I. RATIONALE

This course is designed to develop basic musicianship skills, including the ability to hear and sing music notation and to notate heard music. These skills will be developed in terms of pitch, rhythm, and harmony via sight singing and dictation. Improving these fundamental skills will increase the likelihood of student success throughout the music curriculum and in later professional life.

II. COURSE AIMS AND LEARNING OUTCOMES

By the end of this course, each student should be able to:

- Define theoretical terms related to aural skills as discussed in class (solfege, etc.)
- Classify heard musical elements theoretically (e.g. major scale vs. minor, etc.)
- Modify a given element intelligently, e.g. hearing a major triad and singing a minor one
- Analyze a piece's rhythm and pitch content to convert it to notation (dictation)
- Perform a short piece at sight using solfege syllables
- Evaluate the dictations of others according to the style and terminology covered in class

These learning outcomes are based on Bloom's Taxonomy: Knowledge (define, repeat), Comprehension (classify, convert), Application (demonstrate, modify, arrange), Analysis (infer, estimate), Synthesis (create, design), Evaluation (critique, justify, discriminate).

III. COURSE DESCRIPTION

- Beginning studies in solfeggio, melodic and harmonic dictation. Must be taken in sequence.
- Corequisite: MUTH 1229. Required of all majors. **You should also be enrolled in MUTH 1229 at this time. See me if you are not.**
- This course will focus on dictation and sight-singing using diatonic melodies derived from the tonic and dominant in major and minor keys. Rhythms will utilize beat units and beat divisions in both simple and compound meters, with an introduction to tuplets.

IV. COURSE REQUIREMENTS, EXPECTATIONS, AND POLICIES AND POLICIES

Attendance and Participation Policy

- Prompt attendance is vital. Absences and tardiness may affect your grade.
Attendance will be taken at each class meeting.
Being late for class will result in a lower grade for "participation."
For an absence to be excused you must notify the instructor in writing prior to the date of the excused absence.

Oversleeping, family reunion trips, vacations, etc. will not be considered as excused absences.

- Make-up work:

It is the student's responsibility to obtain handouts, notes, and assignments for all classes missed. Consult the course emails or the Canvas page for more information.

Late homework must be turned in **within one calendar week** of the absence. Otherwise, a zero will be recorded in the gradebook.

- Absences on exam days:

Missing an exam is a serious issue. Exams missed due to *planned, excused* absences (including extracurricular activities and religious observance) must be made-up **before** the exam date.

Other *excused* absences on test days will be considered on a case by case basis. Late exams must be taken **within one calendar week** of the absence. **In all cases, exams that are not taken will result in a zero (0) for that exam grade.**

Regarding the final examination: The final examination day and time are established by the university and cannot be changed. Please plan accordingly. **Make-ups will not be offered after the final exam date. In all cases, a missed final exam will result in a zero (0) being recorded for the final exam.**

Missing exams or quizzes will result in a lower grade for "participation."

I. RATIONALE

This course is designed to develop competency in music theory, including terms, symbols, practices, and conventions of Western music. The conceptual focus of the course is on harmonic theory (especially chromatic harmony) normative to the late Baroque Period, the Classical Period, and the Nineteenth Century. This study is required to facilitate performance as well as theoretical understanding and provide practical application of such knowledge to the scholarship, performance, and pedagogy of music.

II. COURSE AIMS AND LEARNING OUTCOMES

By the end of this course, each student should be able to:

- Define theoretical terms related to chromatic music as discussed in class
- Classify elements and structures in a given piece of music using appropriate terminology
- Modify a given element intelligently, e.g. changing a Fr+6 to a Ger+6.
- Analyze a piece of music globally on a level appropriate to the student's theoretical expertise
- Create a short musical example demonstrating an understanding of theoretical concepts covered in this class
- Evaluate the music of others according to the style and terminology covered in class

These learning outcomes are based on Bloom's Taxonomy: Knowledge (define, repeat), Comprehension (classify, convert), Application (demonstrate, modify, arrange), Analysis (infer, estimate), Synthesis (create, design), Evaluation (critique, justify, discriminate).

