

timecard

because time is money

timecard LBS is a mobile tracking and time sheet solution that works from a wireless device. Data is transmitted from your field worker's handset or tablet to the web-based software for real-time backend management capabilities. Companies that use SkyConnects timecard can expect to benefit in the following ways:

- n Increase worker productivity
- n Decrease in Time-Theft by Employees
- n Reduced paperwork & time savings
- n Manage workforce more efficiently
- n Streamline Time and Attendance into preferred Accounting and Payroll Systems
- n Increase Profits by saving on everyday costs (fuel, administration, overtime, etc.)

timecard LBS consists of:

Easy to use mobile-phone software that allows your workers to be tracked through a business day. Mobile workers are able to clock-in, take a break, change task and clock out; all directly on their mobile phone, iPhone, Android or Blackberry Devices.*

- n Employee Tracking (Location, Movement, Speed and Direction, over 12 Triggers)
- n Over 20 Reports (Time, Attendance, Tasks, Sub Tasks, and many more)
- n Customer and Editable Fields on Handsets (Mileage, Custom info from field etc)
- n View multiple employee locations on the map
- n Clock in and out multiple field workers from a single device
- n Web user log in/out; Administrator log in/out

timecard LBS is ideal for companies that have a mobile workforce such as:

- n Construction
- n Distribution
- n Utilities
- n Transportation
- n Public Safety
- n Government
- n Accountants
- n Merchandisers
- n Healthcare
- n Lawyers
- n Telecommunications
- n Many more!

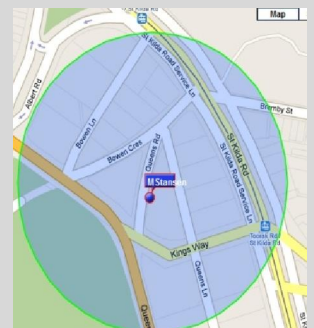

View individual worker details including activity and current position.

The 'Breadcrumb' trail view shows speed, direction, location, and status of workers

Multiple rules can be setup based on triggers such as entering or exiting area, speed and movement.

Smart fences can be setup around any mapped location
