Without drugs, we have gained a new perspective and are more aware of the power of our minds to change our lives. We no longer rely on substances to numb our pain or express our emotions. We have learned to live without them and are now more aware of the beauty and richness that life can offer.

Addiction is a disease of the mind and body. It is a disease that affects all areas of our lives. Addiction is not just about drugs or alcohol, but about how we think, feel, and act. It is a disease that requires treatment and support, just like any other illness.

We need to be aware of the signs of addiction and seek help when necessary. Addiction can be a difficult and complex disease, but with the right support and resources, we can overcome it and live fulfilling lives.

May we also remind you that this is an ANONYMOUS program and your anonymity will be held in the strictest of confidence.
