## BALLOT-ON-DEMAND CART

### **BALLOT-ON-DEMAND STORAGE and DEPLOYMENT SOLUTION**

#### **Quality, Convenience & Ease of Use — With ReadyVote It's All Here!**

Unique is a benchmark of ReadyVote. Patent pending. BOD printer and associated precinct supplies can be fully deployed in minutes!

Quality, convenience, and ease of use of the BOD cart are other benchmarks of all ReadyVote products. The powder coated steel frame and sturdy casters, coupled with a revolutionary folding system, eliminates the need for any poll site assembly.

#### **Ease of Use - Sturdy Construction & Maintenance Free**

The BOD cart saves time and energy. It provides convenience for the poll worker as well as warehouse personnel. The flow from the warehouse to poll site, use at the poll site and return becomes seamless.

The ReadyVote BOD cart is designed to move without effort on six inch casters; the wheels are easily locked while in use. Accessibility is maintained by the unique design of the carriage assembly that supports and protects the BOD printer.

#### **Only the Best from ReadyVote!**

With all the differences between the manufacturers of election equipment storage and deployment systems, it takes a leader in the industry to have the foresight to adapt their products for the wide variety of current and future equipment in the industry. The decision to store, protect and deploy your valuable election equipment safely and efficiently becomes
