Good Cop/Bad Cop

Mental Health, Law Enforcement and Slavery in America

This original cover to the book resulted from Troy NY Police Department’s cop Mark Malloy’s abuse of me as a poor man, and it was a prophecy to George Floyd’s murder by a cop.
What Is A Classic Police Forensic?

Based on inference, this is when one or more cops and/or community members target an individual in a precinct (who may live there—often new to the area or one who may pass through on a regular basis) with drama psychology to aggravate him based on what they know about his personality. This aggravation is intended to get a response that would incriminate him. This often works on a person with a personality defect or with a criminal mind. If you are aware of a forensic being performed on you, it rarely will work, especially when you are not a criminal. But in some cases if the response is violent or harassing, it can get you arrested. Forensics are used to capture criminals, but they can be *misused.*
Is the American Mental Health System a billion-dollar industry that is causing slavery among America's lower classes as it get abused by inner city police officers? What is New York State Assisted Outpatient Treatment is and how does it violate the American Constitution and force corrupt medical treatment on the poor? Is it one of the many measures being taken by government to create a master-clave society? What are the dangers of a 9.45 and a 9.60 pick up order and how do police officers have the potential to misuse them to establish pornography, prostitutes and whores to serve sexually-perverted magistrates in a kingdom? Learn from a veteran consumer how the mental health system may be contributing to a master-slave society of the rich ruling over the poor and the decision the middle class will be compelled to make.

This book is based in the theories of a group of people, and these crime inferences are currently being proven. The identity of its advocates will be forcibly protected by high established law enforcement. It will be developed online and then published in e-book and paperback form. It will promoted internationally by a professional marketing group.

This book is a documentary and a scientific study in sociology and criminology as well as the civilizations of the modern world. These reports and explanations are based in theories that are currently being proven with evidence based in case studies contrary to the alleged secret files of corrupt lawyers and doctors (both physicians and psychiatrists).

This book is not intended to harass or defame police officers, especially the NYPD, who honestly risk their lives on a daily basis to fight crime and minister to the poor. Neither is it a defamation or harassment to psychiatrists who honestly follow the ethics of their office to properly administer medications and treatments for people who have demonstrated a sign of psychosis. It is, however, a study and exposure to the general public of CORRUPTION in these offices that have caused slavery and other detrimental effects to the poor of America. Some case studies and examples in this book may have been the result of a lesson that came from my community and not an actual (real) event.

This book can also be found in its pdf electronic format on theprophecyofjamesguccione.com with all operating pdf and video links (see list of pages on right of website)

This book is intended for an audience of people 21 years of age or older.

The cover design is attributed to help from Burne Hogarth's Anatomy books.
So some of us had a gene for mental illness which the disease could be treated with Lithium only, the natural mineral I thought Christ had used on the maniac of Gadera much like he used clay with the blind man. But others of us had the gene for the antipsychotic, as Bad Bob had made it with his apocathary doctors, many of which caused side effects: weight gain, uncontrollable muscle movements and possibly some cognitive defects. But many of just had a trauma, especially in Apollyon's city. that he was just using to get us on med's because of our confusion with Lucifer's romantics from Hades which had caused much abnormal behaviors in public for which the Ajax Men took us away. But some of us, with the gentle help of our communities, learned how to control ourselves and get the behavior out of us, then with the right doc he would stop all the unnecessary treatments.

Chapter 1
What Is a Police Officer?

A police department generally developed as the metropoles developed, and there were so many people in a community that it was easy to commit a crime. A face could be hid with a likeness, and organized criminals used principles of romantics and erotics on the poor to display “plays” to entertain the general public and cover up their underground criminal activity. Thus the Bad Mafias developed, especially in NYC, over the past 70-100 years and made their way to the press. Surprisingly, Bad Mafias actually became popular to the American people, and many movies and models were made out of kingpin criminal families.

The honor and definition of a police officer would become vague in the Last Days, and the younger generation, especially young adults seeking a profession from a working class family, would never really have the right understanding of an officer. That is due to his romantic of an opposite. Police officers by definition exist to keep the social environment safe from
crime, and that requires instruments of restraint and power, thus the cuffs and gun. Today the police have other weapons, such as taser, at their disposal. But what happens when a cop decides to use his instruments of restraint and power to subdue innocent people by giving them a criminal mind, using Fruedian and Pavlov psychology, of shame in the community? Can a cop actually train a ghetto boy to live a life of crime that progressively gets worse, or is it entirely the boy’s fault for keeping the wrong company? Can a cop actually traffic sex and drugs into a city and get hundreds of low-income boys and girls, men and women, hooked on prostitution and drug addiction, then scapegoat a criminal? Can crime actually exist without an evil cop? And is this kind of abuse of a cop’s office the cause of the rise of historical slavery in a civilization?

It is apparent that evil cops make a bad name for good cops and cause confusion in the social strata of Americans who vie for their time at a job and have no time to try and figure out which cops are law abiding and which are causing crime in a community. So then you understand, as it is with police officers so is it with many other professions and even vocations in modern society: a man can have an opposite. And what is worse than an opposite? An opposite who looks just like the original. Is that possible, or is that just a delusion?

Crime has become so intelligent via the internet that
it ravages our ghetto neighborhoods, turning a poor boy into a monster for filthy lucre. It pulls him away from the bind he has with his parents with an urge to rebel that is instilled in him by common media. It takes dedicated people to provide an incarceration for him that effectively gets the rebel out and replaces it with a drive to get a job and earn a decent living.

**What Is a Cop Informant?**

Many times you will see “bums” on the street and people who commonly paper to you when you travel through the city. That may not be a reality. That may be the romantic of the foot officer on that ghetto “beat” who sets up informants who supposedly set bait for drug dealers, prostitutes, etc. That’s what the cop will say about them. And, if I had to guess, they get paid for it or they get some other kind of reward. But what does an informant really do for a cop, considering our theory of evil cops? Because if the bum is lying, he ruins it for real people who wind up poor and homeless or are otherwise abused by society.

**What Is a Cop Lie?**

Sometime last year, I was robbed by a staff member
where I live. The cop lie then comes in to play here. He makes the claim using an erotic that she just wanted my money and I had to give it to her. He claims that I could never investigate the upper class orchestration for the crime. These prove that all cop lies are commonly used in the community both for the middle and especially the lower class to cover up for the upper class organization of crime. The FBI commonly spends a great amount of time investigating cop lies. It was the same thing with Sgt. Mark Malloy’s alleged lie when he never told me that it was illegal to carry the airgun and as result I was arrested and convicted for Criminal Possession of a Weapon in another county.

The issue with Susan robbing my in my apartment when she worked there is a little confusing because I had thought it was the upper class over her head that forced her to do it, but was it? The community refuses to talk to me about it, so I had to let it go. But once I have authority as a bounty hunter, I am going to require people to talk. Because, if that was done as a direct violation by the black race toward the white prophet, then I can not help you when Bad Bob makes his decision. I am the one who holds the key to that decision., It depends how I report it. I only tell the truth. You were told that if you pay the bill everything will be ok. Instead you mock me.
The Cop Female Erotic and Male Romantic
Pending

Microphones in Elitist bathrooms
I do not have any evidence to prove this at present, but it seems likely to me based on the behavior I have observed of the middle and upper classes concerning their obsession with mastering poor people as slaves that elitist bathrooms, often in restaurants, have microphones in them. A ghetto boy will go there and talk to himself in the bathroom because he is dealing with a problem in life, and they get it on record. Then the elitist boy sets out to use romantics and erotics just to abuse him with it. In some cases, the elitist may claim that he uses the microphone to help the kid, but I find that hard to believe. I would imagine also that microphones in bathrooms are illegal, but then so it necromancy.

The Shaolin Martial Ars Lesson/
The Altar For Ciro
(excerpt taken from The Prophecy of James Guccione, August 30, 2018)
And it came to pass that in the year of two thousand and eighteen, in the eighth month of the year, on the thirtieth day of the month, that the children of the Capital District of New York State cried out together with one accord saying, "Babylon is fallen, is fallen." For on that day, in the early of the morning, I supposed that the city council had demanded, using
its police force, that the Temple of Ciro, where-in was the altar that I had alleged to make to lay him on, be destroyed, and the temple came down to a pile of rubble alongside the taxi stand in Troy on my street. And the children had Sgt, Mark Malloy of the Troy Police as their police officer and John Koletas of Grace Baptist Church as their pastor, for I had tempted the cops and the pastor sore, and they came out as righteous men that day, regardless of all that Jim had said about them in the news.

