Ms. Futerfas contacted CGPD to make the following changes to the report:

"I had stated while on my cell phone with Officer Attai on 10.19.21 that Marie's last name was spelled Paulvil (as far as documents I have seen). (Her vehicle tag is GBJ-S80. Her phone is 786-344-4419.) I explained that Marie was my mother's home health aide from Griswold Homecare. I also said I do not like her, she well knows that, and that I had reported her many, many times to the agency she works for. I had also filed a complaint with MDPD and Baptist Social Work about her (in regards to my mother). My complaints about her are EXTREMELY SERIOUS. I explained to Officer Attai that Marie was specifically there to harass me, that she does not live around there, and was likely told by a Tumor Registry (or other) employee of my ex-employer UM, that I was there. (Much more detail in these regards should you wish to know.)

In terms of the incident, I have a mirror on my glasses and saw someone behind me. I turned and looked behind me, saw that it was Marie, turned back away from her, and told her, "I have nothing to say to you Marie". She began calling my name, several times, and asked me, "Don't you want to be friends". I told her to "Get Out". She continued calling my name and I told her she was harassing me and that I was calling the police. I turned to put my signs down and to take my cell phone out of my pocket, and she walked away (it seemed towards the shopping center parking lot). I had mentioned that this is all on video from the cameras at the stoplight at US 1 and the UM walk-over bridge, Mariposa Court."
