

You're a 19 year old kid from rural Georgia in the 1st Cav Division. You are critically wounded and dying in the jungle somewhere in the Central Highlands of Vietnam. It's November 11, 1967 at LZ (landing zone) X-ray.

Your unit is outnumbered 8-1 and the enemy fire is so intense from 100 yards away, that your CO (commanding officer) has ordered the Medevac helicopters to stop coming in.

You're lying there, listening to the enemy machine guns and you know you're not getting out.

Your family is half way around the world, 12,000 miles away, and you'll never see them again.

As the world starts to fade in and out, you know this is the day you are going to die.

Then - over the machine gun noise - you faintly hear the sound of a helicopter. You look up to see a Huey coming down at you. But, It doesn't seem real because no Medevac markings are on it.

Captain Ed Freeman is coming in for you.

He's not Medevac so it's not his job, but he heard the radio call and decided he's flying his Huey down into the machine gun fire anyway. Even after the Medevac choppers were ordered not to come - he's coming anyway.

And he drops it in and sits there in the machine gun fire, as they load 3 of you at a time on board.

Then he flies you up and out through the gunfire to the doctors and nurses and safety.

And, he kept coming back !! 13 more times!! Until all the wounded were out. No one knew until the mission was over that the Captain had been hit 4 times in the legs and left arm.

He took 29 of you and your buddies out that day. Most would not have made it without the Captain and his Huey.

Medal of Honor Recipient, Captain Ed Freeman, United States Air Force, died Wednesday 9-30-15 at the age of 70, in Boise , Idaho. We thank God for his Service and all those like him. Well Done, Ed! Be thou at peace.
