but not be limited to:

- Calling a Race Meet Due to Weather Conditions
- All BLM Communication
- Course Position and Placement
- Course Surveys

VIII. RACING POINTS DEFINITION

A. *Meet Points*

1. **Two-Day Meets**

Unless otherwise provided by the S.C.T.A. Board of Directors, a two-day meet, e.g., May and November, at El Mirage shall be considered a single-day event. All vehicles may compete in only one class.

2. **Calculation of Meet Points**

Meet points shall be determined as follows:

- a) **Highest Speed(s)**
Each entrant's highest speed (in the event of multiple runs) and shall be divided by the current SCTA record or minimum speed set by S.C.T.A. in the entrant's class, then multiplied by two hundred (200), thereby determining the total number of points earned for that meet.
- b) **Bonus Points**
When an entrant breaks an existing record, or an established minimum record, the entry receives 200 points plus twenty-five (25) bonus points, plus one (1) point for each whole mile per hour over an existing record or record minimum.
- c) **Record Runs**
In the event that two or more same-class entrants at a meet exceed an existing record or an established minimum record, the entrant who has achieved the highest speed at the conclusion of a meet shall receive the bonus points specified in subsection 2b, above. All other entrants breaking the same record or exceeding the established minimum record shall receive a maximum of 200 points. Each run that exceeds the current record or minimum must be followed by timely completion of the certification process (See Section VII) or all the points "for that run" are forfeited. For example: If an entrant were to qualify for record and not go to impound for that run, then they forfeit the points for that run. If they run again and exceed the record/minimum and go to impound then they get the points "for that second run". If they don't go into impound for either run that was over the record/minimum, then no points will be awarded.
- d) **Recognition Points**
All entrants who fail to cross the finish line after push-off shall be awarded twenty-five (25) points.

3. **Points Will Be Awarded ONLY After All Entrants Have Run**

No points will be awarded to any entrant until ALL entrants in line (See Section VII-A, "Line-Up/Starting Position" Procedure) have had an opportunity to make one official run. However, if a meet is cancelled before all entrants have had the opportunity to make their first run, any records set prior to the cancellation of the meet and certified by impound will be officially recognized, ~~but no points will be awarded~~ **all race vehicles registered at the event, (see section II-D Registered Race Vehicles) at the time of cancellation, will be awarded 25 recognition points. No other points will be awarded.** If an entrant has set a record, completed impound and the meet is cancelled, the record may be denied by notifying the certification officer within 24 hours of the event cancellation.

B. Team Points

1. Calculation

Points earned by a team, e.g., two or more individuals, will be calculated and awarded to the team and not divided between or awarded to any one individual. Owners and Vehicle numbers of the team's entries must remain the same during a season in order for such teams to accumulate points toward the team's season total.

2. Club Membership Change

In case of inter-club transfer of a member, club points will remain with the club to which the member belonged at the time the points were earned.

3. Vehicle Ownership Change

In the event that all or any portion of the ownership of a team- owned vehicle is transferred to a new owner(s), neither the vehicle's accrued points nor starting position can be transferred.

C. High Points Champion

1. Points Accumulation for Starting Position

Any entry can accumulate points toward starting line position throughout the year by using the same entry number regardless of the class in which the vehicle competes.

2. Points Accumulation for High Points Champion

Points accumulation during the season can only be combined toward the Season High Points Champion if the entry competes in the same vehicle, with the same competition number, with the same owner(s), and within the same body / frame classification for the entire season. Entry form and V.L.B. data reflecting ownership, vehicle number, V.L.B. number, and vehicle body/frame classification must be identical throughout the season. Engine class, fuel used, and induction changes (i.e., blown or unblown) are ~~not~~ allowed. Vehicles that race in two or more body/frame classifications, multiple engine displacements or induction changes, during a season may continue to use accumulated points for starting line position but may NOT combine the points earned in the separate body / frame classifications toward Season High Points Champion.

