

Monhegan Plantation February 10, 2015 5:30 pm Assessor's Meeting Minutes

Tara Hire, Lucas Chioffi, Matt Weber, Stew Way, Kole Lord, and Jes Stevens in attendance

Warrant #02-2015 for \$6719.34 was signed and approved

Town Truck:

After looking for a used truck to fit the needs of the town for the past two years without success, it was decided to buy a new truck. Kole Lord received two quotes, one from Wiscasset Ford and one from Fuller. Wiscasset Ford quote was lower so it was decided to move forward to purchase this vehicle. It was discussed that a bedliner, back rack and plow lights should be added to the original quote.

In the future regular maintenance should be reflected in the Roads budget for the town truck.

Breakwater:

Jes reported that the public comment period for the submerged land lease has been posted. It will stay up from 2/10-2/23/2015. Obtaining the permit is the next step in the project.

Muskrats:

Butch Tripp was in touch to plan a spring trapping exhibition. The assessors chose to put the trapping off for a year due to low rates of sightings of muskrats.

Revaluation:

No action needed to be taken at this time.

Flood Maps:

FEMA has finalized flood maps. The assessors need to look into accepting mandatory regulations.

Snow Blower:

Due to the increased amounts of snow and drifting especially on Lighthouse hill and Horn's Hill, Matt Weber recommended renting or buying a snow blower. The snow blower will aid in widening the roads, and making room for snow when plowing.

Matt Weber voiced the concern as MPPD president that fuel may not be able to get to the generator shed because of the snow.

Discussion ensued and it was decided that the preference was for renting but that the need was great enough that a snow blower should be purchased if necessary.

Adjourned 6:30 pm

Respectfully Submitted,

Tara Hire, First Assessor
