

Valves, Blocks and Flanges

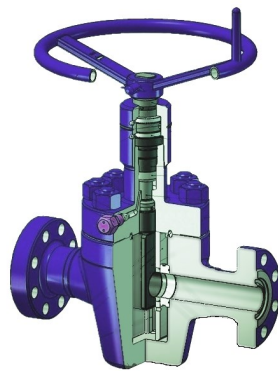

APT provides many types of valves, blocks and flanges that can be custom made for your application.

- Valves are purpose made for safety, check, choke, mud, etc. and in many configurations, ball, gate, slab gate, expanding gate, etc.
- Forged Crosses and Tees are made in many forms and sizes.
- Flanges are purpose made with weld neck, threaded, blind, weco union, etc. and many sealing types.