But if in the dream the Lord had made the children to sing, still, I heard no singing when I awoke, and the children did not even know what Babylon was, and all I ever saw was the cop car. Because the people, said my Public Official, would put the poor in their place, that the underclasses may receive the torture and the people with the Money, as it was made in Hades by Lucifer, may have their comforts and pleasures, apart from the poor. For I had offered to give them an Altar to lay Ciro upon, and they only mocked me all the more. And I knew then that the cops would always use the ghetto boy, who was convinced by the cop's forensics in his neighborhood, to be a hero to the girls by torturing Ciro himself so he could scare all he other snuff masters from torturing the girl, but the cop then would only use that desire in the boy to learn how to become a Ciro himself and, in the end, torture the girl. Because even though the cops had convinced the middle-class and served the upper class for to keep a poor people for to take Ciro's torture, keeping themselves safe with their properties and leaving things in the ghetto to attract Ciro's savage, they could not convince me of their evil as a prophet, and
I would not agree thereto.

**What Is a Cop’s Forced Friendship?**

Many times a ghetto boy will develop anger against a cop after the cop forces a forensic on him in order to gain control over him “because he is exhibiting the behavior of a criminal”. Since a ghetto boy having a bad relationship with a cop, or even a man in a poor neighborhood also, a cop may very often force a friendship on the boy or man. Cops do not like being singles out as criminals themselves, so by “getting along with everybody” they seem to bridge that gap. Many people do not want to be friends with cops.

**Theory About Cop Serums**

A common serum that is abused by a cop, as it it is taught from father to son to raise up slaves, is *human feces*. A cop can get a ghetto boy or girl caught up in this beyond their own free will. The middle class boy learns quickly how to abuse this serum as matter of *hate* against another human being; thus you get the culture of snuff films as they are used by the middle class boy to control the minds of the poor, and moreso today with the advent of the google listings. This hate comes from Hades in Heaven as it was instituted for mankind by Lucifer.
What is the Theory of Cop Corruption

Dismantle the police department and give every qualified man in the neighborhood a gun to protect his family and property and then the crime will disappear.

A Common Cliché on Lark Street in Albany

“Cops ain’t nutin’ but criminals with badges.”

“To get to a criminal you have to go through the cops who protect him.”

How Cops Legally Harass a Poor Man to Cause Mania (Anyone Can Be Made Manic)

Because the police want to expose to the American public that hey want to retaliate against me by trying to make me manic instead of sending the lawyer to have a public debate, they have then used the Med Drama” and in the end they blame the insurance company. But the insurance company has always paid for the med before. My probation officer warns me that this can be interpreted as paranoia, which is what a cop will commonly for to you if you are involved wit the mental health system. But this is not gong not work when the cops found out that I was
actually a part of the law-abiding Guccione Mafia from Manhattan and they could not do it to me and there was no bounty for them to scare the good politicians of the American people like Thomas DiNopoli, the trusted comptroller for NYS who has maintained its programs for the poor.

**What Is a Tattoo Studio?**

Tattoo studios are used by cops to “resolve the Frueedian room of a victim of assault and cannibalism. That’s why they have satanic images. It is the service of Satan.

**What Is A Cop’s Queer Rape?**

Usually the female cop plays the male-dominating role and humiliates the man (Pending)

**Forensic Graphics**

Very often I any city it is alleged that cops racketeer in restaurant or retail store (unless the restaurant is also in agreement with a slave trade) and sets things up to promote slavery or otherwise slaves
them around the city’s underground. Things may appear in the neighborhood that are read by a criminal in a certain way such as: flat red and black color which is an abstraction of murder followed by blood red and black color which is a reality of murder. The cops will say this is a method to “arrest Ciro”, but we don’t believe that. We think cops are running the homicidal maniac around the city for his next victim as strange as it sounds. The sacrifice of the human body would then give a Satanic power to the “officers” of any profession in the city such as a lawyer, judge, politician and many others as it was established in Hades by Lucifer before the earth was created by God.

What Is Alochae?

As an art form, this often referred to as *macabre art* in history. It involves violence on the human body, blood, flesh and a preoccupation with death and Satan.

Ripping Up Bob's Hated Penthouse Mag

I was somewhere in Manhattan by a big cube sometime around 1989 giving an oration, cursing and swearing, against the Penthouse Magazine one
evening. I yelled about it and disgraced Bob Guc-cccione and his son Nicholas, who would be the oppo-sites of my dad and brother. They had built the mag-azine into a great empire and lured many men into their abomination. I then ripped up the magazine and threw it on the ground, walking away.

About an hour later, I was racing with mania and I just wanted to get off of the street. So I found a Hodgie store and I went into the bathroom, closed the light and waited for my thoughts to pass. I was in the bathroom a little too long when the owner of the store called the NYPD on me and stated I was in there shooting up drugs.

*Instead of the cops talking through the door to me and asking me if I was ok in need of medical help, he banged on the door lock with some kind of instrument and broke it open.* He then looked me in the eye and I ran past him and the other officer across form him, pushing both of them out of the way.

I ran down the street and the NYPD squad car psssed me, then the cops got out and sprayed a eye salt in my eyes from a distance and it subdued me. I had actually given in to them just before that.

They then took me to Belview Hospital and cleared my eyes, then I was admitted there for treatments.
What Is a Bounty?

The organized criminal goes to the helpless politician, who represents the common man, and says, “Either let the murderer socialize with all the people and have his one life or we will take 100 lives.” The 100 lives is the *bounty*, the bargaining tool. So then the porn torture artist runs free with his coupe even though he defied all principle to present his face while he was torturing someone. That’s how he gets way with socializing with the common man and never gets arrested.

What Is Judicial Corruption?

The case involving my airgun in July of 2017 resolved itself in court with Judge Roger McDonough telling me I was facing a d-felony with 4 years in prison for pulling a toy gun on the sire of the street. If in fact that is the common sentence for this crime, Judge McDonough has nothing to worry about, and the authors of this book have to move on to other cases of judicial corruption. But, if 4 years in prison is in fact *not* the punishment in the lawbooks for that crime, then Judge McDonough is going to be tried in a federal court for judicial corruption, and then he will be linked to the militia (the Colonie Police Department) that is protecting and hiding the alleged whore
at DiCarlo’s that was patronizing Eliot Spitzer and has still been doing so for other politicians ever since he was convicted. It is possible that DiCarlo’s does not sell a whore there, and it is only a strip joint, but that is unlikely and it is the obvious thing to the community hat it is in fact a whorehouse. We will give DiCarlo’s the benefit of the doubt because we do things legally.

How do Cops Deny a Man’s Right to Defend Himself?

The cop represents the violent arrest after you defend yourself against a queer rape or robbery with the cop’s tazer, gun cuff and billy club. The cop wants to train you like a dog using his forensics based into psychology and sociology that "You are not allowed to use any of the self-defense moves allotted to you by your Sensei that you were given the legal right to use." The cop then claims to be above the law and sets himself up for legal liability. But these cases become federal issues with the courts, especially when you have family ties to the courts, and it results in malice in the violent cop that can also become a liability in court.

The cop will deny you your self-defense move, and when you use it because you have no choice he will arrest you in the cuff and torture you and force you
into he cell even if you get bail and are proven innocent of his false assault charge. This is his classical conditioning to rear up the criminal romantic for the upper class madman. If the cop cant get the ghetto boy on this, he will systematically get him to rear up an altar for Ciro then have him arrested for murder, claiming that the ghetto boy must prove his warriorhood to the girls and the only way to ever stop Ciro is by doing to him what he does to everyone else. This is further proof of the inferences made about cops being taskmasters in this book.

What Is Necromancy?

The restaurant owner wants to necromance the poor moan’s food after he lures him in to socialize in his “legal” establishment, then the evil middle class boy surrounds him with police forensics constantly confusing his mind so he can’t concentrate on a job. But with the right council from the right elder, the boy learns how to overcome the necromancy. Necromancy then creates a serum, or flesh tie to create the slave colony, sometimes called an artist’s colony or starving artist. These are buzz words to the evil middle class boy serving the upper class for his monetary or other rewards, including a wife. Well, the Guccione is giving me a wife because I am an intelligent, competent candidate as a bounty hunter.
You do all of this instead of teaching him how to get a job like a self-employed bounty hunter working for he feds.

