For Accounting Use Only: Vendor Number: \_\_\_\_\_

Changed to ACH \_\_\_\_\_

## What is Direct Deposit?

## What do you need to do to get started on Direct Deposit?

All you have to do is fill out the **Vendor & Client Direct Deposit form** on the back side of this brochure, and email, fax, or mail to Scott County.

Instead of creating a paper check that has to be handled by many people before it gets to your mailbox, your payment is directly deposited into your chosen bank account.

An email is then generated and sent to the email address you provide, with an attachment that outlines the detail of the payment (i.e. invoice numbers, description of service provided, dollar amounts, and total payment amount).

We will update your payment information, which may take a few days if there are questions.

You should be able to see that deposit in your bank account the next day.

## What is the process involved in getting a payment?

Direct Deposit is just what the name implies. Your payment is deposited directly into your chosen bank account. You will have the funds available to you sooner and there is no worry about lost or stolen checks.

You can choose the account you want it deposited into, either your checking or savings account. The choice is up to you.

After you send your invoice or request for payment to Scott County, the department will approve it and send the request to Accounts Payable to be paid.