Specifically, this course fulfills the departmentally-determined outcomes listed below:

1. Identify and notate standard chromatic chord types such as borrowed, secondary function, Neapolitan, and augmented-sixth chords.
2. Demonstrate the use of chromatic chords in harmonic progressions using correct voice leading.
3. Analyze music containing chromatic chords and modulatory techniques.
4. Identify and notate standard forms of ninth, eleventh, and thirteenth chords.
5. Use extended tertian chords in harmonic progressions demonstrating correct voice leading.
6. define and identify compound ternary, rondo, and sonata forms.

III. COURSE DESCRIPTION

- Continuation of Theory I and II covering the Romantic repertoire. Emphasis on traditional harmonization exercises, beginning studies in musical form, and an introduction to species counterpoint. MUTH 2229 is the third semester of a four-semester theory sequence for music majors and minors.

- This semester will cover core chromatic harmonies and select topics in musical form. Topics of emphasis will include binary and ternary forms, rondo and sonata forms, as well as analysis and part writing of secondary dominants, secondary leading-tone chords, modulations, modal mixture, the Neapolitan, augmented sixth chords, enharmonic spellings/enharmonic modulations, Vsub6, V+, and the common tone diminished seventh chord.
- First-year music theory knowledge (staves, clefs, note reading, scales, key signatures, intervals, chords, part writing, etc.) is assumed. N.B. this class is not a repeat of the first year.
- Prerequisites: MUTH 1229, 1230, 1129, 1130.
- Corequisite: MUTH 2129. Required of all majors. **You should also be enrolled in MUTH 2129 at this time. See me if you are not.**
- The scheduled class meeting time will be used for group instruction, tests, quizzes, make-up tests or quizzes, individual or group review sessions, individual meetings, and other instructional or evaluative activities as determined by the instructor.

I. RATIONALE

This course is designed to develop competency in intermediate music theory, including terms, symbols, practices, and conventions of Western music. The primary, but not exclusive, focus of the course is on the analysis of musical forms normative to the Baroque Period, the Classical Period, and the Nineteenth century. **Form analysis is the process of discerning the discrete temporal units of a piece of music at various architectonic levels.** These units are discrete in that they form distinct entities, they are temporal because form describes the organization of time, and they are architectonic because they function in multiple time domains simultaneously (moment, movement, piece).

II. COURSE AIMS AND LEARNING OUTCOMES

By the end of this course, each student should be able to:

- Define terms related to formal analysis as discussed in class
- Classify elements and structures in a given piece of music using appropriate terminology
- Modify a performance based on an understanding of formal analysis
- Analyze the form of a piece of music
- Create a descriptive diagram demonstrating an understanding of formal analytical concepts
- Evaluate the analysis of others according to the style and terminology covered in class

These learning outcomes are based on Bloom's Taxonomy: Knowledge (define, repeat), Comprehension (classify, convert), Application (demonstrate, modify, arrange), Analysis (infer, estimate), Synthesis (create, design), Evaluation (critique, justify, discriminate).

III. COURSE DESCRIPTION

- Study of musical form through examples from pretonal and tonal literature.
- Prerequisites: MUTH 2130 and 2230.
- Theoretical Knowledge Base: intervals, scales, keys, chords, cadences, augmented-sixth chords, secondary functions, modulation, contrapuntal voice leading. **N.B. This class is not a review of second year theory.**
- The scheduled class meeting time will be used for group instruction, tests, quizzes, make-up tests or quizzes, individual or group review sessions, individual meetings, and other instructional or evaluative activities as determined by the instructor.

I. RATIONALE

MUTH 1301 Fundamentals of Music Theory is a course for non-music majors that allows students to study the basic principles of Western Art music, also known as music of the “common-practice”. Learning the fundamental elements of music notation and practice not only allows one to understand and appreciate music of many styles, but also provides the rudimentary background needed to notate musical ideas, share these ideas with others, and read and perform music. Although this course focuses primarily upon traditional classical music, the principles and notation skills are applicable to a wide variety of styles, and all traditional, Western musical instruments

II. COURSE AIMS AND LEARNING OUTCOMES

By the end of this course, each student should be able to:

- Identify the aural differences between various musical parameters, such as pitch, rhythm, meter, and timbre.
- Read, write, and aurally perform basic rhythmic notation.
- Read, write, and sing basic music notation of pitch in treble and bass clefs.
- Identify and write major and minor key signatures.
- Identify, write, and sing major and minor scales and identify the five basic modes.
- Identify, write, and sing general and specific intervals.
- Identify and write tonal triadic and seventh-chord harmony, using Roman numeral symbols, Jazz/Pop chord symbols, and notated pitches in traditional music notation.
- Identify and write triads and seventh chords in inversion using correct notation.
- Apply basic musical analysis to identify and evaluate the use of pitch, rhythm, and harmony in tonal music.
- Integrate this knowledge into the creation of short musical compositions.