The Subtle Touch of the Finger For the Peace Child
The black girl then would touch a white boy's hand from the ghetto in the exchange of items, after he spent his last penny on her merchandise, demanding his child, the negro's peace child for the abomidable elder, with a desire for her flower when the white girl had told him to stay away from it. He would then become confused and the matter would have to be resolved by a white elder, or, if he understood it, another white girl. Sometimes, however, he had no correct council or he was rebellious, and he then would lay with the negro.

Illegal Use of Surveillance Cameras (the New Age Connection)
-tapping into building cameras with a wifi (wireless) and getting things on video record in the police car, misusing it to “time” romantics and erotics on a person using a cop informant (allegation)
Mention of the Digital Age and Nathan’s argument with Nicholas in The Door to Sambucca, and how the New Age (as represented by Nathan’s nephew
James) resulted from the Digital Age. Other explanations come when Nathan has conversations with Wong.

A Corrupt Legal System (Courts and Lawyers)

Negligence is an indication that our legal system is corrupt. Many court hearings are the result of bias judgments and sometimes even oblivious regard to evidence and testimonies, and the court is geared toward condemning the poor and giving privileges to the rich, or anyone who is not of a lower caste. This kind of system fuels a master-slave society.

It must be understood, however, that in order for our country to enforce its Constitution, that which our forefathers gave their lives and limbs in war for, they must have departments to counteract this corruption in local and state governments. The Civil War in America in (1861-1865) gave states certain rights and powers that excluded the federal government, but the federal government then had to develop offices to regulate the abuse of those rights. You are seeing today how a county court system, in my case, is supporting the slave mastering of a local police force, not giving me any say whatsoever in the case. They will not even hear my side of the argument to consider what actions can be taken against the corruption of the police. I would trust however that my family who are involved with the federal government, will take action, an thank God for them. They just seem to be waiting and following all of my attempts to get justice so they can develop evidence against
these local officials.

**Slave Submission**

Slavery in America comes from the *slave submission* arranged by Lucifer’s Hades where a community of Satanic Freemasons abuse their office (corruption) under the leadership of a Gambino’s Romantics in things like extorting talent, extorting labor, sexual favors, pornography, prostitution and things of the like. The Gambino then, after using people to get his way, presents the Good Gambino face to everyone like he never did anything wrong after he just got a slave plea from an oppressed person and got the submission from him. The slave then is available to do anything he is commanded.

Americans need to get their own gun to protect their loved ones and property while we still have the chance before the government changes the Constitution. The poor of our country should not be subject to slavery but given the opportunity to become wealthy just like everyone else.

**Higher Level Law Enforcement Crimes**

Conclusion

There is one question that remains about cops, however. The police department demands the respect of the common man, and he makes it clear that he has opposites on the force to take the blame for corruption. He says there are good cops on the force. But pastor would interpret them to do so, getting the people to behave like savages so the police could arrest them, especially the lying rookie who learned how to hate the poor man from the elder cop.

Case Study: TPD Sgt. Mark Malloy, July 2017—Dec 2018

It became appearant to me that day that if a man was poor in the city, especially if he had a disability, a cop would tag onto him and follow him around and get his daily schedule. Then he would use his illegal informants to get the man caught up in something like a crime, then get him a conviction, then he would try to run him as a slave with something like his talent. And when the man reached out to the community for help, no lawyer would help him, not even the one who claimed to be his friend like Joe Litz had claimed to be mine. And the man could never have the cop convicted for his crime against him, like no one in my community would work with me to convict malloy. Every legal means available to him was denied. And if I hadn't of had my father, malloy would have got his way with me and I could never of had brought him to court.

But my dad made it obvious to me that he was proving his love for me, and his existence, by setting up malloy with me as the poor man, an under cover, because malloy had probably done this many times in the past for the upper class, but he was in charge of
the bounty and he got his way with the community member who cared about the poor. But with me there was no bounty and I knew it was only a matter of time before my dad arrested Malloy.
Jim Robinson’s “Betrayal” By the Troy NY Police
A Personal Testimony

In July of 2017, I had consulted with the Troy Police Department concerning the possession of a self-defense weapon to protect my person from robbery or assault. I was counseled by Sgt. Mark Malloy who addressed the question about the gun and its proper use. Malloy had agreed that it was ok for me to carry and use the gun, but he said “I wouldn’t do it.” A few days later I returned to the station to gather further instructions and confirmation about using the gun, and I sealed it with a written document that I submitted to the station indicating “I would be carrying the air gun in the city.”

I had known Sgt. Malloy for about 10 years prior to 2017 when he was a foot officer in Troy, and I would sometimes see him behind me when I was soul winning. A month or so before the consultation about the gun, I had submitted a logo design for the TPD SWAT team for Malloy for which he paid me my requested $40. But this drawing became a “token of friendship for betrayal” when, after trusting Malloy, I was arrested for carrying and pulling the toy gun with no threat made to me and no one around me in Colonie NY. If Malloy was the “police friend of the poor” he claimed to be, he surely would have counseled me only to pull it in a real threat. I was later convicted at Attempted Criminal Possession of a Weapon (a felony) in the Albany County Court after spending 2 and a half months in jail. Also, as far as I know, the logo was never used for the SWAT uniform patch.

Very often the police department desires the public to show them respect and honor because they “risk their lives on the job and have dedicated themselves to protecting the public.” Still, they have sometimes shown an inability to handle the responsibility of their restraining/assaulting tools, authority and guns, as you will see in this video that was made close to home with a body cam during an APD arrest. The average American in the city risks his life everyday in public with no weapon or authority to defend himself at all.

Interestingly enough, I never had a problem with a cop and I always showed them respect before I had this conflict with Sgt. Malloy. As a matter of fact, I had come to Malloy originally with a desire to be a cop, but the recommendation was to refrain from my goal because of my medical condition.

It is also possible, but only based in my inference and personal testimony, that John Koletas, the Pastor of Grace Baptist Church in Troy, had something to do with this. Pastor Koletas was also a Rensselaer County Court Reporter for over 20 years with connections to law enforcement. He was my pastor for about 25 years.

Gucci Times Issue 48 explains the case with Malloy. The next 2 pages contain a repeat of the text for this issue in larger readable type.

I ran down the street and the NYPD squad car passed me, then the cops got out and sprayed a eye salt in my eyes from a distance and it subdued me. I had actually given in to them just before that. They arrested me and kept me in pen until they took me tot Belview Hospital and cleared my eyes, then I was admitted there for treatments.
Case Study: *NYPD/MTA Abusive Actions* near 2014

Sometime around 2014, I was traveling through NYC as a respected business man, but I had gone without sleep for some time. I was very tired as I approached the line of people waiting to slide their card through the turnstile of the subway for the 6 train. As I walked towards the turnstile, someone had requested the attendant to open the gate because they had large baggage. So, an MTA officer opened the gate while two other officers stood outside the gate. But as the people with the baggage were going through the gate, I seemed to have assimilated my walk with others walking in that line who may not have been with the party with the baggage. Somehow I would up just following suit through the open gate, totally oblivious to what I was doing and not even realizing it was theft of services.

On the other side of the gate there were two MTA cops who stopped me concerning the walking through the open gate without paying a fare. They questioned me and the next thing you know I had cuffs on me and I was being led to a door in the subway hall. Through that door was pen for criminals to await court as they would be transported to other pens in the city.

Case Study: APD Officer *Luke Deer*

March 16, 2019

On March 16, 2019, Officer Luke Deer of the Albany NY Police Department was caught on video (both the body cam of another officer and a bystander’s cell-phone) brutalizing a surrendering suspect. You can watch the video here to see plainly that the three officers involved with the brutality become confused as to who did what, but since Deer was charged with a felony assault (see wynt article) we assume Deer was allegedly the one who threw the suspect down after the suspect had his hands up in the air pleading for Deer to stop. Deer then beat him with a billyclub and drew blood behind his head. It is assumed the suspect then was cuffed and thrown to the back seat of the squad car in that condition, Deer never concerned about calling the EMS for his assault. It is unknown whether or not Deer caused permanent damage to the suspect.

