***Wow. What an amazing company. It seems like it never stops, they continually offer new incentives to help all of our people to move to another level, make extra money, but on top of it all our theme was—Be the Effect... It is so amazing when you see so many people who have had their lives changed one way or another. We never know what effect we will be part of in someone's live. That is the major difference with Shaklee. We are about changing peoples lives wither it be in Health or Wealth. We continually hear so many stories in regards to either. When you know you have been the person responsible for sharing Shaklee with someone whose life has been changed forever, think about how you feel. There is no price that you can put on that. Imagine sharing the business with someone who has no plans for their future, someone who is falling short every month, someone retired and can't make ends meet, someone who is unhappy it their current job. They feel like they have lost hope and you share with them & they get it. They will be grateful always. I am so thankful to my Aunt for telling me about this company. Maybe I did not understand what I do now, but where would my life be without Shaklee. I don't even like to think about it. I just thank the Lord that I was brought to this company not having any idea the impact or effect it would have on my family as well as my life. So my question is whose life would you like to make a lasting effect on by sharing. I will be happy to help you share the story with them. Just give me a call. Nina***

**NEW PRODUCT—MIND WORKS—Shaklee is introducing our new Mind product the end of August. We are so excited as we are hearing great results already from the samples people were trying before the introduction.**

## Staying Happy and Healthy in Summer!

Performance was one of the very first Shaklee products that my grandson actually requested when he was a year and half old. My daughter had a team-pack size of Shaklee Performance on the floor of her pantry, and one day when my grandson woke up from his nap, he said to her "Juice"! my daughter has always been great about giving him water about 95% of the time, and only an occasional small glass of actual juice, and even that she cuts with water... otherwise it has way too much sugar for such a little body! Trevan had only had Performance a few times but he obviously knew where she kept the container. Because, when he said "Juice" that day, she proceeded to the refrigerator to get out some apple juice, but when she turned around, he was standing in front of the Performance jug pointing to it, saying "Juice"! On a hot summer day....Performance makes a great alternative even to water!! I keep a big jug of Performance made up in the fridge, and I also use it to make yummy, healthy popsicles!

## Leukemia Scare

I went to the V.A. Hospital where the doctor told me that I had to see a specialist right away. They discovered that my platelet count was 80,000 (normal is 150,000 to 400,000). When I saw the hematologist, he diagnosed me with chronic myeloid leukemia. I asked the doctor is there was anything I could do to bring up my platelet count... a certain food, a vitamin, anything. He said, there is NOTHING that he knew of that could bring up a platelet count and if my platelets got any lower, I would have to start a program of infusion. In the meantime, my wife and I had been reading about the benefits of Shaklee NutriFeron in the newsletters. What caught our attention was that NutriFeron was able to rebuild your immune system. We decided that I would try the NutriFeron because I had nothing to lose. 3 months later my platelets had increased to 85,000 and in 6 months the doctor said in stunned amazement, "Your platelets are now at 120,000 from 80,000... I just can't believe it!" He asked, "What did you do?" I told him that I just started taking Shaklee's NutriFeron. All he said is, "I've never heard of Shakee."

I thank my wife, because she was the one that encouraged me to take it, and I thank God and Shaklee."

## Basic H to the Rescue!

On Saturday, Basic H worked for me 3 times and I didn't even clean my house! My husband developed a rash after pulling weed; I then spread Basic H on the rash and hours later the rash was gone and the mosquitoes didn't bite at all! It also cleaned up all of the black grease that my nephew got into from my husband's truck. The uncles wanted to clean him up with gasoline. Basic H to the rescue!

## Early Dementia

In September, Dr. Frank Painter posted information about a study using Ginkgo Biloba to improve mental anxiety that may be associated with early dementia. I have been taking six of the Shaklee Mental Acuity since I read the post... more than 90 days ago.

## New Found Energy?

I started using Shaklee's Energizing Soy Protein. On the first day, I mixed it with orange juice and added fresh pineapple. The next thing I realized was I had cleaned my house, washed all the laundry and was starting on flower bed outside. Whoa! Is this the same body I had last week? It really did boost my energy level!!

Beverly Affeld, Hebron IN

There has been a remarkable difference in my brain function. Previously, I was fairly good until about noon, but after that I was good for nothing. I just couldn't focus or even know what I needed to focus on. I was anxious about the situation because of living alone and wanting to be completely independent. Today I feel more like ten years ago. Back to more normal for me... staying independent and in control. The only difference is the six Mental Acuity. Life has been restored to normal for this 81 year old.

