**BURNING**

After humankind discovered how to use fire. It saw this as a blessing. Wood

burning was supplemented with fossil fuel burning. The English Christians introducing the industrial age started the pollution that is leading to climate change. Fire & burning are now a threat, a curse.

**STOP BURNING, NOW !!!**

cigarettes, coal, dung, gas, oil, uranium, wood, ..

The most dangerous part of burning is, SMOKE. In fires the greatest threat to health & mortality is smoke inhalation. On a greater scale Smoke rising up into the atmosphere Stops heat escaping into Space. Surface water warms, surface land warms, ice melts: **CLIMATE CHANGE !**