The wynt article articulates that Deer was given paid leave, and he has been on it ever since this happened over a year ago. Isn't that a REWARD for his alleged crime? Considering he doesn't have to go to work and he’s getting paid with our city tax money? Also, as far as I know, no trail has been scheduled in that entire year for Deer, and to this day (May 2020) there is no pending trial that I know of. So is Deer now going to get away with a bloody assault to a surrendering suspect? See also Public Address Video.

APD Cop Luke Deer Never Went to Prison
Is He Still On the Force? Will He Do It Again?

The recent news clip of Luke Deer’s alleged brutality on a suspect was caught on video. The incident is currently under investigation. Deer has been charged with assault and battery.

On May 11, 2022, the Albany Police Department released a statement confirming that Deer, a 10-year veteran of the force, has been placed on administrative leave following the incident. The department is cooperating with the Albany County District Attorney’s Office in the investigation.

Deer’s attorney has denied the allegations, saying that the officer acted in self-defense. The department’s internal affairs division is also looking into the matter.

The Public Defender’s Office has filed a notice of appearance on behalf of the suspect, who is currently in custody.

The incident has sparked outrage among the Albany community, with residents calling for immediate action against Deer.

The Classic Letter to Angela Kelly, Albany County Assistant PD

Quote:

September 11, 2018
Mrs. Angella Kelly
Public Defender
South Pearl Street
Albany NY 12207

Dear Mrs. Kelly:

A little over a year has passed since I was released from jail with your help in our enditement to the County Court in Albany. I have published a great amount of public media since then for my Official Jim Guccione, and consequently I have discovered a great deal of negative things about our trusted law enforcement and legal entities here in the Capital District, which is a micro-cosm of what goes on more horrifically in NYC. The underclasses are subject to slavery via these public offices.

It has been obvious to me, although for legal reasons I can only pose it as a criminal inference, or an allegation, that Judge McDonouh and the Officer Murphy (the cop who field the charges and police report concerning my toy gun charge) are protecting the whore
being sold at DiCarlo’s form any kind of publicity or rebuttal. Since I am totally against the sex industry and I think it is a desecration of the women in our community, I pulled my toy gun for her as you may remember. That was symbolic, as God gave it to me, of me in my bounty hunter’s position someday always striving to free her from her sex slavery. McDonough and Murphy worked together with their ridiculous legal argument to have me committed to jail for 2.5 months then get me on their 5-year felony probation sentence whereby that department could find a way to further get me into slavery under the hand of the Troy police Department’s Sgt. Malloy, who is responsible for giving me permission to have the gun in the first place. Had he told me the truth about pulling the gun in public, I never would have done it. So then, he is liable for that crime as per his faulty legal advice, and also it would be something premeditated attempted murder considering the fact that if I had pulled it in a cop’s presence he would have shot me.

My dad has been using me as an under cover for about 30 years now, and in the process he taught generally most of what I need to know to perform as bounty hunter for the federal government. It has been very painful for me, but we did it for the slave, because my father has compassion on slaves. And yes, slavery is real in America; it appears in the underclasses.

Since I am running out of savings money to spend on my daily expenses to run my business, there is not much more I can do here for my dad. I hope my findings have been sufficient for him, that he may see it fit to move me on to something else. I believe he has quite a bit of evidence now, in the form of illegal violations against me by several offices in this
area, that he can run this case agaisnt Sgt Malloy successfully. I imagine a Guccione lawyer will never even take a case on if he thinks he will loose it. They are that reputable in the court system, although they use a surname and you would never know it is the Guccione family.

Thank you for all you were able to do for me. Jim and I have made a few jokes about you in our pubic media. He didn’t think you would mind. Besides, he says it all being edited by my dad.

I go to Stagecoach every morning about 7-8am to draw pictures for the children. I’d be happy to buy you a coffee if you ever stop by.

God bless you.

Sincerely,

Jim Robinson

The Results of and Legal Action Taken Against Me for That Letter:

The Probation Officer I had been assigned in Renssalaer used this letter against me to restrict me to my apartment with a GPS unit for 4 months after admitting me to the hospital for mental health care for 2 weeks. To get me in the hospital he had to lie and claim I “was going shoot up area restaurants with an UZI.” Unfortunately for him, I secured a counter claim by the head nurse at the hospital that
she “found no such statement in all of her review of my videos posted at that time,” and the officers recorded lie (as Signed by Troy Police’s Officer McEnna who performed the cuffing) has been withheld with the nurses counterstatement for a future court case.

The unwarranted action taken against me by probation, an office which works in conjunction with the courts, suggests to me that Judge McDough and the team of Colonie NY cops who arrested me for the airgun at that time were protecting the publicity of an alleged whore being sold from DiCarlos Gentlemen’s Club. This can be validated by former NY governor Eliot Spitzer’s behavior whereby he was found guilty in a court of law for soliciting prostitutes. It seems that Albany’s legal society is “protecting” any alleged patron of DiCarlos who demands a little more than a lap dance.

Dr. Dilullo;

My mom and I have been trying to work out a childhood trauma that I had and I felt that [redacted] the owner of the coffee house, could help me. So I left her some material at the coffee house. She’s into psychology, and I didn’t want to tell you because your only solution would have been the drug. This is not a psychiatric issue. The drug never helped me with my trauma it only caused me to have panic attacks. I guess [redacted] wanted the director here at the house, [redacted] to know about he letters that [redacted] could further help me, but she misunderstood and felt you needed to get involved. We have already solved the problem. [redacted] said I am still allowed in her coffee shop as long as I do not leave behind any notes. Her kindness was an indication to me that I was right about the things I said in the notes, and that I needn’t worry anymore about it. I can not share those notes with any of you here. [redacted] is a different kind of friend. I am going to be with my family for Thanksgiving and we will talk about it further. It is not a psychiatric issue, I assure you. The note I left was a romantic to deal with the fears I have about my trauma. It was the only approach I knew how to take for a topic so serious.

November 29, 2017

To the Behavioral Health Clinic at Samaritan Hospital, Troy, NY

This letter is to my new doctor or the doctor that will be issuing the second opinion. I was told by a lawyer that I have a right to a second opinion, and I may also have a right to a new doctor based on the fact that as a Probationer I still retain certain of my mental health consumer rights granted to me by the State of NY. This letter is not to be read by Dr. Dilullo. It is assumed by this party that Dr. Dilullo has no say in the request for my second opinion or my new doctor. Any violation of this right will be approached with legal persecution.

The problem I had with both restaurant owners is a matter of trust. I had been leaving notes for Heather, the owner of Little Pecks, for probably about 5 years intermittently. Sometimes, when I am dealing with the trauma of my childhood, I will confide in a restaurant owner whom I feel has been very hospitable to me. For some reason, Heather felt that one of the correspondence that I left was a little bothersome and she thought that I could get a professional opinion by you if she submitted my notes to Dr. Dilullo. She probably doesn’t understand that Dr. Dilullo solves all of these kinds of problems with a higher dose of medication or a change in medication. The same scenarios is true for Savoy, the other restaurant where I submitted a few notes. Even though these particular owners had a dispute over the notes, I have left notes in the distant past with owners like Nick Percelli of the Spillin’ the Beans restaurant in Troy and he never had a problem with them. As a matter of fact, Savoy let me leave notes for about a month before he had a dispute.

In both cases, Savoy and Little Pecks, we resolved the problem. They probably felt that by submitting the notes to my doctor that they were helping me, but that is contrary to reality. Little Pecks told me I was still allowed in their coffee house as long as I did not leave any notes again. Savoy told me indirectly through a cop that he had no animosity towards me and implied that he really wanted to help me. So, you see, the problem was resolved at both restaurants and I have not left any notes since.

This is not a psychiatric issue, this is a psychological issue stemming from a trauma in my childhood. I have been working on this with my family, but it is taking time. When I stretched out my hand to the community, only Nick was willing to understand. The others felt that you would understand as professionals.

Obviously Dilullo did not understand. His raise in my meds has caused me side effects that interfere with my performance as a professional artist. I do not want any other med. I simply want the Triaffion dose returned to the dose I had originally had before it was ever raised at all.

I hope that you can comply to my request and that I do not have to take legal measures to enforce my rights as a mental health consumer in NY. Although I am clearly about those rights because some of them are denied me being a Probationer, I will extend the time and effort to find out what Iights I do have and where I have been violated by your institution.

Thank you for your consideration.