3. High Points Championship Award

Lifetime Memberships are awarded to the number one automobile and the number one motorcycle points champions each year. The automotive champion and the motorcycle points champion will both receive life memberships for 2 persons. To qualify for number one championship and the life membership, a competitor must be a member in good standing of the S.C.T.A., compete in the same body or frame class during the current season and use the same entry name and number. Each competitor's name must appear on every entry form as entry name, owner or driver throughout the racing season.

D. Club Points

1. General

Year-end total club points determine the S.C.T.A. "club points" championship.

2. Calculation of Club Points

The combined points of a given club's top three (3) entrants at each meet, regardless of the total number of a club's entrants at such meet, shall be totaled to determine each club's points for that meet. Total club points for any club which has less than three (3) entrants at a meet, are determined by adding the points of all such entrants. A race vehicle may only accumulate club points for one club during the racing season which will be designated by the first entry of said vehicle during the racing year.

IX. AWARDS

Trophies are not awarded at all S.C.T.A.-B.N.I. events. If it is determined by the S.C.T.A. Contest Board to give awards, they will be given to participants based on their points, participation or accomplishments as described herein and Section VIII of this procedure. Multiple awards shall be combined on a single award at the highest point of receipt, e.g., a record trophy may list 3% award, 1st place and/or participation. Additional awards may be purchased at a price set by the S.C.T.A. Treasurer. Awards for the season will be given under the following criteria:

A. *Top Speed*

A trophy will be awarded to the overall fastest car and motorcycle of each meet. A perpetual trophy will be awarded to the overall fastest car and motorcycle of the season. The winners of the perpetual trophies will also receive a trophy for keeping.

B. *Records*

A record trophy will be awarded for all new records set during the racing season.

~~C. *Performance*~~

~~Performance Recognition Plaques will be awarded as follows:~~

- ~~• Three Percent, to entrants whose speed is within three percent (3%) of the class record at the end of a meet.~~

C. *Timing tags*

An S.C.T.A. timing tag showing the fastest qualifying speed will be sent to all entries. Record-setting entries will receive a record timing tag showing the record speed.

X. POST-MEET PROCEDURES, MISC.

A. *Course Tear-Down*

All S.C.T.A. members are encouraged to participate in the teardown process, including cone retrieval, inspection areas, equipment stowage, etc.

B. *Entry Fee Refund*

No refund of the entry fee will be given to any entrant after commencement of an "official meet".

C. *Infraction Investigations*

All infractions of S.C.T.A. rules or procedures will be investigated by the Sergeant at Arms with assistance from S.C.T.A. members as required. The investigation and conclusion will be completed within a mandatory three-week period from the date of the infraction or prior to the next Board meeting. In the case of repeat infractions, the penalty period will begin at the time of the first infraction and run for 12 months.

!!! PLEASE, HELP CLEAN-UP !!!

The BLM allows us to race at El Mirage because we are responsible people who respect the lakebed. It is imperative that each and every one of us polices our campsites and the surrounding areas if we are to continue with our chosen endeavor.