III. COURSE DESCRIPTION

The general objective of the course is to present and apply the basic components of written Western music and to develop basic music reading and writing skills.

- **Theoretical Knowledge Base:** intervals, scales, keys, chords, notation of pitch, notation of rhythm, and elementary aspects of standard harmonic and formal analysis.
- The scheduled class meeting time will be used for group instruction, tests, quizzes, make-up tests or quizzes, individual or group review sessions, individual meetings, and other instructional or evaluative activities as determined by the instructor.

IV. COURSE REQUIREMENTS, EXPECTATIONS, AND POLICIES AND POLICIES

Attendance and Participation Policy

Make-up work:

It is the student’s responsibility to obtain handouts, notes, and assignments for all classes missed. Consult the course emails or the Canvas page for more information.

Late homework must be turned in **within one calendar week** of the absence. Otherwise, a zero will be recorded in the gradebook.

Missing exams, assignments, or quizzes will result in a lower grade for “participation.”

Disability Accommodations: Students who need academic accommodations for a disability must first register with Disability Accommodations & Success Strategies (DASS). Students can call 214-768-1470 or visit <http://www.smu.edu/Provost/SASP/DASS> to begin the process. Once they are registered and approved, students then submit a DASS Accommodation Letter through the electronic portal, *DASS Link*, and then communicate directly with each of their instructors to make appropriate arrangements. Please note that accommodations are not retroactive, but rather require advance notice in order to implement.

Sexual Harassment: All forms of sexual harassment, including sexual assault, dating violence, domestic violence and stalking, are violations of SMU’s Title IX Sexual Harassment Policy and may also violate Texas law. Students who wish to file a complaint or to receive more information about the grievance process may contact Samantha Thomas, SMU’s Title IX Coordinator, at accesssequity@smu.edu or 214-768-3601. Please note that faculty are mandatory reporters. If students notify faculty of sexual

harassment, faculty must report it to the Title IX Coordinator. For more information about sexual harassment, including resources available to assist students, please visit www.smu.edu/sexualmisconduct.

Pregnant and Parenting Students: Under Title IX, students who are pregnant or parenting may request academic adjustments by contacting Elsie Johnson (elsiej@smu.edu) in the Office of the Dean of Students, or by calling 214-768-4564. Students seeking assistance must schedule an appointment with their professors as early as possible, present a letter from the Office of the Dean of Students, and make appropriate arrangements. Please note that academic adjustments are not retroactive and, when feasible, require advance notice to implement.

Religious Observance: Religiously observant students wishing to be absent on holidays that require missing class should notify their professors in writing at the beginning of the semester and should discuss with them, in advance, acceptable ways of making up any work missed because of the absence. [Click here for a list of holidays.](#)

COVID-19 and Other Medical-Related Absences: Students who test positive for COVID-19 and need to isolate, or who are notified of potential exposure, must follow [SMU’s Contact Tracing Protocol](#). To ensure academic continuity and avoid any course penalties, students should follow the same procedures described by their instructors as they would for any other medical-related absence in order to be provided with appropriate modifications to assignments, deadlines, and exams.

Excused Absences for University Extracurricular Activities: Students participating in an officially sanctioned, scheduled university extracurricular activity should be given the opportunity to make up class assignments or other graded assignments that were missed as a result of their participation. It is the responsibility of the student to make arrangements for make-up work with the instructor prior to any missed scheduled examinations or other missed assignments. (See [2020-2021 SMU Undergraduate Catalog](#) under “Enrollment and Academic Records/Excused Absences.”)

Final Exams: Final course examinations shall be given in all courses where appropriate, and some form of final assessment is essential. Final exams and assessments must be administered as specified in the official examination schedule. Exams cannot be administered or due during the last week of classes or during the Reading Period. Syllabi must state clearly the form of the final exam or assessment, and the due date and time must match the official SMU exam schedule. Final exams are not required to be provided online.