## National Senior Citizens Day

### Autistic Son

The doctors told us our Autistic Son would never speak. He can now talk and tell us his needs! My son is now 7, but at 3 he was diagnosed with autism. When he was diagnosed, we were told that he was very severe on the autism spectrum chart. The doctors told us he would never speak, would learn very little, and not to expect much from him. We read that some parents have voluntarily taken their children off of casein and gluten and have found remarkable results. My husband and I chose not to take our son off gluten, but by age 6 he was diagnosed a celiac, so we had no choice. He has always been a vegetarian, not by conscious choice but probably because of texture. My friend introduced us to Shaklee supplements, and our personal experience has proven to us that the quality and bioavailability of the supplements make all the difference in the world with regard to results. I have put him on lots of Shaklee supplements. Being vegetarian he takes 1/2 cup Shaklee Soy Protein through out the day along with the following supplements: 2 B-Complex, 1 Optiflora Probiotic, 2 OmegaGuard, 4 Vitamin D3, 2 Vita Lea with iron, 2 Sustained Release Vitamin C, 3 Super Cal/ Mag plus, 1 GLA, 2 Lecithin, 2 Mental Activity, 1 Zinc, 3 Alfalfa. He has been on this for about 18 months and we have noticed major improvement in him overall. He can talk and tell us his needs. He is gaining social skills slowly. I just had a meeting with his teacher and he has met or exceeded every goal we set for him on his IEP except the one about typing 10 words per minute. I put all his supplements in applesauce, mix in the protein, add a little cinnamon for flavor and it tastes like an apple pie. He is now to the point where he is swallowing the supplements

whole. I send protein in his applesauce to school for lunch, and he has supplement again after school. If he gets wound up, I give him up to 3 Gentle Sleep Complex to take the edge off. I think the biggest change I saw in him was when we began the Optiflora. His expressive language really took off. His behavior is much more manageable now— he is a wonderful little boy.  
Lynda

### Magical Combination

Calming Complex is probably one of the most undersold, magnificent products in Shaklee! I've had notoriously dry skin all my life and now at 71, thanks to Shaklee's Calming Complex, combined with C+E, people younger than me want to know my secret. I've recommended these Enfuselle Products for people with eczema, jungle fungus from Korea, people using medication that was drying out their skin— all got the same amazing results as I did. The only good thing I can say about dry skin is I did not have the worries of Acne, but dry skin cells causes cells to flatten down and not accept moisture which causes more rapid aging of the skin. However, thanks to these great products, my skin is aging very gracefully and less than my friends with more normal skin types.  
Vivian P.

### Allergies

My son and I suffered from allergies for many years. Our symptoms were most severe during the spring and fall allergy seasons, but as time went on, our medications needed to be yearlong. My son, Riley's symptoms were the most severe. He had constant sinus congestion, red itchy swollen eyes and nose, and he felt miserable. Even after 2 1/2 years of allergy shots, he still required Zyrtec and Nasonex nasal spray. They helped symptoms so they were manageable, but he never felt allergy-free. I was introduced to Shaklee products that helped strengthen the immune system. Within 6 to 8 week, I was so much more improved and was able to stop my allergy medication completely. Riley took about 3-4 months before symptoms subsided and he was able to eliminate the medications. Both of us were able to reduce the number of supplement tablets as their immune systems got stronger.  
Susan K.

## Do you think your Vitamins are expensive?

Many people have the misconception that Shaklee is expensive. Don't deny it, I was one also. But then after CTCA put me on a anti-cancer diet and I was given a list of vitamins and foods to eat and take, Rick and I found out what was expensive and what was the best buy for our money. Shaklee won out over Walmart's vitamin cost, Vitamin World, on and on. Plus having to run to the

different stores to buy them and hope they had them in stock. I also saw a difference in less than a week in how I was feeling when I substituted Shaklee for the other brands we were buying. Dr. Shaklee made his products pure before Americans were made aware of the toxins in their foods, medications and vitamins. He also made his oral products to be readily absorb by

our bodies. Shaklee does not spend billions of \$ on commercials, it is by word of mouth that people find out the truth about Dr. Shaklee's products. I would never purposely lie to anyone especially my family or friends, so when I give testimony to Shaklee products, know that I use them and believe in they do what I say they do. Beverly Affeld, Hebron IN Editors Note: I have heard over and over from people who are using other brands. Wow Shaklee is not expensive. Especially for the difference.

## Product Highlight—Mighty Smart

Essential for Children's Brain Health, Memory, Focus, Eyes

Did you know... a child's brain forms not millions or billions, but TRILLIONS of cell connections during the first decade of life. DHA makes up about 97% of all the Omega-3 fatty acids in the brain and 93% in the retina. The brain needs DHA to work!!

Why take it— Supplies 100% natural, ultra-pure DHA obtained from omega-3 oil. Pure, potent, and safe. All of the benefits of eating fish without any of the fishy flavor or potential risk. Kids love the orange, chewy, gooey taste.

What Issues Can It Help With— Early brain development, brain health, cognitive function, mental skills, memory, focus, concentration, attention, eye and vision development and health, cellular communication, mood and behavior. Provides excellent support for virtually any and all children' concerns. Provides a strong foundation for optimal physical and mental development.

Note: For children who can swallow a great alternative is OmegaGuard daily.

#20076 \$27.00 Member Price. 30 Chews. Gluten Free. Kosher. 75% Organic. Natural Orange Flavor.
