

We are starting our third year of hosting CaniXC events and we are loving it! If you're wondering what CaniCross is then you're not alone. This is one of the fastest growing sports that one can do with their dog. It derives from the sport of dog mushing/sledding but you are working as a team with Fido. It's very much a team effort. While you can certainly participate and just run with your dog the idea behind CaniCross is that the dog is actually pulling you while you are running.

You are welcome to run or walk with your dog either on a leash or with the dog harnessed and attached to your running belt. We can also properly fit you and your dog with harness, lead line and running belt. We are partners with Howling Dog Alaska, Non-Stop Dog Wear and Kurgo.

We want this to be a fun experience for both you and your dog, so we encourage you to come and try out this sport. We have two exclusive CaniXC events and five CaniXC events associated with our trail events. We will also have a number of additional dog friendly events.
