- Florence
- Raleigh

Gregory Electric is growing and looking for energetic people to join our team!

## AN APPRENTICESHIP WITH GREGORY AWAITS YOU

We have partnered with your school and Apprenticeship Carolina to design a program where you receive work experience and job related education in all phases of electrical construction, including safe work practices, necessary to develop the skill and proficiency of a skilled professional.

This program will allow you to be paid for your efforts, while building hands on skills to advance in your trade. All while receiving credits toward graduation.

After graduation, you can come to work full-time with Gregory Electric at above average wages and continue your apprenticeship training through our in-house Federally Recognized apprenticeship training program.

Interested? Ask your teacher or guidance counselor for an application packet.

## ADVANCEMENT

Gregory Electric has a clear progression path. As you improve your skills you can expect to advance your job classification and compensation. A typical apprenticeship progression might look like this:

- 1<sup>st</sup> Year Beginning Helper (Helper I)
- 2<sup>nd</sup> Year Helper (Helper I)
- 3<sup>rd</sup> Year Top Helper (Helper II)
- 4<sup>th</sup> Year Electrician (Electrician I)

After demonstrating competencies in all levels of the apprenticeship program, you can continue to advance your career to Lead Electrician, Foreman/Project Electrician, Superintendent or Project Manager.

You can expect your wages to increase by approximately 10% each step of the way.

Gregory Electric also offers eligible employees a very attractive benefits program including free health insurance, dental, vision, and life insurance, 401K, profit sharing, and paid vacation and holidays.

Please work hard and keep your background clean. Avoid traffic violations and obey the law.

The choices you make today will follow you for the rest of your life.