APPENDIX A. SCTA CLUB DUTY ASSIGNMENTS – 2018

Saturday	Tow return side cone trailer out from S.C.T.A. Compound	Eliminators
Sat./Sun.	Pre-race Return side – To be done before 7 am Sunday	Eliminators
	1. Set out spectator/picket lines	
	2. Set out inside return road cones	
	3. Set out cones to mark push truck return road center	
	4. Set out ¼ mile catchment area cones beyond backdoor	
Saturday	Timing Trailer – tow out from the S.C.T.A. compound	Gear Grinders
Sat./Sun.	Pre-race - Timing trap – set-up	Gear Grinders
Sunday	During race - Staging line marshal – provide personnel	Gear Grinders
Sunday	During race – Timing stand personnel – Chief Timer	Gear Grinders
Sunday	Post-race – Timing trailer – return to storage	Gear Grinders
Sunday	Post race – Timing traps – dissemble and put in storage	Gear Grinders
Sunday	Post-race – Spectator barrier, staging area cones, pit boundary markers – take down, load on fence trailer	Gold Coast
Sunday	Post-race – Pick up and store pit boundary posts in starting area on fence trailer	Gold Coast
Sunday	Post-race – Return loaded fence trailer to S.C.T.A. storage building	Gold Coast
Sat./Sun.	Pre-race – Provide fuel for generators (store in registration trailer)	High Desert Racers
Saturday	Announcer’s trailer – tow out from S.C.T.A. compound and position	L.S.R.
Saturday	Equipment trailer – tow out from S.C.T.A. compound by 10 am	L.S.R.
Saturday	Sales Trailer – tow out from S.C.T.A. compound	L.S.R.
Saturday	Signs – pit area speed limit – set out	L.S.R.
Sunday	Post race – Pick up and return signs – pit speed limit and return to equipment trailer	L.S.R.
Sat./Sun.	Pre race – Tower side cone trailer – tow out from S.C.T.A. compound	Milers
Sat./Sun.	Pre-race Tower side – To be done before 7 am Sunday	Milers
	1. Set out spectator/picket lines	
	2. Set out end of course cones	
	3. Finish line cones and banner	
	4. Set out ¼-mile catchment area cones beyond backdoor	
Sunday	During race – Starting line marshal – armband check	Milers
Sunday	Post-race Tower side – from starting line to back door	Milers
	1. Pick up and store spectator/picket lines cones	
	2. Pick up and store end of course cones	
	3. Pick up and store finish line cones and banner	
	4. Pick up and store ¼-mile catchment area cones beyond backdoor	
Sunday	Post-race – Return the Tower side cone and banner trailer to the S.C.T.A. compound	Milers
Sunday	Post-race Return side – Pick up and store all spectator/picket lines	Road Runners
	1. Pick up and store all inside return road cones	
	2. Pick up and store all cones to mark push truck return road	
	3. Pick up and store all ¼-mile catchment area cones beyond backdoor	
	4. Pick up and store end line banner on the return roadside of the course.	
Sunday	Post-race – Return the return side cones and banner trailer to the S.C.T.A. compound.	Road Runners
Sunday	Registration Trailer – return to storage	Chief Car Inspector unless otherwise assigned
Sunday	Pre-Race – Sweep course	Rod Riders

Saturday	Race Course – locate, measure and mark	Rod Riders
Saturday	End-of-track banners – set out timing traps before 7 am Sunday	Rod Riders
Sunday	Staff and operate the Emergency Response Trailer	S.C.T.A. Board Assigned Duty
Saturday	Patrol Cones -set out to mark patrol positions before 7 am Sunday	Rod Riders
Saturday	Area for announcer’s stand, sales trailer and concession – mark area	S.D.R.C.
Saturday	Area for spectator’s viewing and warm-up look – mark area	S.D.R.C.
Saturday	Fence trailer – tow out from S.C.T.A. compound	S.D.R.C.
Saturday	Spectator Barrier – set up both sides at starting line	S.D.R.C.
Saturday	Starting line area – staging lines – set up 5 cone lines	S.D.R.C.
Saturday	Set out boundary posts in starting area	S.D.R.C.
Saturday	During race – starting line personnel – Chief Starter	S.D.R.C.
Sat / Sun	Pre-race – Balloons – put down before 7 am Sunday	Sidewinders
Sat / Sun	Pre-race – Public address system – set up before 7 am Sunday	Sidewinders
Sunday	During race- Timing slip distribution (hand out)	Sidewinders
Sunday	Post-race – Announcer’s stand tear down and return to storage	Sidewinders
Sunday	Post-race – Balloons/weights – pick up after race and return to storage	Milers - RH Road Runners – LH
Sat./Sun.	Rookie Orientation - Provide primary and alternate personnel	Super Fours
Day Prior to Racing	Registration – Provide personnel	Super Fours
Saturday	Registration trailer – tow out from S.C.T.A. compound	Super Fours
Saturday	Signs for speed limit and safety – set out	Super Fours
Sunday	Post race – Signs/speed limit and safety – pick up and return to equipment trailer	Super Fours
Sat/Sun	Provide alternate Certification Officer	Super Fours

APPENDIX B. PATROL POSITION AND COURSE WALK ASSIGNMENTS

PATROL		PATROL		COURSE WALK - 2018