Sincerely,

James P. Robinson
The evidence scans on the previous page reveals a letter I sent to Dr. Dilullo, a psychiatrist from the Samaritan Hospital Behavioral Health Clinic in Troy, NY when I pleaded with him concerning the truth about my “mental Illness”. This is followed by the letter I sent to the Director of the Behavioral Health Clinic in an effort to go over DiLullo’s head to report his corruption, and the director had me admitted to the hospital as a result.

As you can see, the problem I had with the notes that I had left behind was resolved by the restaurant
owners, but I have the inference that the Troy Police insisted on bringing the matter further and having me illegally admitted to the hospital. At that time, several lies had to be told about me and I was cuffed by a Troy Police Officer that we call “Mark” as a form of unnecessary restraint. It was not so much that he used cuffs, considering I had a former airgun charge with the city, but that he put the left cuff on so tight it left a mark. That is a psychological torture that cops use to make a ghetto boy a slave to a magistrate. We are currently investigating this officer and we will be taking the fullest measures of the law to persecute him as part of this case.

A psychiatrist is known for being sometimes a form of art and not even a medical practice, because he has to make arbitrary decisions about the medication a person may need for the alleged diagnosis. Some people have a DNA mutation that causes a chemical imbalance in their brain and requires a chemical to correct it. According to Guccione legend, this was done deliberately over the past several thousand years by the leading classes to create a need for a psychiatric society. Psychiatrists allegedly work with cops to abuse the poor and force them on medications to cause panic attacks upon which a cop can use his resources, such as his car, cuffs and gun, to control the mind of the afflicted. That is probably why cops drive around all day long observing people. A cop doesn’t realize that his behavior is obvious to people who know about cops and where they come
from. Yet, the cop demands the respect and honor of the community for putting his life on the line to solve crime. But to which god does he offer his life? The Muslims offer their lives to Allah. The Christian offers his life to Jehovah. Does a cop offer his life to Satan because his job description requires an insensitive mind to human beings?

After the plea I made to Dilullo not to change my medication based on the fact that my “mental illness” was the result of a childhood trauma, Dilullo completely violated me by presumptuously changing the meds to something that caused me to sleep all day long. This is an example of Pavlov Conditioning as it is commonly used on patients when the police department try to subdue a person illegally with a psychiatrist. This has probably been done before, and in future additions of this book we will be providing case studies.

The Rich and the Poor Mentally Ill (psychiatry)

When the apocathary doctors invented mental illness thousands of years ago, based in forcing trauma on people then injected their effected blood into generational fetuses, they knew the gene could infiltrate the wealthy. So, they designed a medication to treat the illness, even though they refused to invent any kind of medication that would eliminate it. So, a wealthy person then with mental illness
could get the drug and be enslaved to it, but at least he would not have a chemical imbalance. The psychiatrist's power then comes in the form of his willingness to issue the drug. He will withhold it from the poor to make him a slave and control his behavior for the magistrate. Welcome to the world of the a whore.

The Prophet then would set out to find the chart of the shapes of the genes and the corresponding mediation, and this authority to administer the med would be given to any MD, and the Office of Psychiatry would become illegal, as a stated in the Laws of the Republic about a year ago, the society created to heal and correct the slave. This precept coming from the Prophet then would preserve the future generations from the abuse of the New Age Boy and his computer medical treatment that would eventually come in the form of a robot that simulated a human being. And he would be called a Surgeon after name of the he fallen angel created by Lucifer in Hades for the antichrist to rule the world.

The Abuse of the Middle Class Satanist Boy Over the Poor Girl

There are middle class men and adolescents who understand that abusing a poor girl because she is poor is wrong. But there are middle class men and adolescents who take every opportunity they can to abuse the poor girl and compel her into slavery to have the one and only aspiration to be a stripper,
porn star or whore. These are the ones who show her snuff and porn to classically condition her to be a sex slave.

This opposition in the middle class society is what causes violence between the conflicting boys and men, which may manifest itself in gangs. One part is willing to love and care for Jezebel, and help her, while the other party only wants to abuse her.

### What Is a 9.41 Pick-up Order?

If a person is displaying irrational behavior an that may boarderline a crime or violation of some sort (a threat to himself or others), especially in public, or if he uses public media in this fashion, it may be determined by a police officer that he needs to be restrained and brought to a mental hospital intake or crisis unit for evaluation. This unfortunately gives the police the authority to have someone restrained and "incarcerated" based in his bad intent. The dangers of these kinds of pickups are the psychological impact they have on a person being restrained in cuffs and brought in a police car for medical treatment. Repeated incidents of this pick yup may be a classical conditioning used by cops to rear up a slave.
What Is A Psychiatrist?

What Is 9.60 Pick-up order?

This order is when I, a psychiatrist, especially a patients standing psychiatrist, can give an order for a police officer to restrain and transport a person exhibiting behaviors that are a threat to himself or others. The dangers of these kinds of pickups are the psychological impact they have on a person being restrained in cuffs and brought in a police car for medical treatment. Repeated incidents of this pick-up may be a classical conditioning used by cops to rear up a slave. One of the other problems with this and other orders is when a psychiatrist determines someone is "cheeking their meds" as a reason for the pick-up, which is never proven with any evidence, and results in an injection and/or AOT order.

What Is An AOT Order?

If a person meets the criteria of someone who has exhibited intense displays of mental illness including such things as two or more hospitalizations in a year, or criminal convictions as a result of the illness, then a court can deem a person to Assisted Outpatient Treatment (AOT) which is a government mandated health treatment order that compels him to any treatments deemed necessary by a psychiatrist. Cities supposedly have a lawyer to represent the patient in the court hearing, but in my experiences that lawyer
never really advocates for the patient using all means possible (as always is supposed to), but he makes deals with the judge and the hospital doctor to get certain treatments and medications negotiated with the patient that the patient does not want. For example, a male patient may have to settle for an injection of Risperdal (medication that displays some kind of female hormones) in lieu of a hospital stay.

What Is a 9.45 Pick-Up Order?

A 9.45 pick-up order is issued by a psychiatrist for his patient when the patient is exhibiting behaviors that the doctor perceives could lead to him being a threat to himself or someone else based on his history as it is known by his case workers. But the patient has not yet exhibited the behaviors that qualify him for the hospitalization. The only way you can be admitted to a mental hospital is if you are a threat to yourself or someone else, but you see how this 9.45 order, which is a violation of our Constitution, bypasses that right. This order, of course, gives the police officer the authority to simply make a phone call to the mental health society and request the pick up order. Herby using the forensic to establish a fear of the cop in the patient for future abuses by the police. And, very often, as was the case with me in the case
study given here concerning Dr. Dilullo, the pick-up order is supported by lies told about he victim by his trusted case workers, including especially his care coordinator and clinician with whom he has confided in over the past several years about very personal matters.

The Meaning of Trauma

“A trauma can cause a chemical imbalance in the brain.” This is the belief of the mental health society as per an interview with a clinician. He does believe however that supports in the community help you to get better faster. But I feel that a community can show love for a person who had a trauma by accommodating them in their public places. I do not think at all that a trauma causes a chemical imbalance. I believe that is a lie used by the mental health system to get people hooked on antipsychotics.

Sexual Orientation of Professionals

-a new bill proposed to state congress to require professionals to expose their sexual orientation if re-
quested by client. Why? A homosexual male psychiatrist administering Risperdal to cause the growing of breasts as a erroneous “side effect” done deliberately

The Gene for Mental Illness

It is my understanding based on Guccione legend, that the apocathary doctors under the leadership of a Lucifarian over the past 6,000 years since Cain murdered Abel, developed a gene for mental illness to mutate the blood of certain people’s bloodlines. This gene, probably resulting from injecting fetuses with the blood of people whose minds had been effected by trauma, begins dormant in the child and adolescent but may awaken in young adulthood which is the common onset age for diseases like Schizophrenia. The gene, as it is attached to the DNA, had a certain shape to it that a psychiatrist may be well versed in. If you match the shape of the gene with the diagnosis, there is a medicine that the apocathary doctors designed that will treat the symptoms of the genetic defect, even though you can not heal it. That is how “Bad Bob” created a mental health society for professionals to make money off poor bloodlines. It is possible that even though many psychiatrists know this about the shape of the gene
corresponding to the diagnosis and medication to treat it, they deliberately “hit and miss” with many different meds, abusing the patient, to fund the pharmaceutical companies and make excuses why their patients have to keep coming back for evaluations. The clinic then makes all kinds of money off of the patients with Medicare and Medicaid fraud (laundering money).

