

"After 32 years working with aftermarket RV parts distributors, RV dealers, and RV consumers across the country, I am now able to focus my efforts in the RV OEM market. Thanks to SM Osgood providing me an opportunity to join their team of RV professionals, I will be able to stay close to my home in Northern Indiana, the heart of the RV Industry. The time I spent in the RV parts aftermarket gave me great insight as to what types of products RV consumers and RV dealers want to see in their RV's. I will use this information and education to work directly with the RV OEM's to help them choose products from the quality vendors we represent to accentuate the Recreational Vehicles that drive our industry." - Terry Goddard
