BALANCE &
ENERGY BODY
OIL

BALANCE & ENERGY BODY OIL is a balanced blend of natural oils and smooth esters providing not only an intense skin nourishment, but also improving the integrity of the skin barrier with its unique content of components similar to skin lipids.

From Indena, it contains:

CURBILENE®: unique oil extracted from the seeds of *Cucurbita pepo*, in this formulation provides a re-epidification of the skin barrier. Although it is an oily substance, it provides an immediately visible matting effect on the skin. It exerts a sebo-regulation activity, and would also be suitable for oily and greasy skin treatments and make up.

OMEGABLUE®: unique oil obtained from the seeds of *Vaccinium myrtillus*, rich in polyunsaturated fatty acids, has important lenitive properties on challenged skin. It has remarkable emollient properties and fits nicely in the natural lipidic fraction of this relipidifying body oil.

XIMILENE®: vasoactive on capillaries, in the body oil formulation promotes blood flow improving skin wellness and tone.

GINGER OIL: purified CO₂ extract from *Zigimber officinalis*, this natural oil contains sensorial ingredients as gingerols and shogaols shown to provide a unique sensoriality on skin. Its lipidic nature makes it an ideal part of the lipids blend for body care applications.
