

## EdgeMate Pool Chair

If poolside lifts and the ramps get you in the pool, the EdgeMate Pool Chair completes the process by providing one-of-a-kind seating rooted in both stability and comfort.

Designed and tested to hold swimmers of any size, EdgeMate means countless opportunities for enjoyment, interaction, and relaxation, all from the convenience of the pool's edge.

EdgeMate arrives fully assembled and is compatible with most in-ground pools. For use, it requires no alterations to the pool or pool deck, which means changing locations in the pool, or even the pool itself, is a breeze. EdgeMate Pool Chair folds flat for easy transport and storage.