A trauma Mistreated

If the mental health society couldn't get you on a gene mutation for psychiatry, they would get you on a life trauma, an experience you had that was so devastating it occupied your thoughts constantly. You would seek some kind of psychiatric help because all of your peers noticed something different about your behavior: you were brooding on the trauma. This can often happen in childhood when the evil men in the neighborhood cause some kind of sexual deviance to a child that he or she never forgets. The mental health society then preys on you by staring you on an unnecessary medication regime and treatments that interfere with your job, then you wind up loosing your job and you have to get SSI. Once you do that you are in the mental health system and they can abuse you for slavery.
The Origin of Professional Offices

When God Created the world, he put man in the Garden of Eden with the simple requirements of tending the garden and walking with God in the cool of the day for council. That was a man’s occupation and government. Today, those two simple attributes have been made extremely complex.

Government today consists of offices that give a man a certain amount of authority over people and a desired compensation for running that office. Many times, those offices became abused when a officer discovers an underground of poor people at his disposal, especially if he is part of a freemason society. He learns how to use the authority of his office as power and abuse the poor with it.

This abuse of an office was Lucifer’s plan in the Hades he built in Heaven when he rebelled against God and took 1/3 of the angels into the Hades to experiment with them in an effort to design a metropolis on the earth to govern man. That is when Lucifer’s soul possesses a man, called an antichrist, who rules over his cities. These discoveries in Hades were made with angels when Lucifer designed psychology and sociology and created romantics for offices that would appeal to the men of the earth,
knowing God would create man after he rebelled against him with angels.

God then raised up *counter offices* to oppose the evil of Lucifer's offices, these counters being operated by born-again Christians serving Jehovah. So, today you have a constant battle of good and evil among the offices of society that can lead to atrocities in the world such as war, disease and famine. A free-mason, the common lodge to many officers, requires a secret human sacrifice to get the power of Satan to conduct the office. Many pieces of literature have been written on freemasons.

**The New Age Generation (New Age of Eternity)**

The modern young adult, in the decade of their age of 20-30 years old, during the years of the millennium 2000, has been a caldron of meats and sauces of all the things of their fathers in society and the confusion of the technological abuses of the New Age (the result of the former Digital Age). In an effort to try and figure out the world they live in, they express themselves in art, music, literature, social environments, and their person as to how they have resolved the social issues thrown in their face, or their en-route to resolve them. To the older generation
they may come across as rebellious and deviant, presenting a technology all their own that many of the people of the older generation can not understand. That is what "Bad Bob" did to them. But many still manage to live a normal life, becoming gainfully employed and raising a family.

Why Is Psychiatry Not Really a Medical Discipline?
Psychiatrists have a difficult job trying to match the drug with the diagnosis, but is that what they are really doing? They say there is no real science to it. The very fact that I have a fear of my psychiatrist hospitalizing me for my freedom of speech is an indication that society thinks of me as a poor bastard, and the police department can abuse me therefore. But I have ties with family members in high social strata, and they never considered the fact that I could use that to solve white collar crime. What I am doing is what any intelligent person would do if he felt the system was abusive—he would publish it to the people to warn them about the abuse. Generally, for this to work, you have to have the back of a militia to protect yourself, and I have many fine men who support what I am saying here. I am protecting them and their family members from a chronic corrupt lo-
cal, state and federal government that wants to enslave their children to the sex industry. I am not all on my own here, thus the credit “Jim Robinson, et al.” My pastor has said repeatedly that he feels that people can have a chemical imbalance (what I call the DNA mutation) that requires medications, but I concluded that saying with “others simply had a trauma that was abused by the mental health system to make a slave”.

On the next page is the letter I wrote to the director of the Behavioral Health Department at Samaritan about Dilullo’s illegal act, and the result was cuffing by Mark and ride to the crisis unit by a Troy Police car to totally humiliate me and subdue me as a slave.

Timing

You may find that in your neighborhoods or at the work place someone is using a camera to regulate their appearances with you. It is very hard to detect this (it usually results from the abuse of surveillance cameras) and it seems like a delusion, but I’ve known it to happen to me living in a building with many cameras. It also possible that people can buy a New Age Program on the black market to tap into cameras with a WiFi. The one greatest problem that can result from this is when you generalize and think
everyone is timing you with a camera. That is usually not true.

What Is Care Coordination (Formerly Intensive Case Management, ICM)

The Care Coordination Department, formerly called the Intensive Case Managements department, finds a mental health consumer when he is struggling with his government assistance and offers to help him buy hygiene and other personal items like underwear. It is possible then that this gives the local cops an opportunity to work with the ICM so that they can control the patient by buying his draws with a homosexual ICM and the cops can get into his hygiene by replacing his razors with razors that he spend all of his money on but they do not work properly. That way he can never get properly cleaned up for society. These observations are made as inferences, and they have yet to be proven; it may seem like a small thing, but that’s how a cop makes ghetto boy a slave. Power is used to conquer the evil of Satan. Authority is given to a man for his leadership over the people, and they accept him as a leader openly. For some reason we have given evil cops authority.

The ICM will gets in close to the mental health consumer and under the leadership of a cop he/she will
make claims that the patient is having a form of psychosis when that may not in fact be the case. They try to convince you that something is wrong when nothing is wrong, that results in a hospitalization to fuel the economy of the mental health system.

As you can see, outside of mental health personnel that honestly want to help people the system is completely corrupt and only serves the cop who serves the magistrate (upper class). It is designed to maintain an underclass of people for the purpose of raising up a cop’s salve colony, very often the result of the sharing of body serums. A cop has the ability to put you in the mental hospital for evaluation without your doctor’s consent, and this law is being scrutinized.

Conclusion

So, is there such a thing as a good psychiatrist? Was Dr. Dillulo only the romantic of an evil doctor? Are there psychiatrists who authentically care for the patients who have a DNA mutation for schizophrenia to provide them with the chemicals that the Copy instilled in them? Or do all psychiatrists abuse people who have had a trauma by getting them addicted to antipsychotics to fuel the system and launder Medicaid and Medicare? There may be, but on some occasions a psychiatrist is only appeasing a higher
What Is A Psychiatrist?

magistrate to control a person and extort his talent, skill and life to serve an evil magistrate.
Chapter 3: What Are *Psychiatric Antipsychotics* and their Relationship to a Lobotomy?

The following report is based in theories and I can not prove it at present, but it is serving here for future investigations pending the authority to ask questions to public offices a part of a criminal lead.

It is suspected that many antipsychotic medications are the result of thousands of years of apocathary doctors, working for “Bad Bob”, who performed a surgery on the brain and opened up the skulls of victims and extracted brain fluid and created a human serum mixed with a synthetic process to develop a “medication” that served as a serum tie to create a slave colony among the “mentally ill”. Brain examinations like this are still being conducted today based on the excuse that the psychiatric auspices of our country are looking for treatments and cures for brain diseases and the brain’s function in the systems of the body.

It is not necessary to open up people’s skulls to develop treatments and chemical for “mental illness.” I have said before that a mental illness is either the result of a trauma that has been abuse by medications or a genetic defect that can be treated with a
diagnosis and medication (usually the naturally occurring salt Lithium) that was designed for the mutation. All that is required is a graphic chart showing the shape of the gene and the corresponding treatment. Any MD can do that; it does not require a psychiatrist.

I would be concerned about a surgeon’s chronic desire to open up people’s skulls and “play” with brains, touching a spot to see how the body responds. This is alleged to be a doctor possessed by the fallen angel “Surgeon” as that romantic was created in Hades. God never had any doctors in the Garden of Eden, and that was not his original plan for human life. That surgeon and doctor was instituted by Lucifer who introduced genetic mutations and the ultimate destruction of human life into the world. Goid therefore had to make a counter offices for doctors and surgeon’s (see Origins of Professional Offices).

A brain surgeon then would require a lobotomy (removal of a part of the brain) in lieu of the serum medication that comes from the brain in a compete abuse of a human being.
Above: a lobotomy procedure. At one point in time in medical history, Lobotomies were an accepted practice for healing the mentally ill, but they were really an excuse for a Lucifarian doctor (a doctor who had taken the soul of Lucifer) to terrorize the human race. Lobotomies are still legal in the US, but they were only performed when "no other procedure is working." Why are they still legal? Now the anti-psychotic medication, which is alleged to be a synthetic/biological mesh of brain serums with chemicals, has taken its place. **Risperdol** is one of these chemicals that had been known to cause a man to grow breasts, and it is alleged to have been designed specifically for that desired effect to humiliate a man. A psychiatrist can force these medications on people with mandated AOT programs and probation/parole sentences or other criminal convictions and prison time.
Chapter 4

What Is Fruedian and Pavlov Psychology?

