March 30, 2017

Jim Kerby, Chairman
Waskesiu Community Council
Box 203
Waskesiu Lake SK S0J 2Y0

Dear Mr. Kerby:

I am pleased to inform you that SaskTel has expanded LTE coverage to Waskesiu Lake. This upgrade is part of SaskTel's plans to expand our LTE wireless network to 99% of the population of Saskatchewan by April 2017.

With LTE, SaskTel customers have the freedom to watch HD movies, stream music, share pictures and videos, and play games, all at speeds that are up to 10 times faster than on 4G. In addition, the deployment of LTE province wide will lay the groundwork for future service enhancements, such as the introduction of Voice over LTE (VoLTE).

The expansion of LTE is part of SaskTel's commitment to invest over \$300 million in capital in Saskatchewan in 2016/17 and \$1.4 billion through 2016-2021.

At SaskTel, we are committed to delivering world class communication services to all our customers in urban and rural Saskatchewan.

Sincerely,

A handwritten signature in blue ink, appearing to read "Ron Styles". The signature is stylized and fluid.
