SELLING PRECIOUS METALS TO MARKET HARMONY LLC

We make it easy to sell to us. Market Harmony will buy all types of precious metal items to be recycled, repurposed, or resold. We serve all types of clients submitting items containing precious metal. Clients can come to our store or send items to us through any secure carrier service. Open Spot Market prices are used to determine value for all lots, and a scientific analysis of the recovered metal is used to determine the final payout for a refining lot. The following payouts apply to individuals. Please contact us to discuss business rates especially created for clients whose primary activity includes the regular processing of precious metals.

Refining Lot Description	Market Harmony Payout