In college we often wondered if Frued invented his psychological theory or if he just found it out. Whatever the case, it is basically a tool used by a magistrate to rear up a slave. At a young age, a sexual abuse is instilled into a child then put into a room in his mind with guard at the door. That guard is the cameraman and cop that shows him pictures and takes pictures of him that he shows to him. A psychiatrist is used also to further abuse the child. We never see the cameraman, who often directs a sequence, and he hides away from society. But very often he has certain tell-tale signs when he interacts in society. So, when a cop tries to get the Frued out of you with his forensics, pay close
attention to him. He may be trying to make you a slave. The principle is that the abuse room is put into the subconscious, and it afflicts the victim all of his life. But when he realizes the cameraman can tell him the truth about it, he finally comes out of his stupor, but is a slave to the Pavolian commands of the cameraman. That’s what pornographic jargon is. People use this when they cuss and swear.

I have seen repeatedly in my interactions with cops that they protect the sex industry as it comes “above ground” in the form of strip joints, bars with elicit girls, and other forms of high class entertainment. We can see this in Trump’s bad example of a president that never sold his gambling casinos with prostitute erotics in his billboards at the entrance to the Lincoln Tunnel in NYC. But is this proof that they cops also support an underground? With Pavlov Conditioning, a common man can become a slave to a magistrate if he does not have the proper respect of the community. I am supported by several mafias and upper law enforcement who are not interested in making people slaves but just want to enjoy their wealth and comforts for the prosperity of their families. I am not a militia man. I am an artist representing the common man. We do not want to see the lower classes become employees at a strip joint or wind up in porn to “come out of poverty” because that is only a romantic lie created by perpetuators of strip joints and porn hubs. Fortunately, the government has been able to drive out some of the porn in

What Is Fruedian Psychology?
the Capital Region, such as was the case with Coulson’s in downtown Albany, and there are only 3 real major strip joints in the Capital Region. That’s a small amount comparatively. The rise of these sex merchants and entertainment centers might be attributed to an organized crime that compels a community to have them.

If you ever studied Pavlov, he invented a system of rewards and punishments for “behavior” that was tested on dogs. It is commonly used in our public school systems. I used to be a public school teacher. Unless you use it, you can not control your children. I never had to use it in a Christian School, however.

The one important thing you have to understand about this is the matter of the hypnotic device. This will come in the form of a naked woman’s body, very often engaged in sex, and public officials like lawyers and evil police officers, especially in the inner cities where social strata buck heads, use this kind of thing all the time.

**Higher Level Law Enforcement Crimes**

**(FBI State Cops Covering Up for Local City Cop Corruption)**

When I reported the crime that Troy cop Mark Malloy committed against me to the FBI, they never responded. This is an indication to me that the federal
government will at times support a local cop who is corrupt. When this happens, there really is no hope for our country. If a common citizen can not report to the federal government a crime committed against him by any officer on the city in which he resides, what other help can that man get? A federal militia must overpower a city militia for this reason.

What is a Violation Commonly Used by Cops?

_A computer violation_

It is quite possible that an evidence technician at a local police station can get access to your IP address claiming you are committing a crime or are in the process of planning a crime. He would then know your internet browsing and keep track of any pornography or other black web interests you exhibit. This may result in him possibly finding a way, using New Age technology (which results from a former digital age) that he gets a remote somehow into your internet and hard drive (!) and he starts the process of controlling your mind with advertisements, blocks and “sticking” of your computer usage, convincing you there is something wrong with your computer and now you have to get a professional to get it fixed. This is all just based in theory right now how-
ever. If a cop can use your computer to control your mind, he is going to get you to perform your profession for the an upper class slave –driver.

**Violation of a Queer**

Very often, a queer who knows you hate queers around you, what he like a queer calls *homophobic* (*afraid of queers*) will hide away from you and watch you on camera in public places if the upper class faggot gives him the ability to do that. Then he will plan a violation, often just a subtle touch, much like the negro girl for her peace child, in a public place that can be seen by other queers who are ignorant of the upper classman's devices of surveilince and the timing and other methods used by the New Age boy to violate a man based on his studies of him on camera. Once this subtle touch is made, the straight man will want to assault him, but a cop will have trained him not to use any form of self defense and threaten to arrest him for it with a certain conviction of 5 years or more in prison for denfending him self against a f queer. The cop then creates a femanine man this way so that the cop can master both the queer and the noirmal man, but the queer is allowed his sexual relationship with other men as a
reward, and the straight man goes unprotected in the community from both queers and other men who want to abuse him.,

One of the other problems a straight man has here is the queer woman who supports the entire homosexual crowd, both men and women, and demands the male homosexual, especially his porn for the straight women who like to watch it. Sp, altogether, the straight woman, the lesbian and the queer man are against the normal man that God created. the white man to rule the earth from savagry. The queer then will propose the crime of a gang rape of the straight that the cop will arrange to appease him based on a blasphemy pulpit pastor's training of a man who only wants to please God to be Christian Martyr.

A “Cop Shit” Violation
As we mentioned before bases in our theory, the one serum that is common for a cop to teach his son in high school that gets abused by a poor slaves is human feces. The culture of the police officer teaches the boy that these people do this on their own free will, but that is contrary to the truth based in our theory here. The cop will instill this abnormal psychology any chance he gets using pornography introduced
to the afflicted person by a cop informant who may come to the afflicted man as a good friend he knows from the street or other storefront. Once a cop has a man or girl on this serum, he can systematically train him or her to desire the sex industry.

_The “Nigger” Violation Against a White_

Conflict among the races of men in any city is common, but very often there is conflict between the African and the European, or the black and white. A black man commonly becomes jealous and angry at a white man’s intelligence, especially when the white man is able to land a good job and the black man is subject to a lower paying job because he simply lacks the intelligence. The black man will insist in the white man being at his level. The black man then will do his best to control the white’s environment in the city as a savage, therefore displaying again to the American people that he never deserved his civilization. But when a black man gets a leadership position over a white, he may use it to violate a white with the authority of his office. This sin ot always the case, as many times the races have learned to get along, as was indicated in the book _The Door to Sambucca_.

What Is Fruedian Psychology?
The Violation of a Woman Over a Man

This might be instigated by a masculine woman such as a female cop who misuses her gun threats. Very often, the female finds a way to humiliate the man (such as claiming he has no sex life) then this can lead to violations by queers who think he will not defend himself because he gets no respect. Many times, women in authority comes across as a violation against men.

Violation of the Rich Kid over the Poor Kid

Ass has been denoted many times in my writings, the greatest problem you will ever have in any civilization is a caste system or social strata, which certainly does exist in America. The rich kid becomes fully aware of his advantages over the poor kid when he is younger and his father instills it in him. He then will choose whether or not to violate a poor kid or be kind and understanding towards him. A poor can kid can for sure enter into a middle-class lifestyle if he is willing to work and stays away from the devil’s temptations. If a poor kind gets caught up in the backstreets of the beautiful buildings, you may loose him to a rich kid. These backstreets become the rich kid’s liaison to tempting and abusing the poor kid.
All of these violations make the man very angry and he can not control his anger. This is how the accessory gets his way and a cop rears up a man as “mentally ill”.

What Is Fruedian Psychology?
Slave Submission

Slavery in America comes from the *slave submission* arranged by Lucifer’s Hades where a community of Satanic Freemasons abuse their office (corruption) under the leadership of a Gambino’s Romantics in things like extorting talent, extorting labor, sexual favors, pornography, prostitution and things of the like. The Gambino then, after using people to get his way, presents the Good Gambino face to everyone like he never did anything wrong after he just got a slave plea from an oppressed person and got the submission from him. The slave then is available to do anything he is commanded.

Americans need to get their own gun to protect their loved ones and property while we still have the chance before the government changes the Constitution. The poor of our country should not be subject to slavery but given the opportunity to become wealthy just like everyone else.

Public Address Video: *The Slave Submission/the 9.45 PickUp*
The Theory of the Slave Society (Kingdom of Hell)

It is possible that the upper class and its accessory middle class are perpetuating an underclass and working class of people that form a subculture deliberately to provide the Freemason Satanic sacrifice, often in the form of the Jezebel Girl. The professional then would gear his office towards abusing the underclass to make a subculture of sexually and otherwise deviant people with an abnormal psychology that can be easily misused by the upper and middle classes.

This principle has actually been found frequently in the human race since the beginning of man, after Cain committed the first murder. But the Prophet said we can change that in the Last Days. Neither the Jezebel poor whore nor the rich upper class girl had to fall on Ciro’s alter. We could work together with the Prophet to save both of the girls by imprisoning Ciro against the will of the evil cop that was his taskmaster and sustainer.

Conspiracy and Paranoid Theory

Once you catch on to a cop’s use of forensics to get you into some kind of behavior pattern, the cops will make either a conspiracy or paranoid claim to the mental health society to have you hospitalized and
medicated.

Case Study: Troy NY Quadruple Homicide, December 2017

Links to the Guccie Times Articles about the Quadruple Homicide:
Issue 32, Issue 33, Issue 34, Issue 39

This surprise to my home city occurred at the end of 2017 and it involved a friend of mine who was one of the murder victims. It is possible that this story is only a fabrication as part of a community lesson for all of us in city terrorism, but after inquiring at the Troy Record as to the validity of this story, no one there ever responded as of 12/16/18. So then, I assume it was a true story, thereby proving the existence of a slave trade in Troy.

For any information regarding this story, you may see the links in the Guccie Times’ articles to the Troy Record that covered the homicides.
Chapter 7

What are Gun Control Laws?

Wikipedia definition of Gun Control Laws in America

A gun control law is considered by many American to be a violation for the second amendment which gives us a right to bear arms. The problems is that the constitution (Bill of Rights) does not specify the type of arms or the operation of that arm which can determine whether or not it can be legal to carry and use. America’s then, as time went on with its government passed legislation based in technologies such as the operation and engineering of the gun and its accessories as to which is legal and which is not. That principle justified laws such as “how many clips you can have at one time” and how big the clip could be, as well as whether or not you could have a fully auto weapon or just a semi-auto.

It seems that the government felt that as long as a man had some kind gun he would be happy with it, even though that gun was almost useless against the weapon of an enemy coming through his door to rape, kill and steal.
Chapter 9

How Is a Google Search an Accessory to Genocide?

The Criminal Google Search (Real Cyber Crime)

As we entered the New Age, we had begun in the Digital Age before it to be introduced to the internet an its classic website URL. It was a fascination back in the 80’s when we started to see the potential of this technology to completely change the world, for good, they said at first, until google started their free snuff and bestiality video sites - as if the freeporn was not enough.

Today, a 10 year old boy can see any possible crime on the internet just by punching it in the keyboard in a google search (if the computer he is using does not have a parental block. By the time he’s 15 and has a part time job, he is paying a cellphone bill with that access anyway available to him all the time.

Why is it the federal government can not pass laws to protect our children from the subculture criminal behaviors on the internet? Are the middle class boys who learn psychology at an early age using it to oppress he underclass with an introduction to these google searches to raise up slave minds? Can any-
thing at all be done about this hideous rolling snow-ball?

This book does not provide a solution to this advancing problem. It is possible the bounties attached to the google industry are so big that he government has no choice but to allow these searches and industries. It would require some kind of legislation. It is a new movement among our younger generation as Part of the New Age Era.
Chapter 10

Who Is Donald Trump?

For the first time in America, we now have a president that flaunts the prostitute erotic. Donald Trump can commonly be seen with his call girls, the remnant of his gambling casinos that represent the wealthy 1% upper class of America as it sets out in the Last Days to abuse the poor.

I have never met Donald Trump, and I do not know what he is like personally—if all he is doing is appeasing the Evil Bob’s romantic of a slave master president. All I know is what the media tells me. He appeals to the upper classes who hate the poor. But Donald Trump can not trump the congress that still has laws in effect that protect the poor of America.

The pressure the media puts on our president effects his morale, and we don’t want him to think we hate him. We don’t. We just know there will be temptations for him to cut Medicare, Medicaid, Social Security and all of the other social services that our young adults of years ago instilled in the American government to help the poor get out of poverty. President Trump may very well be the kindest man you ever met, but when it came to defending his country he was a tyrant. Little did the poor man know, that’s what it took to prevent WW3.

President Trump commonly blames the American people for his chronic involvement in scandals and the current “Witch Hunt”. This may be a repeated pattern for him behind his campaign to master slaves, or so he will paint the romantic for us.
It seems as though that in a time of crisis, such as the current conflict with Syria’s criminal use of chemical warfare, President Trump is extremely knowledgeable, aggressive and intelligent as he has proved himself as a president withal. The domestic issues of the American economy and the condition of its poor have yet to be investigated, but so far we have maintained our current economy to a point where social programs and economic support of the poor is still obtainable to all of us. That reflects on president Trump who deals with the criticisms of certain upper classes who refuse to help the poor.

Donald Trump successfully instituted raises for the politician’s salaries, but he had no consideration in raising the government benefits for the poor (Medicaid, SSDI., SSI, welfare, etc.) for the poor to accommodate a higher minimum wage. The raise int the minimum wage will cause inflation, and the working class will never get a surplus, and the poor will become poorer because of no benefit increase to combat the inflation. poorer.
Chapter 11

*Who Is Jezebel, Her Sheepcote, and What Is Her Judaite Betrayal (the five-way)?*

Probably the most complex and dangerous topic about this book was the matter of slavery. Once that word hits the air it is like a virus that expands in oxygen. If you are a slavemaster you would uncontrollably become defiant and violent when someone exposes your crime of running slaves in the same way a person becomes violent when you come after his bloodline daughter. But slavery is not only illegal it is also treason to America because that’s why we fought so many wars: to prevent slavery in America by a foreign nation like Japan that bombed our Peal Harbour fleet of ships because they didn't like us.

The theory then is that the upper class who hide away from the common and with elitism have set up
a fortification for slavery in America in Apollyon’s engineering, to wit: they perpetuated a colony of bloodline families and/or serum and flesh ties (necromancy) generation after generation in the same way a sheep owner raised a flock of sheep over hundreds of years being watched by a shepherd (taskmaster). The sheep’s only purpose it tot be slained for a sacrifice for the Hebrew temple to God to show the meaning of a human sacrifice, the same way Christ died on the cross. That analogy effectively taught the people what God wanted them to know, in simple childhood lessons, what Lucifer did to the world using his development of Hades in Heaven that created a social strata when human beings became more like objects to shame and humiliate them, and enjoy doing it, so they did not feel human at all. Then they could be successfully mastered, and some of them tortured so their masters could get their way with a compassionate government for Lucifer to control the city. These people are called Lucifarians and they are served by Satanists, the romantic of Lucifer, like an evil police officer serves a magistrate.
Conclusion

As you can see, I have provided many circumstantial evidences and otherwise proofs of my theories concerning the offices of police and psychiatrist in the city and their functions and corruption with the intent to create and maintain a slave society, especially the sex slave for purposes of pleasing the magistrate with his sexual fantasies. This book does not endorse the offices of police and psychiatrist (cop and shrink) because they are the result of 6000 years of perfecting romantics created in Lucifer's Hades in Heaven when he rebelled against God, seeking to make a master/slave slaves society out of God's creation of man. There were no offices or government in Eden. Adam was only given a few simple laws to abide by, and he walked with God in the cool of the day for his council. All of these government prescriptions came as a result of the secular humanism of mankind to control his own savage nature, a nature that was not created by God at all.

The writers and supporters of this book believe that police departments should be dismantled and a concealed pistol, rifle and in some cases sub-machine guns should be given to its qualified civilians to protect their own properties and loved ones. Any medication for the genetic mutation of mental illness can be prescribed by a physician using a graphic chart that shows the shape of the gene and the corre-
sponding mediation, as it was invented by the apocathary doctors over the past 6000 years of abusing human beings with their romantics causing emotional responses. Any mind trauma should be resolved with the help of a nurturing community.

This book is not an exhortation in the world leadership of the Gambino and Guccione families and how they effect the local cop and shrink. We are not going to publish any documentary about that leadership. You just have to use the mind that God gave you.

This is the final edition of this book. Any further study for this book has been left off in lieu of true case studies of homicidal maniacs and their service to world tyrants.
